Santa Cruz Avenue and Alameda de las Pulgas

IMPROVEMENTS STUDY

FINAL REPORT - AUGUST 2020

Appendix B – 2018 Public Meeting Survey Results

Draft Santa Cruz/ Alameda de Las Pulgas Corridor Study

Thank you for your interest.

This survey is being fielded by the Santa Cruz Avenue/Alameda de las Pulgas Corridor Task Force. This San Mateo County sponsored community working group has teamed with a broad array of community groups and public officials to improve traffic safety for residents, pedestrians, cyclists and motorists who live, work, do business in-- and pass through-- this busy corridor (See Map below).

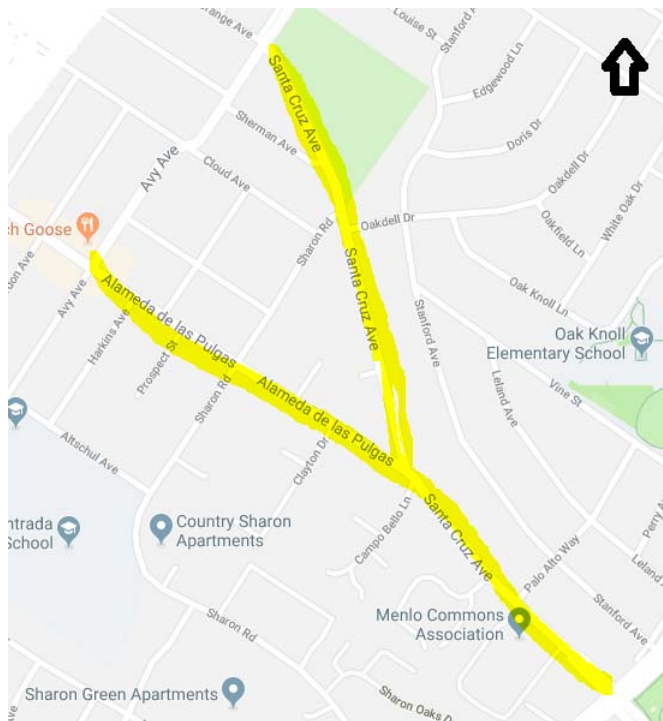

This survey is one tool being used to gather important input to determine near- and long-term opportunities to improve traffic-related safety for all those using this corridor. Results from this survey will be tallied by type of user and key activities (resident, commuter, cyclist, pedestrian, etc.). Recommendations will be prioritized for improvements that benefit residents with local impacts followed by all users with regional impacts.

For more information about this initiative please visit:

<http://publicworks.smcgov.org/santa-cruz-avenue-corridor-study>

* Required

Corridor Study Area - Highlighted in Yellow

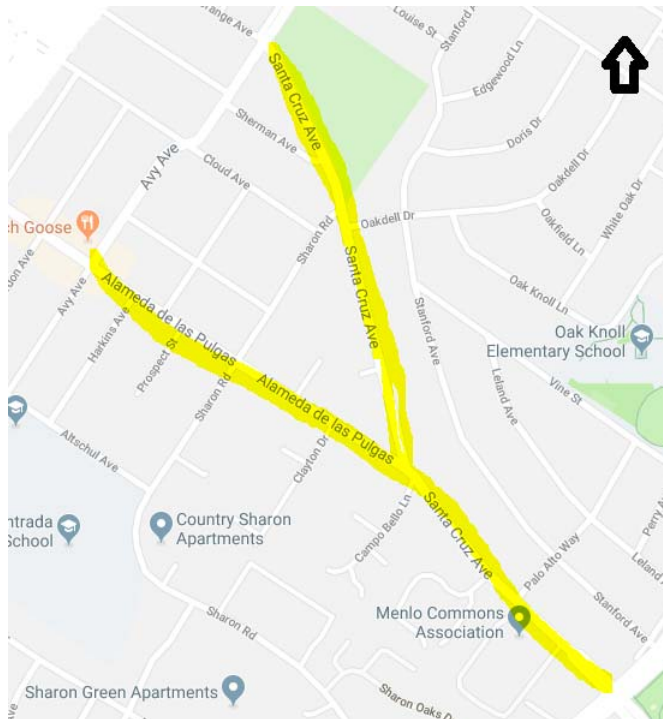

The feedback you provide will help our Task Force set some priorities for improvements.

1. How do you use the Santa Cruz /Alameda corridor? Choose one *

Mark only one oval.

- I live in the area shown on the map below *Skip to question 2*
- I am not a resident but I use services, schools, or work within this area *Skip to section 4 (Non resident- Business, School, Work)*
- I only commute thru this corridor *Skip to section 5 (Commuter)*

Map of Corridor

Resident

2. Specifically, I reside in one of the following segments of the subject corridor as shown on the map below:

Mark only one oval.

- A. On Alameda de las Pulgas
- B. On Clayton, Sharon Rd west of Alameda, Prospect
- C. Side street east of Alameda (Harrison Way, Sharon Rd east of Alameda, Liberty Park, Lucky Ave)
- D. Menlo Commons Condo complex
- E. Pacific Hills Condo complex
- F. Santa Cruz from Sandhill Rd to the Alameda de las Pulgas
- G. Palo Alto Way or side street off of Palo Alto Way (Stanford Ave, Leland Ave., Vine St.)
- H.. Oak Hollow Way/Royal Oaks Court
- J. Campo Bello Lane (and side streets in the Campo Bello neighborhoods)
- K. Santa Cruz from the Alameda de las Plugas to Avy Ave
- L. Side street off of Santa Cruz (Oakdell Dr neighborhood, Cloud Ave, Sherman)
- Y. Facing or bordering the Y intersection of Alameda/SCA/Campo Bello
- Other: _____

6. If bicycle lanes were installed, I would probably increase my use of the bicycle lanes

Mark only one oval.

No change

 Increase by more than 5 times

7. Mark only one oval.

- Continue
- End Skip to question 11

Non resident-
Business, School,
Work

NOW COMBINED WITH COMMUTER to create a NON-RESIDENT section AND subtypes of how you access or use it-- to get to work or school and are using "predominantly for..." and then answer are pedestrian, motorist, cyclist

Skip to section 4 (Non resident- Business, School, Work)

Commuter

section 6 removed by Joe for further discussion with group SEE NOTES BELOW ON SECTION 6 OF 7 THAT HAS DRIVER QUESTIONS. DIANA HAS DETAILED NOTES.

Preferences

Regardless of whether you are a resident, have business in this corridor, or simply passing through, we would like to know your preferences. So the following set of questions asks you to choose various options. Please read the questions carefully before selection.

(Ron- What does improve vehicular mean? Should the following be considered: Center Turn/Merge Lane, Shorter/safer crosswalks, Keeping parking, Improving roadway surface/markings, Reducing Traffic, Providing Mass Transit,

I see a major conflict in analyzing this data as captured here: Each of the 3 major segments of the corridor have different issues:

- Alameda has poor, unsafe sidewalks, no bike lanes, long dangerous crosswalks,
- North SCA, has no sidewalks, narrower, misplaced crosswalk, many rear-end collisions, school route, higher speed
- South SCA has sidewalks, has center turn lanes, no bike lanes, chaotic traffic, crosswalk in need of safety improvement

As a resident anywhere, we have to use at least two segments in driving, walking, biking, school route, etc. So we can't analyze the answer based on where the respondent lives. With that in mind, how do we change this to capture the answers that are clear and targeted, so that we can be in a position to understand what these answers mean per segment?)

8. If improvements are made, then I think the priorities should be ranked in the following order:(Ron - I think if this question, if adapted to address the comments above, should allow multiple items be rated the same -- important to know how people feel about things, even if they want to state 2 or 3 items of are most important. Maybe a Linear Scale for each item would be an useful alternative.)

Mark only one oval per row.

	# 1 Most important to me	#2	#3	#4	#5 Least important to me
Add/Improve sidewalks	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Add/Improve pedestrian crossings	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Add/Improve bike lanes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Safer flow of traffic (reducing speeding, unsafe lane changes, adjust signaling)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Do nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

9. ADD QUESTION: HOW OFTEN USE CORRIDOR. COPY LANGUAGE TO USE IN COMMUTER SECTION-- THIS IS A RESIDENTIAL AREA. IN ORDER TO FACILITATE SAFETY SOME IMPROVEMENTS IT MAY REQUIRE REMOVAL OF ONE OF THE TRAVEL LANES. If improvements are made, then I think the priorities should be ranked in the following order:

Mark only one oval per row.

	# 1 Most important to me	#2	#3	#4	#5 Least important to me
REMOVE LANE?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
SIDEWALKS?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Add/Improve bike lanes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Safer flow of traffic (reducing speeding, unsafe lane changes, adjust signaling)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Do nothing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

10. Because there is a fixed distance, curb to curb, for potential improvements, it may be necessary to make trade-offs between competing improvements within the existing roadway boundaries without expanding the width of the roadway. Under both current and future traffic conditions I believe we should: (Ron- This seems overly complex and does not include key safety issues and considerations -- For example, since County/KH have proposals being promoted that remove parking and the center turn/merge lane, these ought to be covered here too. -- ALSO, the noted tradeoffs don't equally apply to the different segments of the corridor: on some segments there is a tradeoff, on other segments there is no tradeoff, on on others the noted tradeoffs don't apply)

Mark only one oval per row.

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree
maintain the current speed and flow of traffic even if it means minimal safety improvements	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
improve pedestrian safety even if it means slowing traffic by reducing travel lanes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
improve bicycle safety even if it means slowing traffic by reducing travel lanes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
improve (wider, level) sidewalks even if it means reducing the number of vehicle travel lanes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
add improved crosswalks even if it means reducing the number of vehicle travel lanes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
improve (wider, level) sidewalks even if it means no dedicated bike lanes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
add a dedicated bike lanes even if it means no sidewalk improvements	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

add dedicated
bike lanes
even if it
means
reducing the
number of
vehicle travel
lanes and
increasing
congestion at
peak travel
times

Email added by Ron as an option, not required

11. Please provide your email so we can provide survey summary and related information

Thank you!

