Good morning,

Our apologies for not signing this permit off sooner, however it does not show up on Accela. Thank you for signing it off on our behalf over the phone. Please see attached pictures. I would like to point out that when searching for BLD2016-00158, it states that there are 6 matching/similar criteria, but only shows 5. Perhaps there is some setting that does not give fire permission to see this particular permit?

Thanks,

Austin Seely

Hi Austin and Madeleine!

Connecting you guys - It seems both properties have been signed off but there is some discrepancy in permit numbers.

Madeleine - Does an email from Austin work for now?

Thank you!!

Christen
