I am writing in support of Agenda item 2, a proposed multi-story house with an attached garage on a large lot. I live directly across the street from this project, and will be pleased to see it completed. The plans I have seen take advantage of the site by setting the house back from the street while keeping the height below the 28' limit. The plans indicate a house that is well conceived and appropriate for the neighborhood. There exists the potential to include an ADU if desired.

Sincerely,

Larry Miller

Hello,

I recently have had the opportunity to view plans for a proposed multi-story house with an ADU and attached garage. This is on a large lot that belongs to my neighbor. My home of over twenty years is 546 Isabella rd. After reviewing my neighbors plans, I approve and welcome the new construction plans knowing that the house will be a great addition to our street.