SCA-Alameda Task Force Survey Results

November 2018

By Jen Wolosin and Molly Glennen

Methodology

- ✓ The [survey](#) was conducted online between September 4, 2018 and September 23, 2018.
- ✓ The survey was distributed via email, postcards, social media, mail lists, electronic message boards, and newspaper.
- ✓ A total of 701 responded to the survey.
- ✓ These results are based on total responses. Where some respondents did not answer a specific question, those responses were not included in the total calculation

Non – residents in this presentation are respondents who do not live on the corridor but use services, schools, or other business in this community

Executive Summary

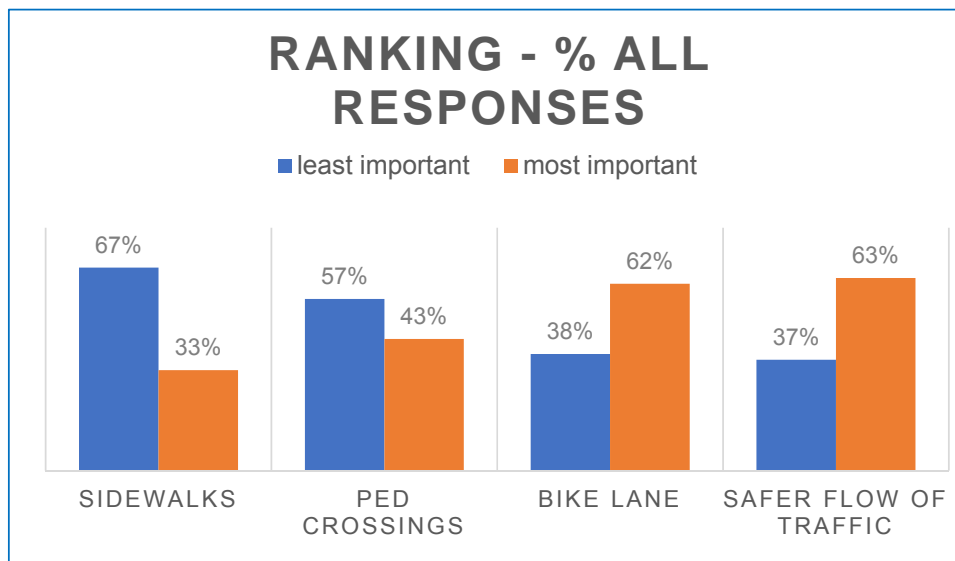

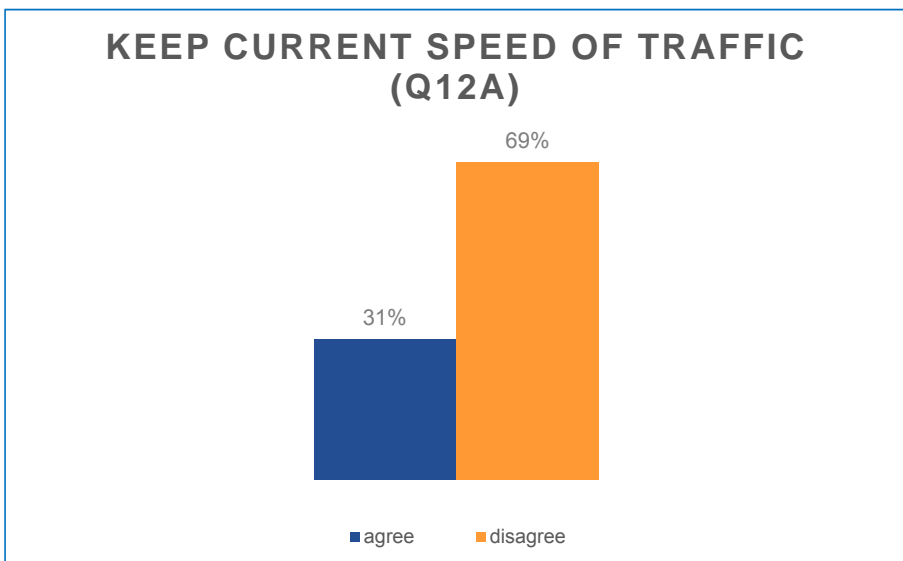

- The vast majority of all respondents (residents, commuters and non-residents) wanted safety improvements along the corridor.
- Within each respondent group surveyed, most were willing to reduce a travel lane in exchange for safety.
- Respondents consistently ranked “Safer flow of traffic” as an improvement most important to them.
- Residents preferred pedestrian enhancements, sidewalks and a safe flow of traffic, while commuters and non-residents prioritized bike lanes over other safety enhancements.

Total Respondents

All Want Safety Improvements

Those who took the survey are not satisfied with the current conditions along the corridor and desire changes that would make all modes of travel safer.

- More than half of all respondents either disagree or strongly disagree to “Maintain the current speed and flow of traffic even if it means minimal safety improvements.” (Q12a)
- Respondents ranked “Safer flow of traffic” as the improvement most important to them (Q13).

Residents

Residents - Profile

Resident - "I live in the area shown within the map below."

- N=283

The resident respondents represent all areas of the corridor.

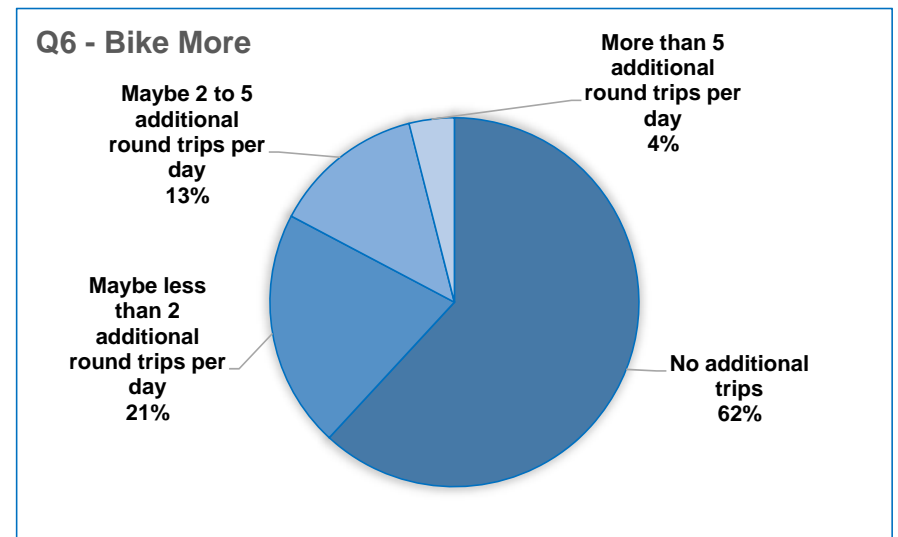

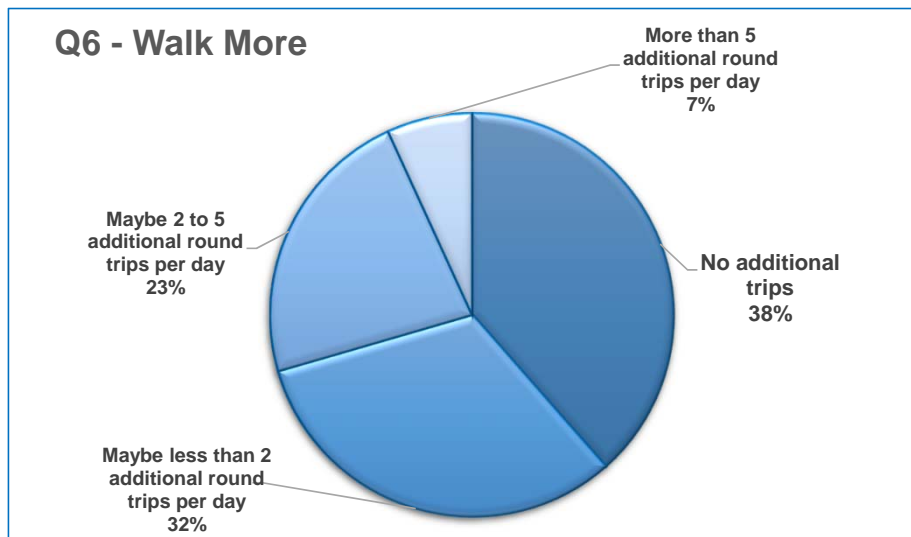

Residents predominantly drive and walk to go to and from their place of residence. (Table below shows % of residents who, on an average weekday, use each mode of transportation at least occasionally. Q9)

	Drive	Bike	Walk	Bus/Carpool
Resident	99	66	91	27

Residents - Results

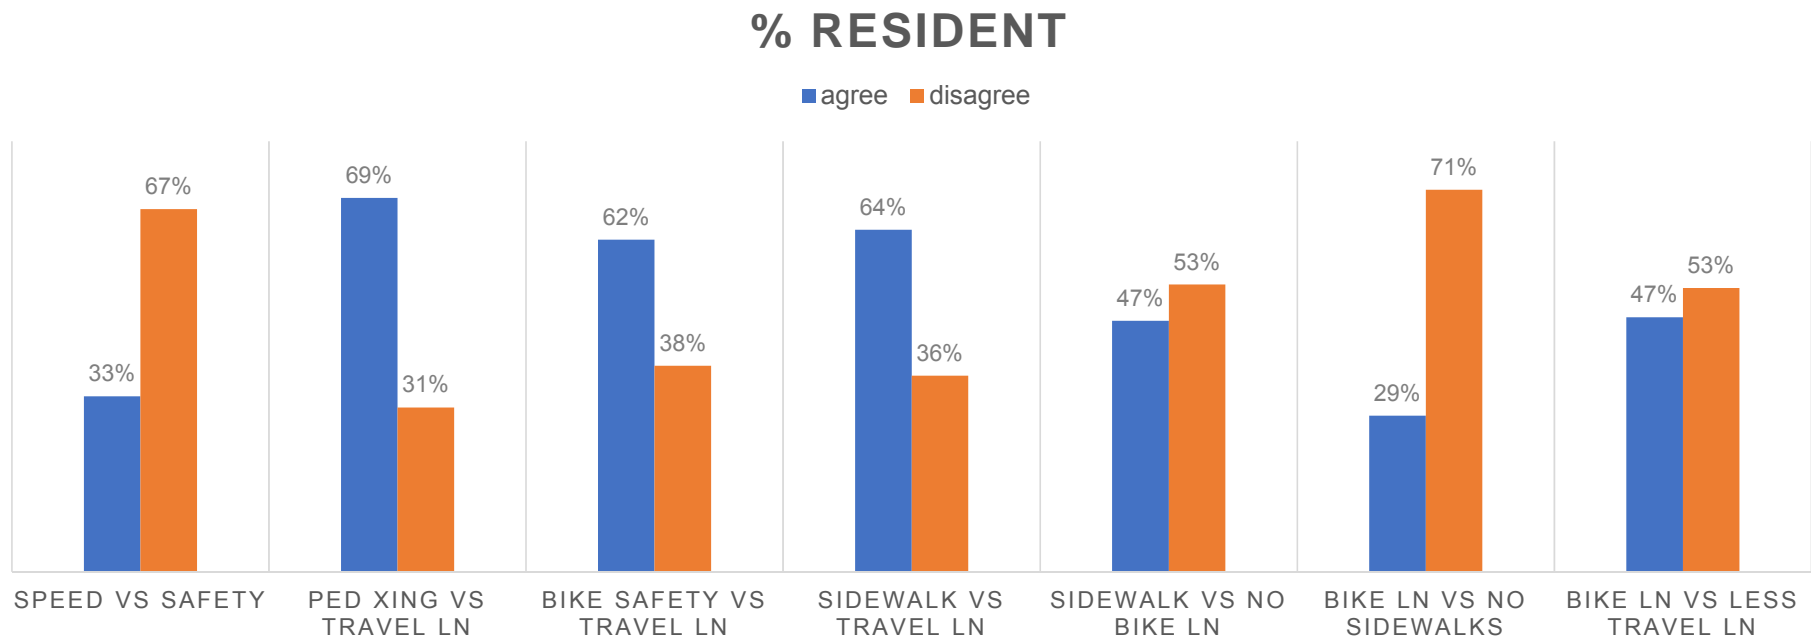

Residents would utilize sidewalks enhancements.

