Hi Camille!

Just wanted to confirm that Planning has been signed off. The inspector noted this morning that multiple agencies hadn't been signed off. I know Geotech is done. We are waiting for one small thing from Public Works. I will call him first thing Monday. Please let me know if you need anything from us to sign planning off. Ideally it will show signed off in your system before the inspector goes back out on Monday morning.

Thank you!

Christen

Hi Camille!

It's Christen! Happy Friday! Thank you for all your time, attention, and effort on this last push to get this thing finalized! Melody met me downstairs and we were able to get the O&M taken care of for now and she gave me the final list of conditions.

Unfortunately we didn't pass the building inspection today so we'll try again Monday.

I sent an email to the Geotech dept. Hopefully we can get that wrapped up by Monday morning. Is there something Public Works needs from us? I just want to make sure that the ball is not in our court and you guys have everything you need to final this once the building dept signs off.

Thank you again and again! Almost there!

Christen
