

# CENSUS 2020

## What You Need to Know

### What is it?

- Every ten years the federal government is required to count **everyone** living in the U.S.
- The U.S. Census Bureau collects information from every residence about who is living there and **basic information** about each member of the household.
- This information is combined into **statistics** that are used to make important policy and budget decisions.

### Why is it important?

- Funding for community programs and services
- Political representation
- Redistricting
- Sampling and analysis for population research

### What will be asked?

About each household:

- Number of people living there
- Home ownership
- Phone number

For each person:

- Name
- Age
- Sex
- Race/Ethnicity

Census 2020 will **NOT** ask about citizenship or immigration status.

### How is the data used?

Census data is used by local leaders, businesses, and other organizations to make decisions about community programs and services.

### Who gets counted? **EVERYONE!**

Immigration status, age, or criminal history **DO NOT** matter. Every single person living in the United States on April 1, 2020 should be counted. Make sure everyone living in your residence is counted:

- All children and parents
- Extended family members like grandparents, aunts/uncles, cousins
- Non-family members such as friends, roommates or workmates

### When and how should I respond?

You can begin responding in late **March 2020:**

- Complete online or by phone (English + 12 languages)
- Complete paper form (English or Spanish)

 If you do not respond by May 2020, Census Bureau workers will come to your home to follow-up.

### Will the information be confidential?

By law, information you give on the census form is **confidential**.

The Census Bureau takes many steps to protect your personal information and does not share details about you or your household.