- If safety improvements are made, residents indicated a greater likelihood to walk more than to bike more. 62% of residents reported that they would walk more on a daily basis if sidewalks were improved, versus 38% who would increase their daily bike usage if bike lanes were installed. (Q6)

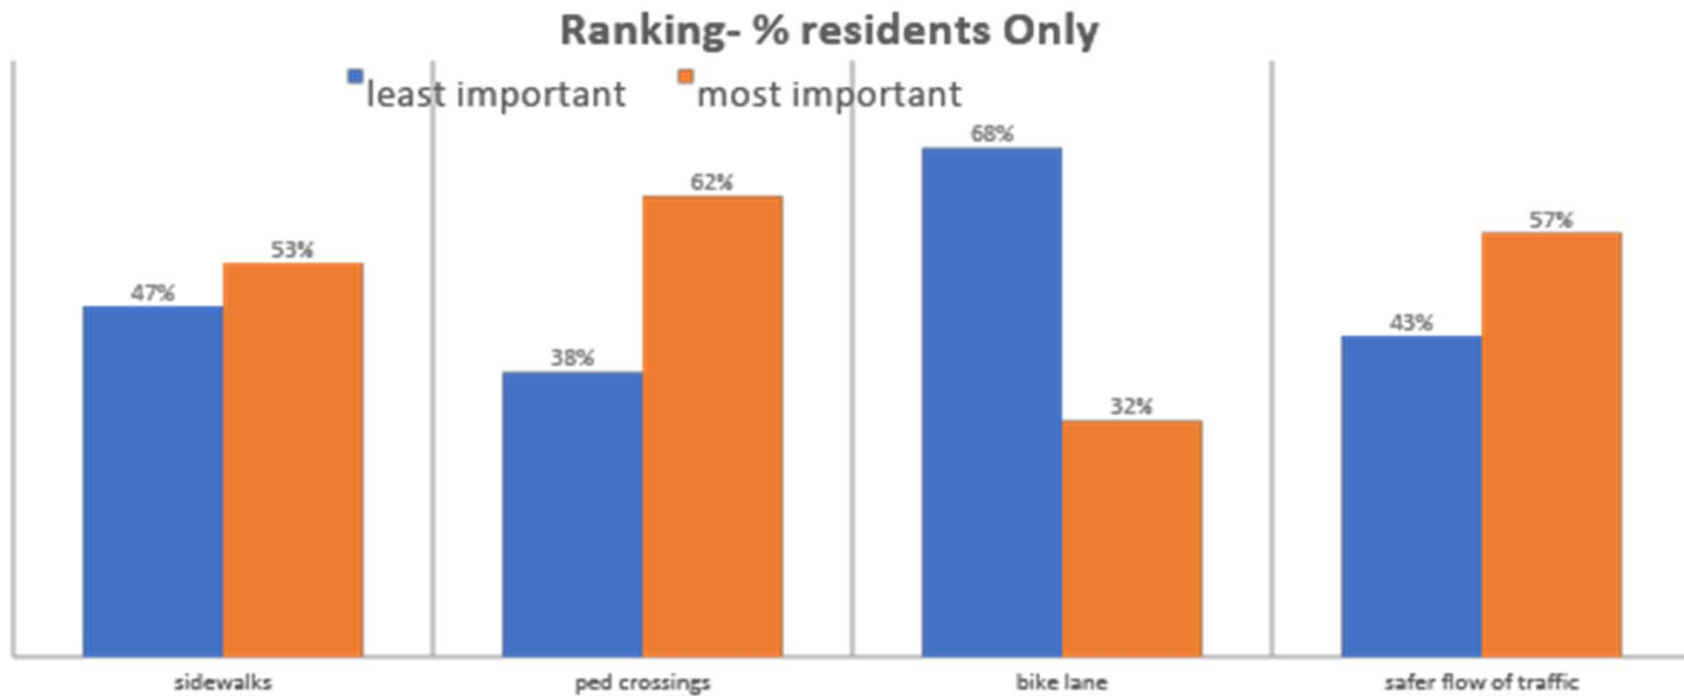

Residents - Results (Continued)

- Of all the trade-offs presented, residents agreed most that pedestrian safety should be improved even if it means reducing travel lanes. (Q12)

Residents - Results (Continued)

- When asked to rank priorities, residents overwhelmingly ranked bike lanes as their lowest priority, while split with regards to sidewalks, pedestrian crossings and safer flow of traffic. (Q13)

Residents - Results (Continued)

- Priorities varied among residents depending on where they live along the corridor and the quality of sidewalks near their home (Q13).

Question #13 by street segment - residents only - % important	Sidewalks	Ped crossing	Bike lane	Lane chg
A. On Alameda de las Pulgas	50%	80%	20%	40%
B. On Clayton, Sharon Rd west of Alameda, Prospect, Harkins	72%	48%	41%	37%
C. Side street east of Alameda (Harrison Way, Sharon Rd east of Alameda, Liberty Park, Lucky Ave)	64%	61%	30%	50%
D. Menlo Commons Condo complex	54%	69%	20%	57%
E. Pacific Hills Condo complex	40%	60%	40%	60%
F. Santa Cruz from Sandhill Rd to the Alameda de las Pulgas	33%	73%	7%	88%
G. Palo Alto Way or side street off of Palo Alto Way (Stanford Ave, Leland Ave., Vine St.)	27%	79%	38%	66%
H. Oak Hollow Way/Royal Oaks Court	73%	55%	18%	55%
J. Campo Bello Lane (and side streets in the Campo Bello neighborhoods)	78%	40%	22%	60%
K. Santa Cruz from the Alameda de las Plugas to Avy Ave (missing from map)	50%	45%	42%	67%
L. Side street off of Santa Cruz (Oakdell Dr neighborhood, Cloud Ave, Sherman)	61%	67%	22%	43%
Y. Facing or bordering the Y intersection of Alameda/SCA/Campo Bello	40%	60%	20%	82%

Lane Chg = lane configuration changes: narrowing, removing, restricting movements, etc.

Commuters and Non-Residents

Non-Residents and Commuters - Profile

Non-resident - "I am not a resident but I use services, schools or work within this area."

- N=188

Commuter - "I only commute thru this corridor."

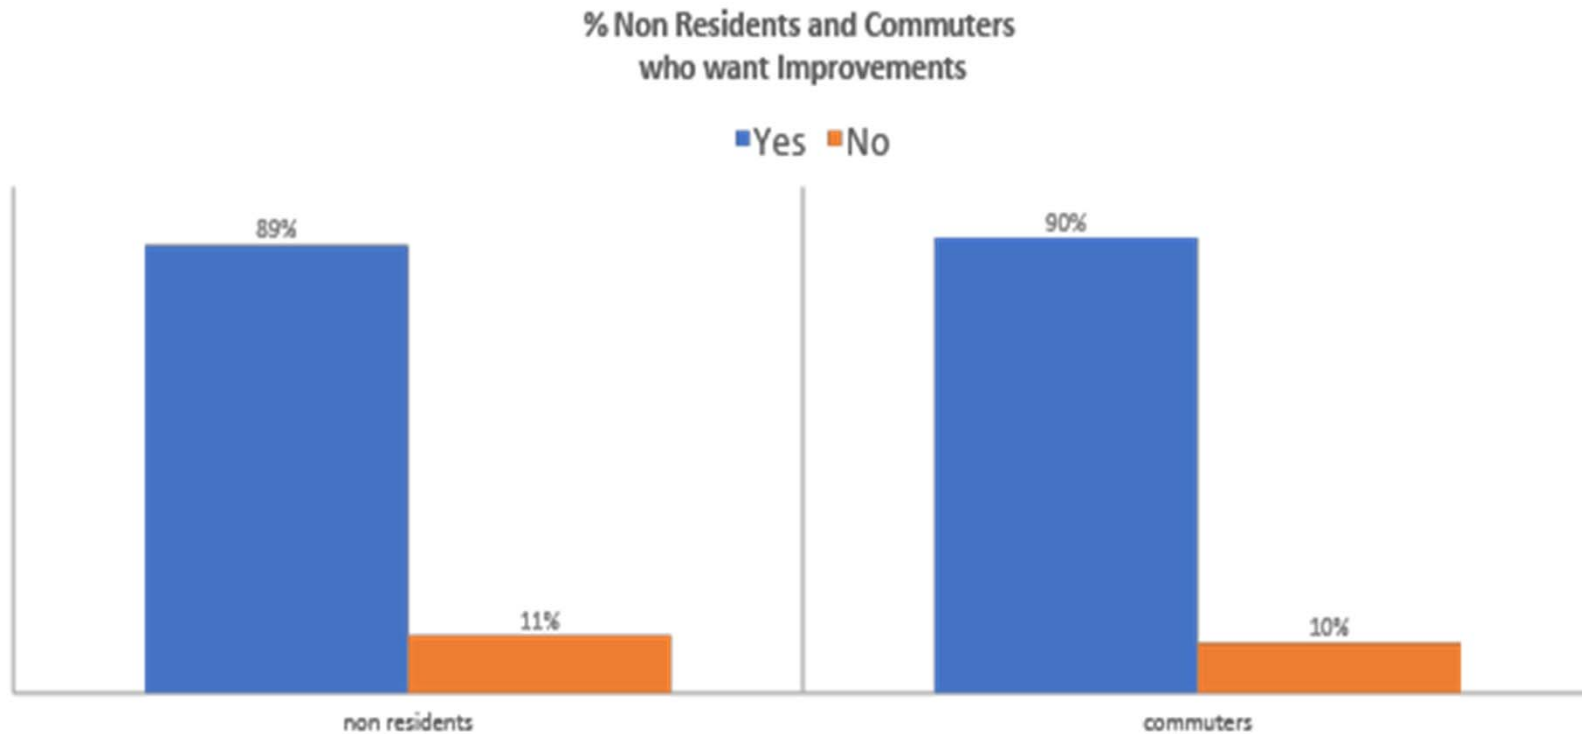

- N=225

Non-residents and commuters mostly drive and bike through the corridor. (Table below shows % of respondents who, on an average weekday, use each mode of transportation at least occasionally. Q9)

	Drive	Bike	Walk	Bus/Carpool
Non-resident	95	74	21	45
Commuter	89	85	23	12

Non-Residents and Commuters - Results

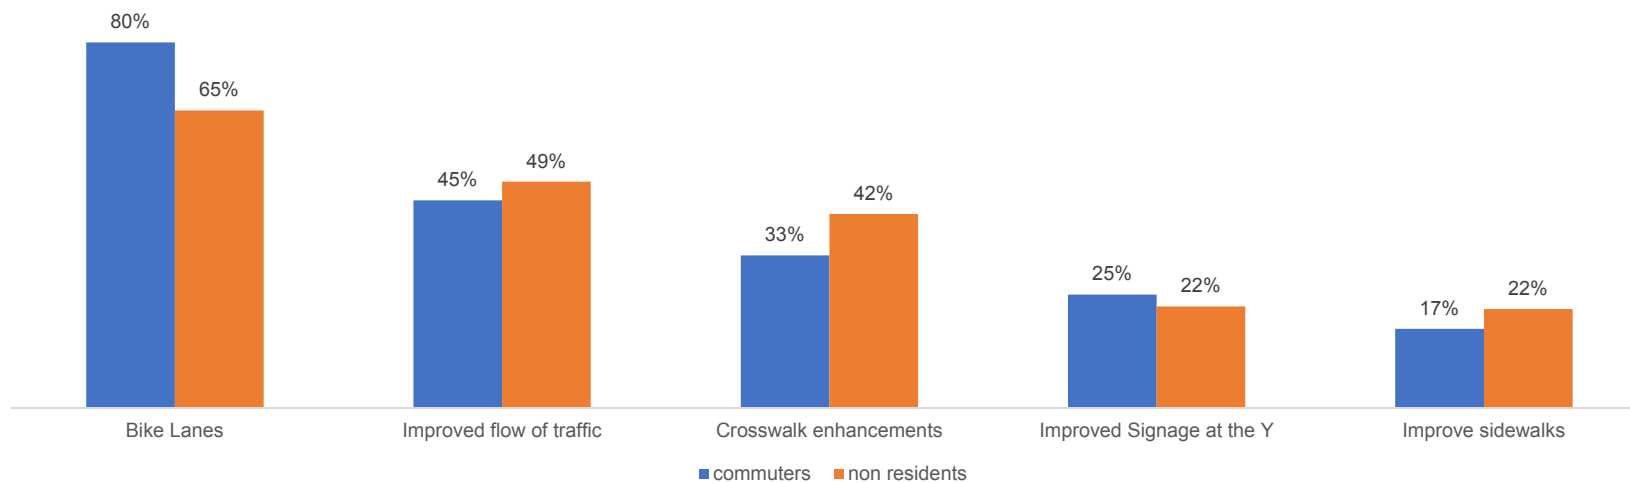

- An overwhelming number of non-residents and commuters believe that “some road improvements” are needed along the corridor. (89% of non-residents and 90% of commuters, Q10).

Non-Residents and Commuters - Results (Cont'd)

- Bike lanes are the type of improvement most desired among these two groups, with both giving bike lanes their highest top 2 box score*: 65% for non-residents and 80% for commuters (those at Q11 who gave a 4 or 5 rating on a 5-point importance scale with 5 as “most important to me” and 1 as “this is not important to me”).

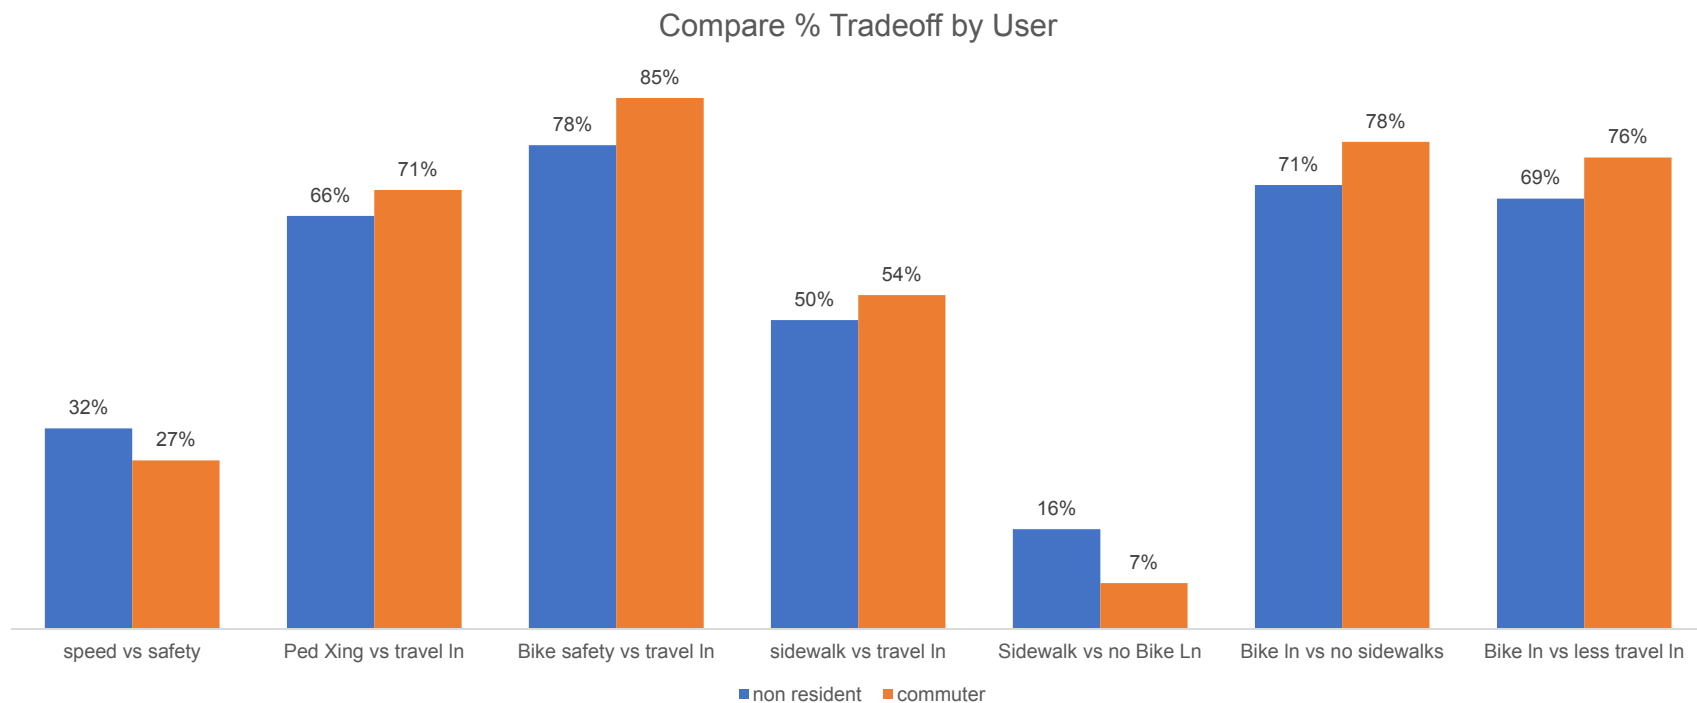

% Commuter and Non Residents responded as important to them

* Top 2 box = Most important = 5 and important = 4

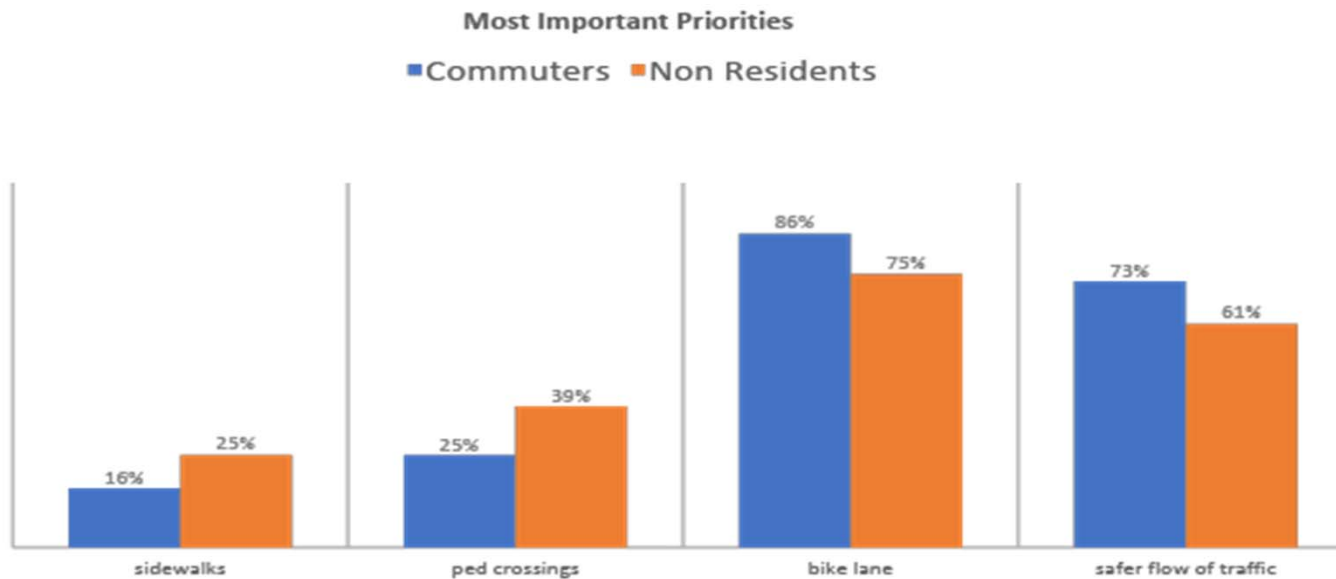

Non-Residents and Commuters - Results (Cont'd)

- When asked to trade-off competing improvements to account for existing roadway boundaries, both groups prioritized bike lanes over all other enhancements. (Q12)

Non-Residents and Commuters - Results (Cont'd)

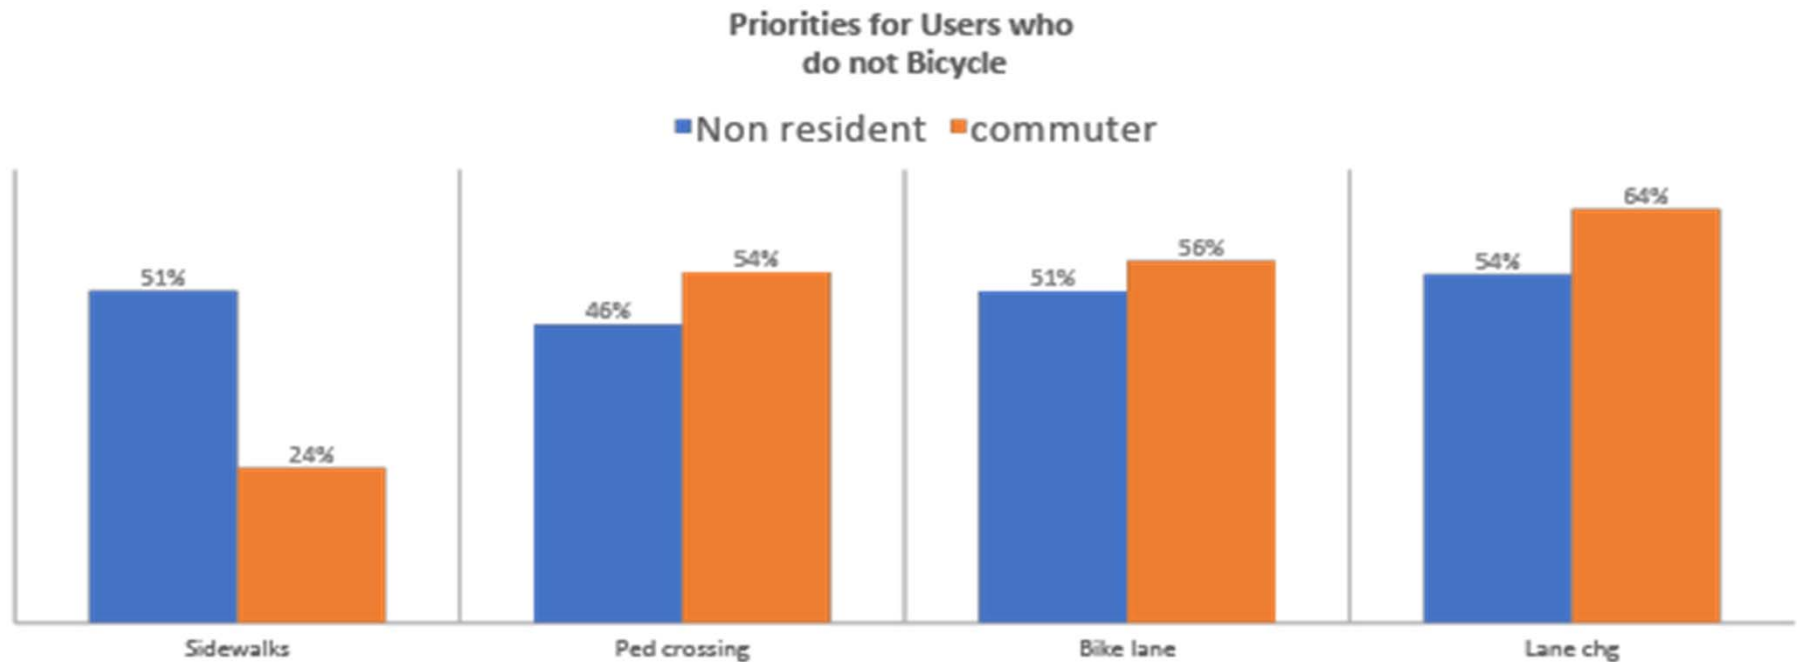

- When forced to rank their priorities, non-residents and commuter both had the strongest preference for bike lanes: top 2 box* for “add/improve bike lanes” is 75% for non-residents and 86% for commuters (those at Q13 who gave a 2 or 3 rating on a 4-point importance scale with 3 as “most important to me” and 0 as “not important to me”).

* Top 2 box = Most important = 3 and important = 2

Non-Residents and Commuters - Results (Cont'd)

- Due to the high number of cyclists among the respondents in this survey, the following graph shows the priorities expressed by those who do not cycle. Interestingly, while “safer flow of traffic” rises to the highest priority, adding bike lanes still scores high among priorities.

Non cyclists - identified themselves as never bike in question 9c (residents = 55, nonresident/commuter = 57 total 112

Santa Cruz Avenue and Alameda de las Pulgas

IMPROVEMENTS STUDY

FINAL REPORT - AUGUST 2020

Santa Cruz Avenue and Alameda de las Pulgas

IMPROVEMENTS STUDY

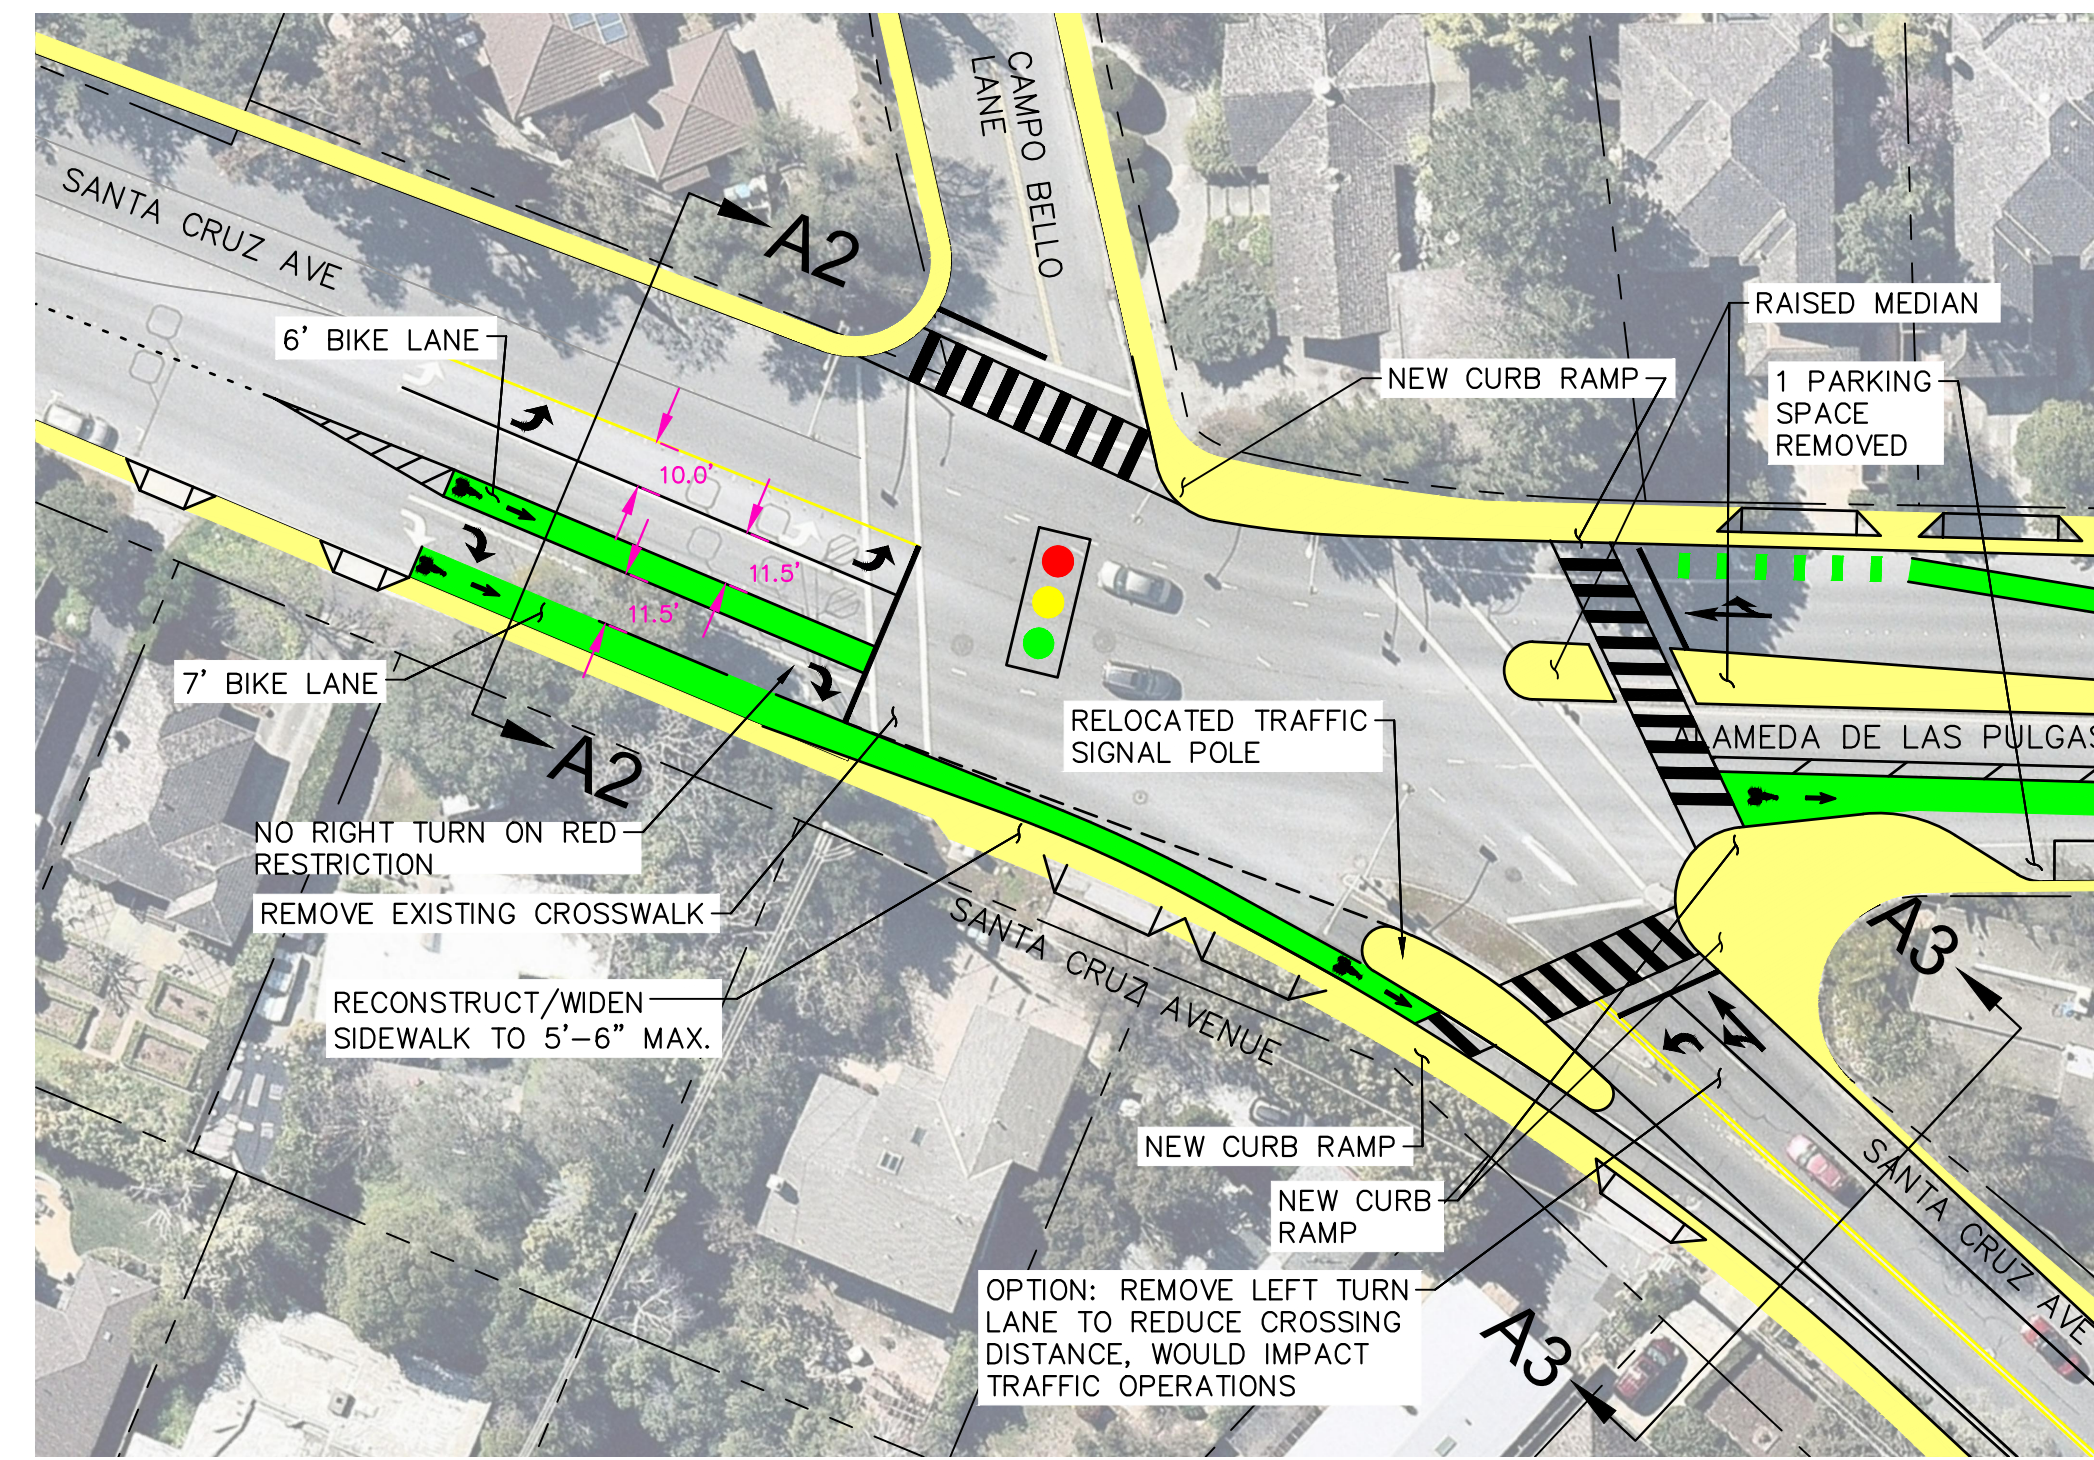

FINAL REPORT - AUGUST 2020

Appendix D – Improvement Concept Alternatives Preliminary Designs

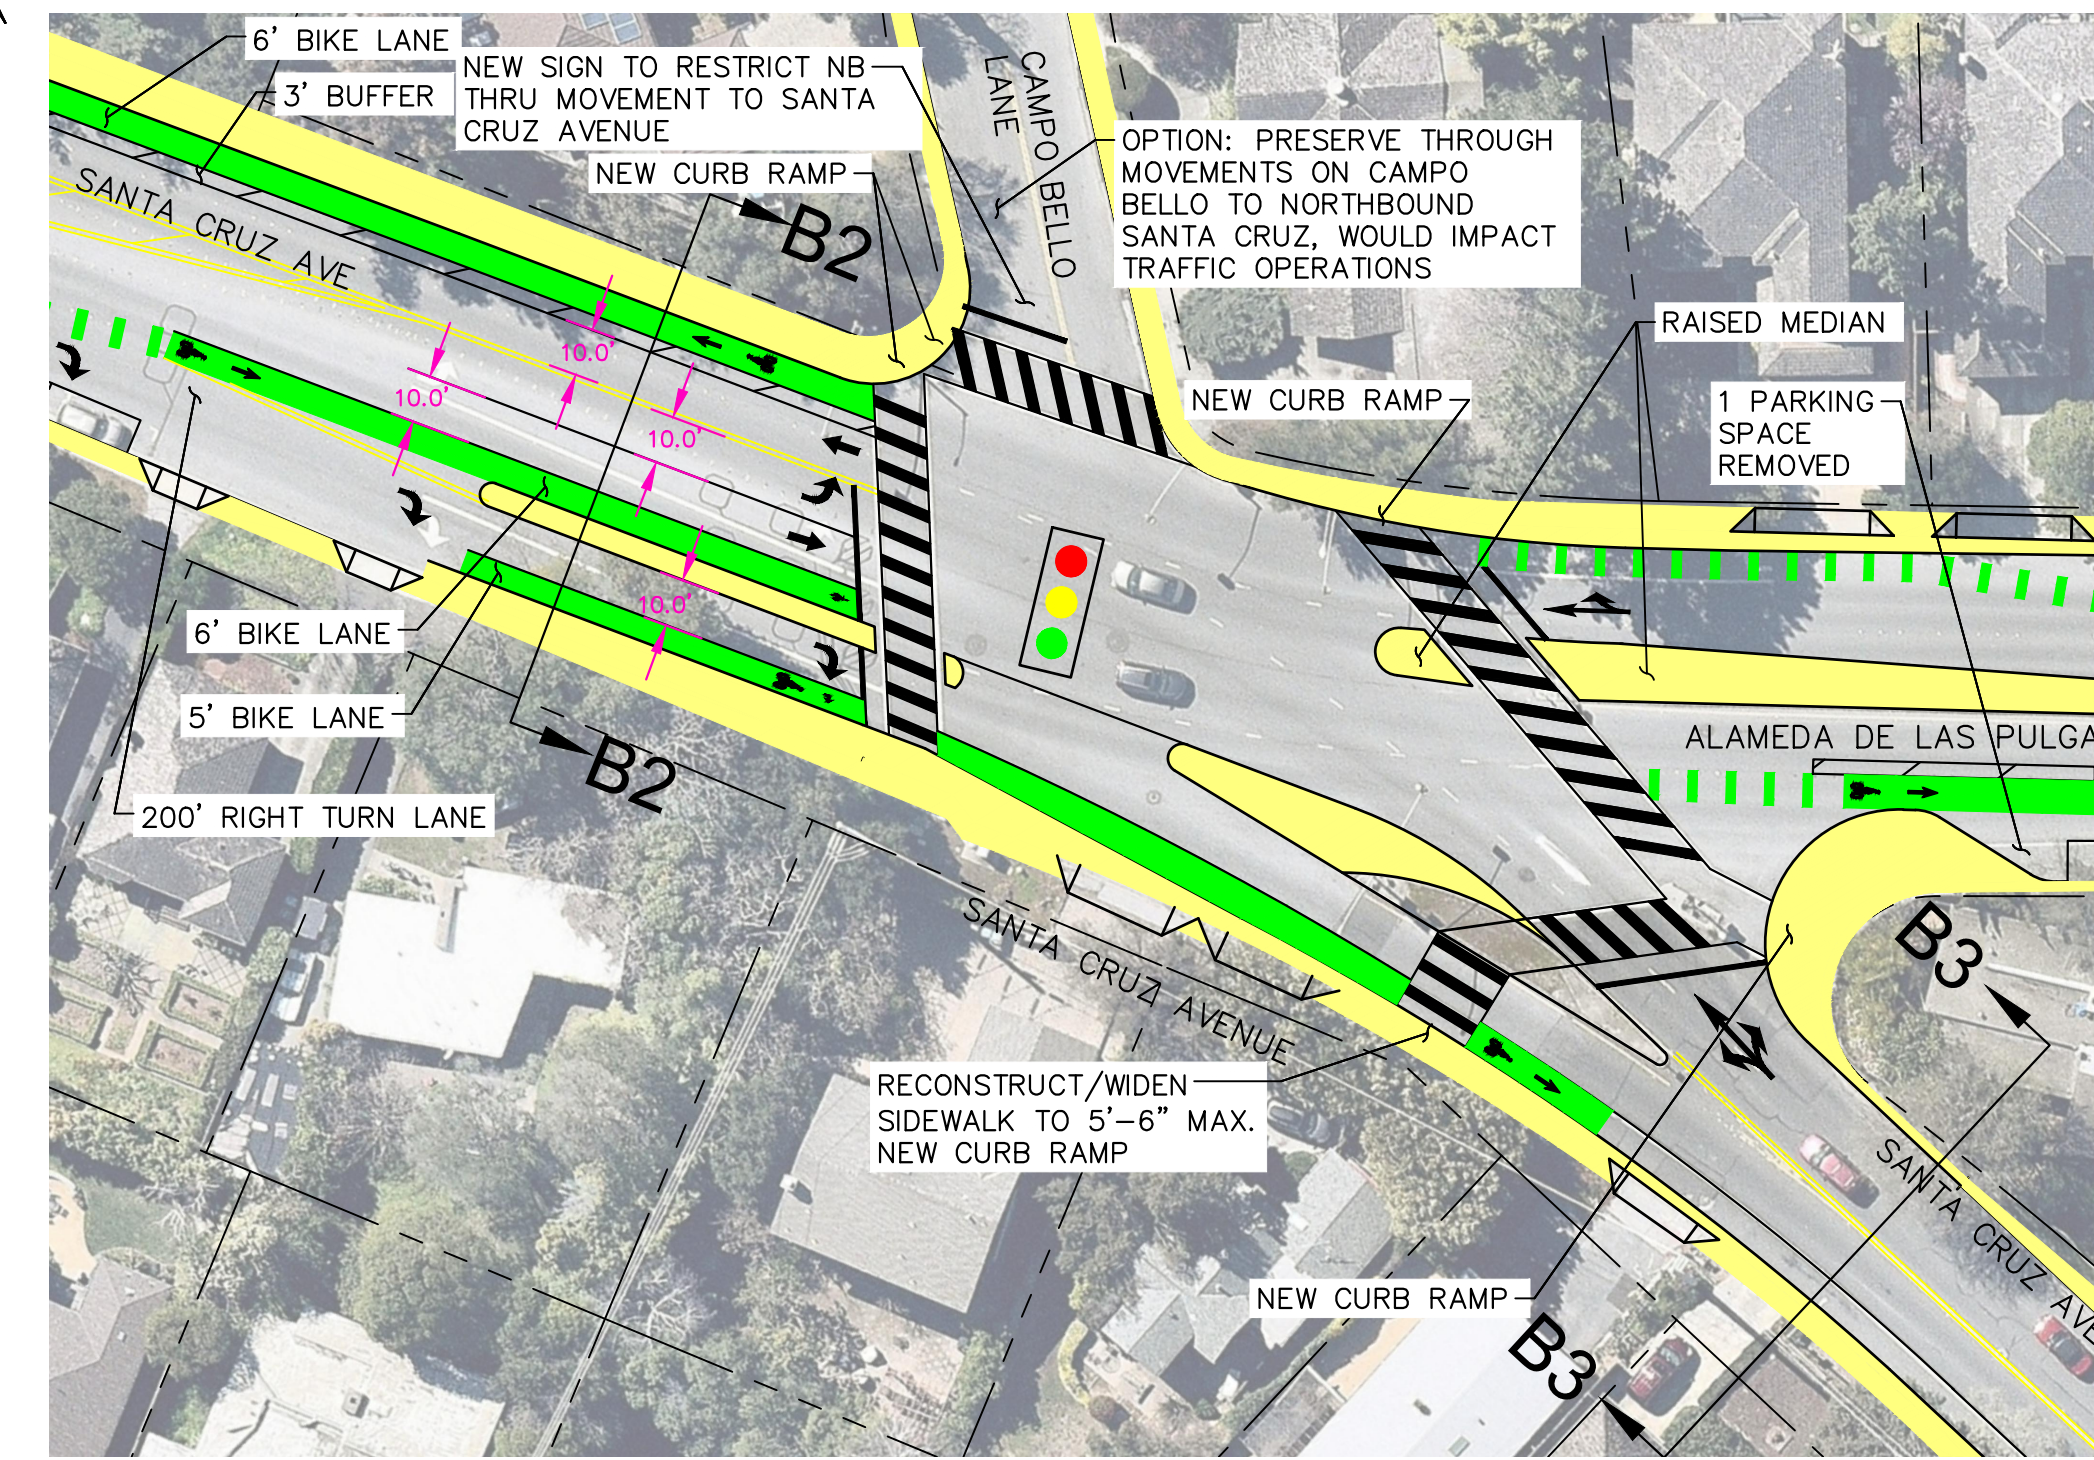

**SANTA CRUZ CORRIDOR TRAFFIC IMPROVEMENT STUDY
CORRIDOR ALTERNATIVE - MODIFIED LAYOUT AT SANTA CRUZ/ALAMEDA DE LAS PULGAS/CAMPO BELLO INTERSECTION**

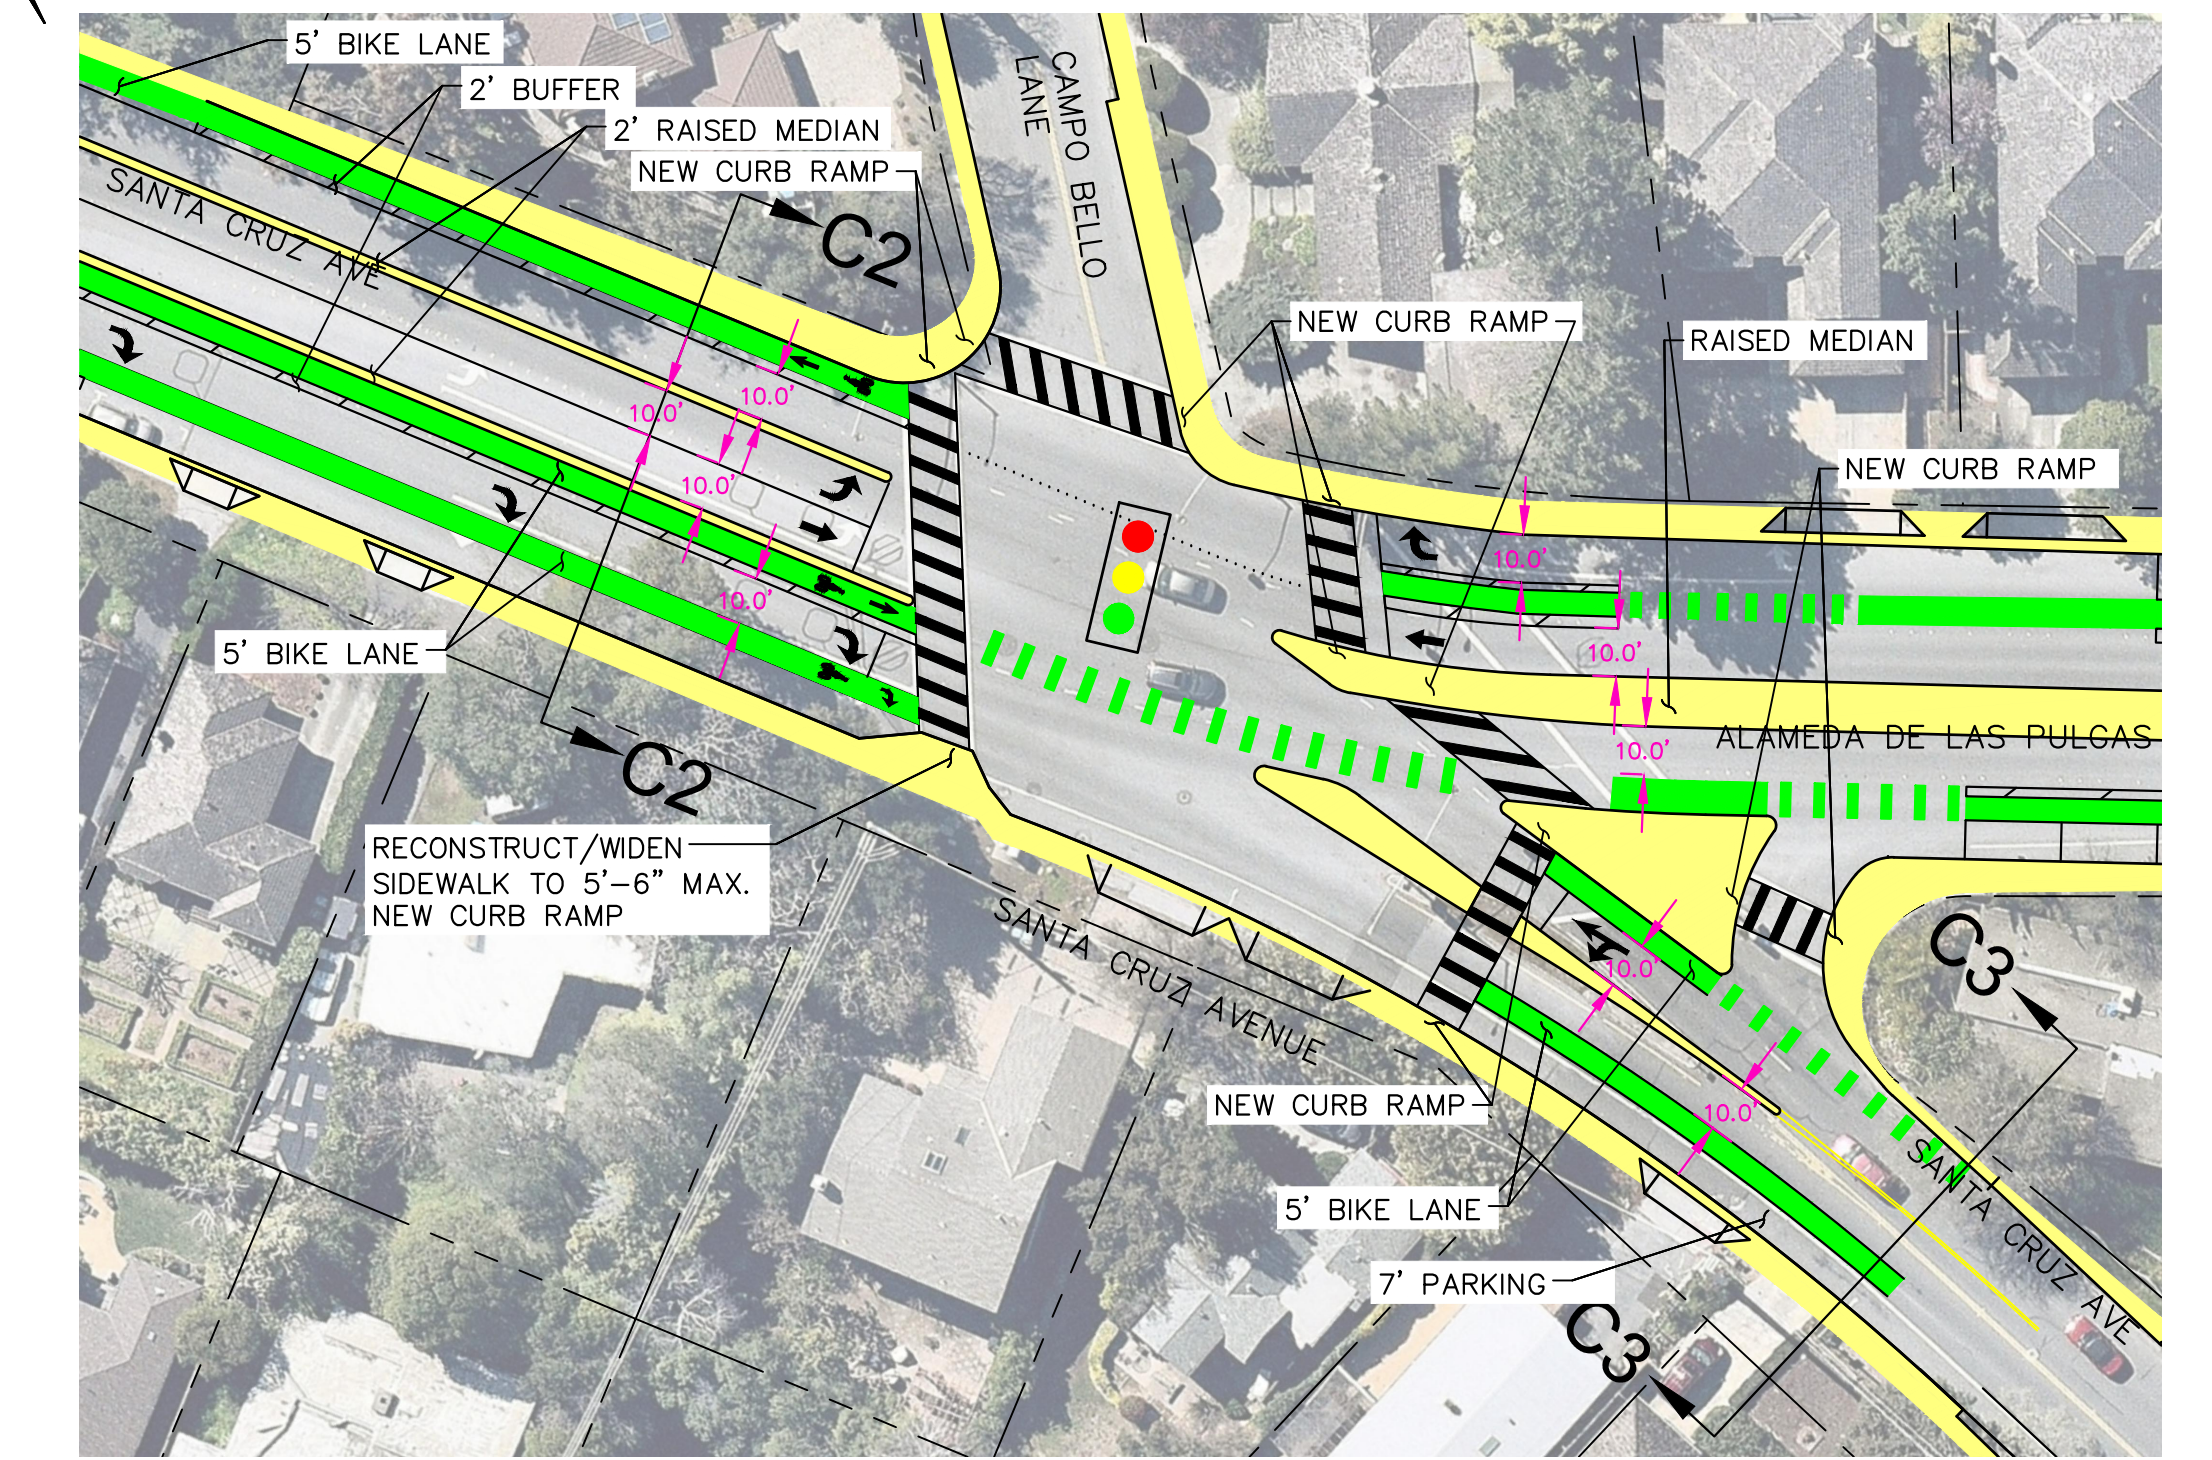

EXISTING CONDITION

ALTERNATIVE A
TWO TRAVEL LANES IN EACH DIRECTION
NO BIKE LANE SOUTH OF Y

ALTERNATIVE B
ONE TRAVEL LANE IN EACH DIRECTION
BIKE LANE SOUTH OF Y

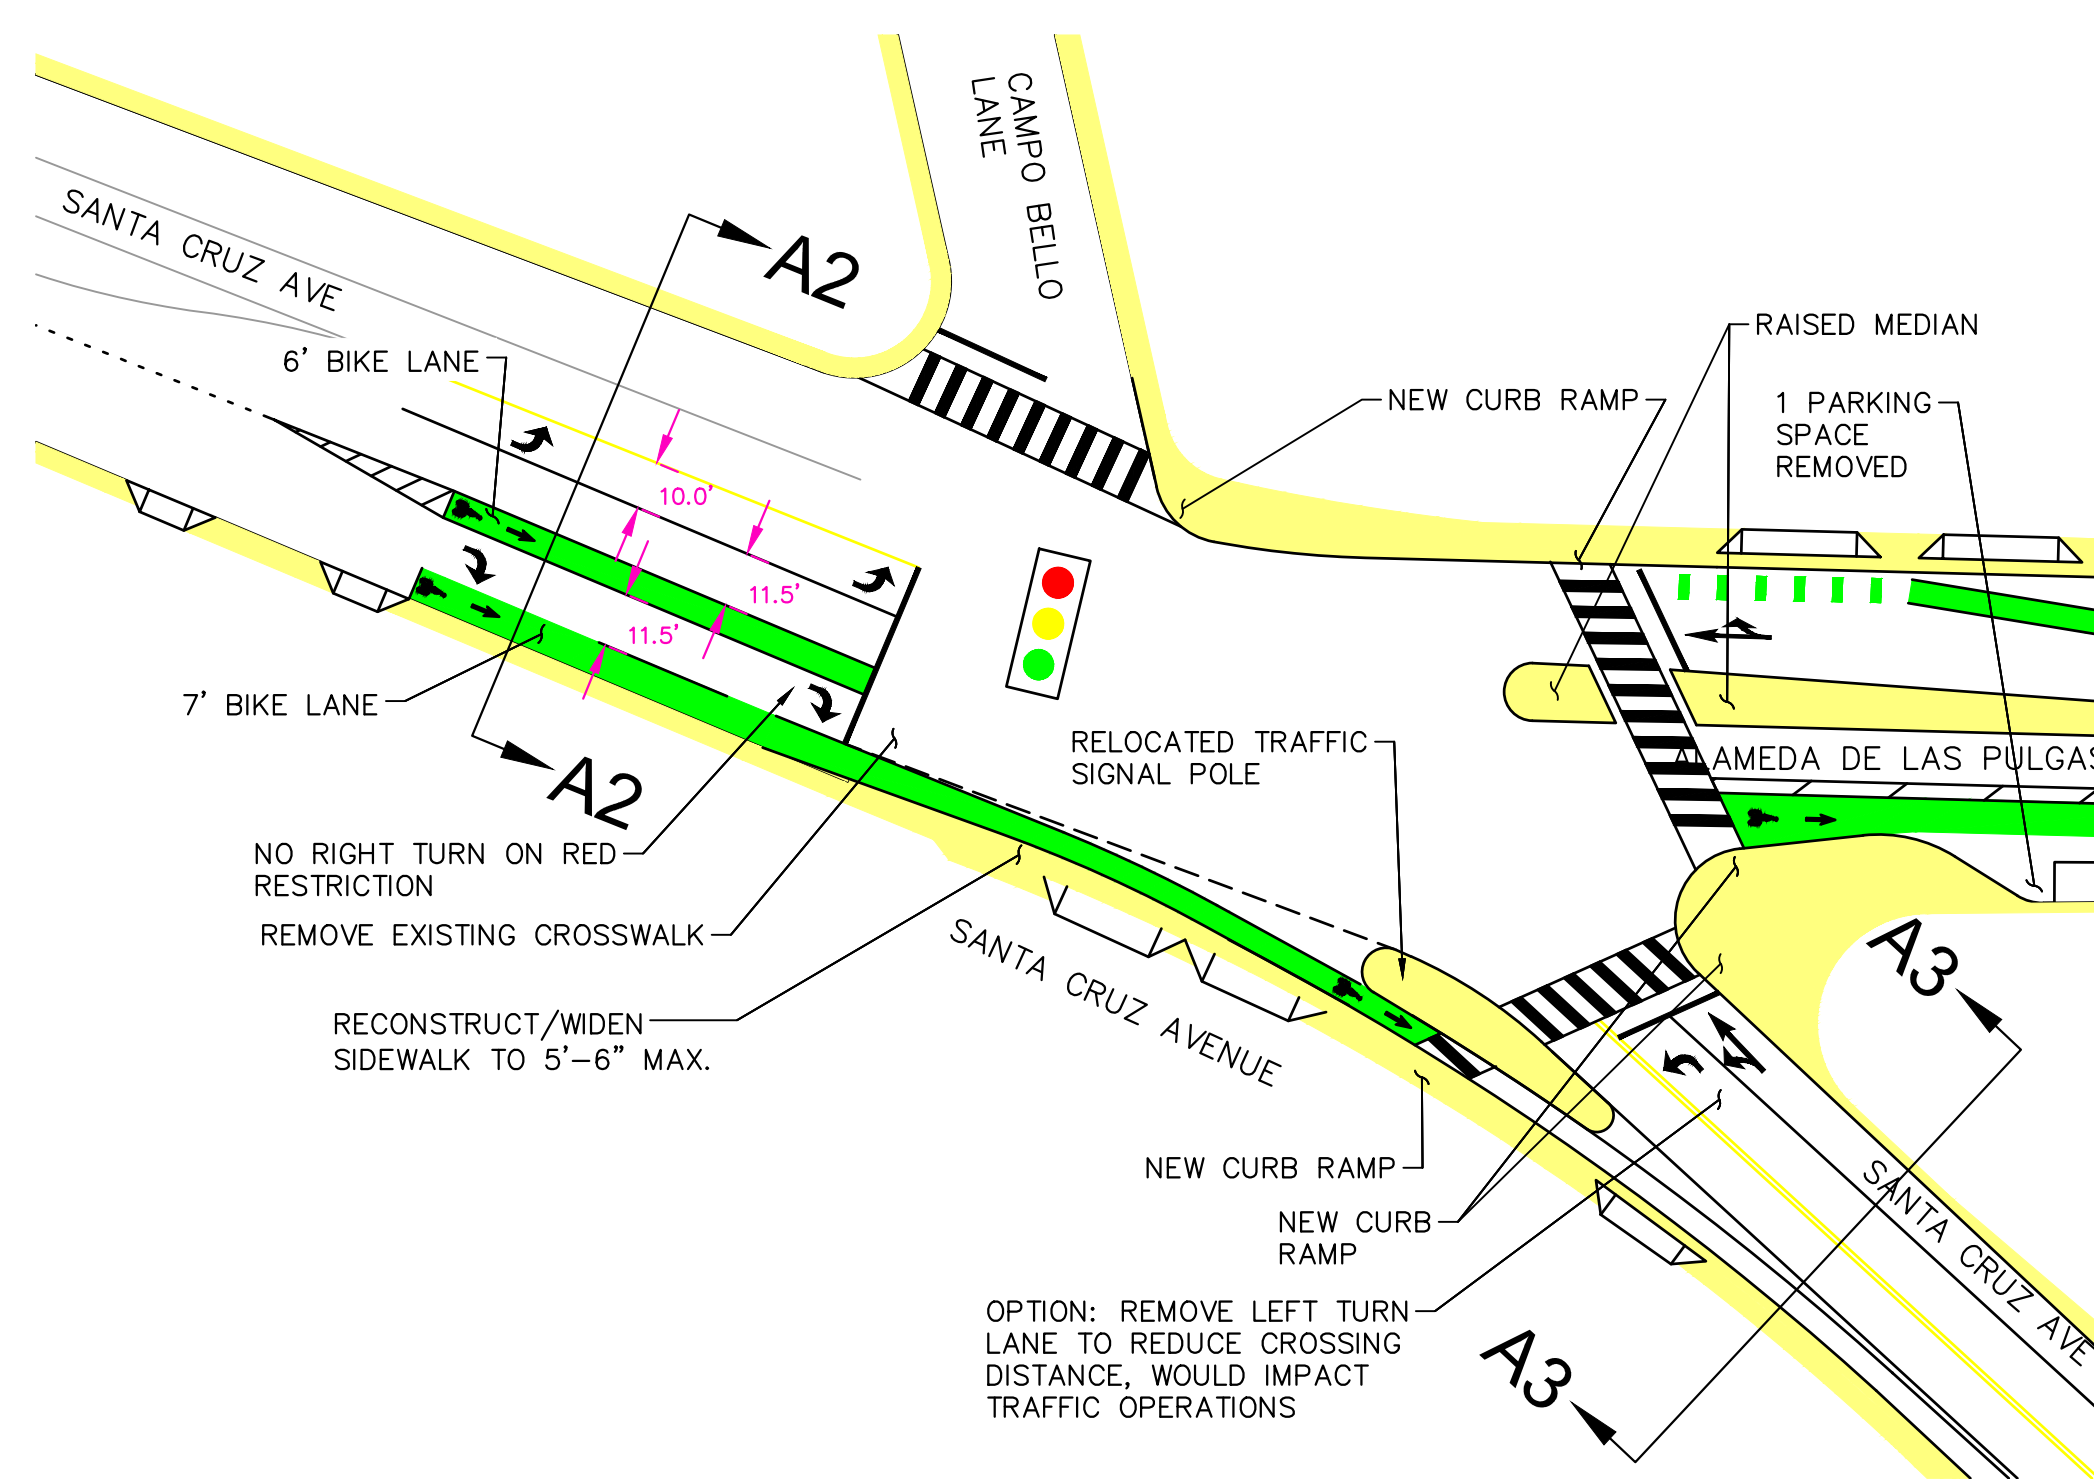

ALTERNATIVE C
TWO TRAVEL LANES NB AND ONE TRAVEL LANE SB
BIKE LANE SOUTH OF Y

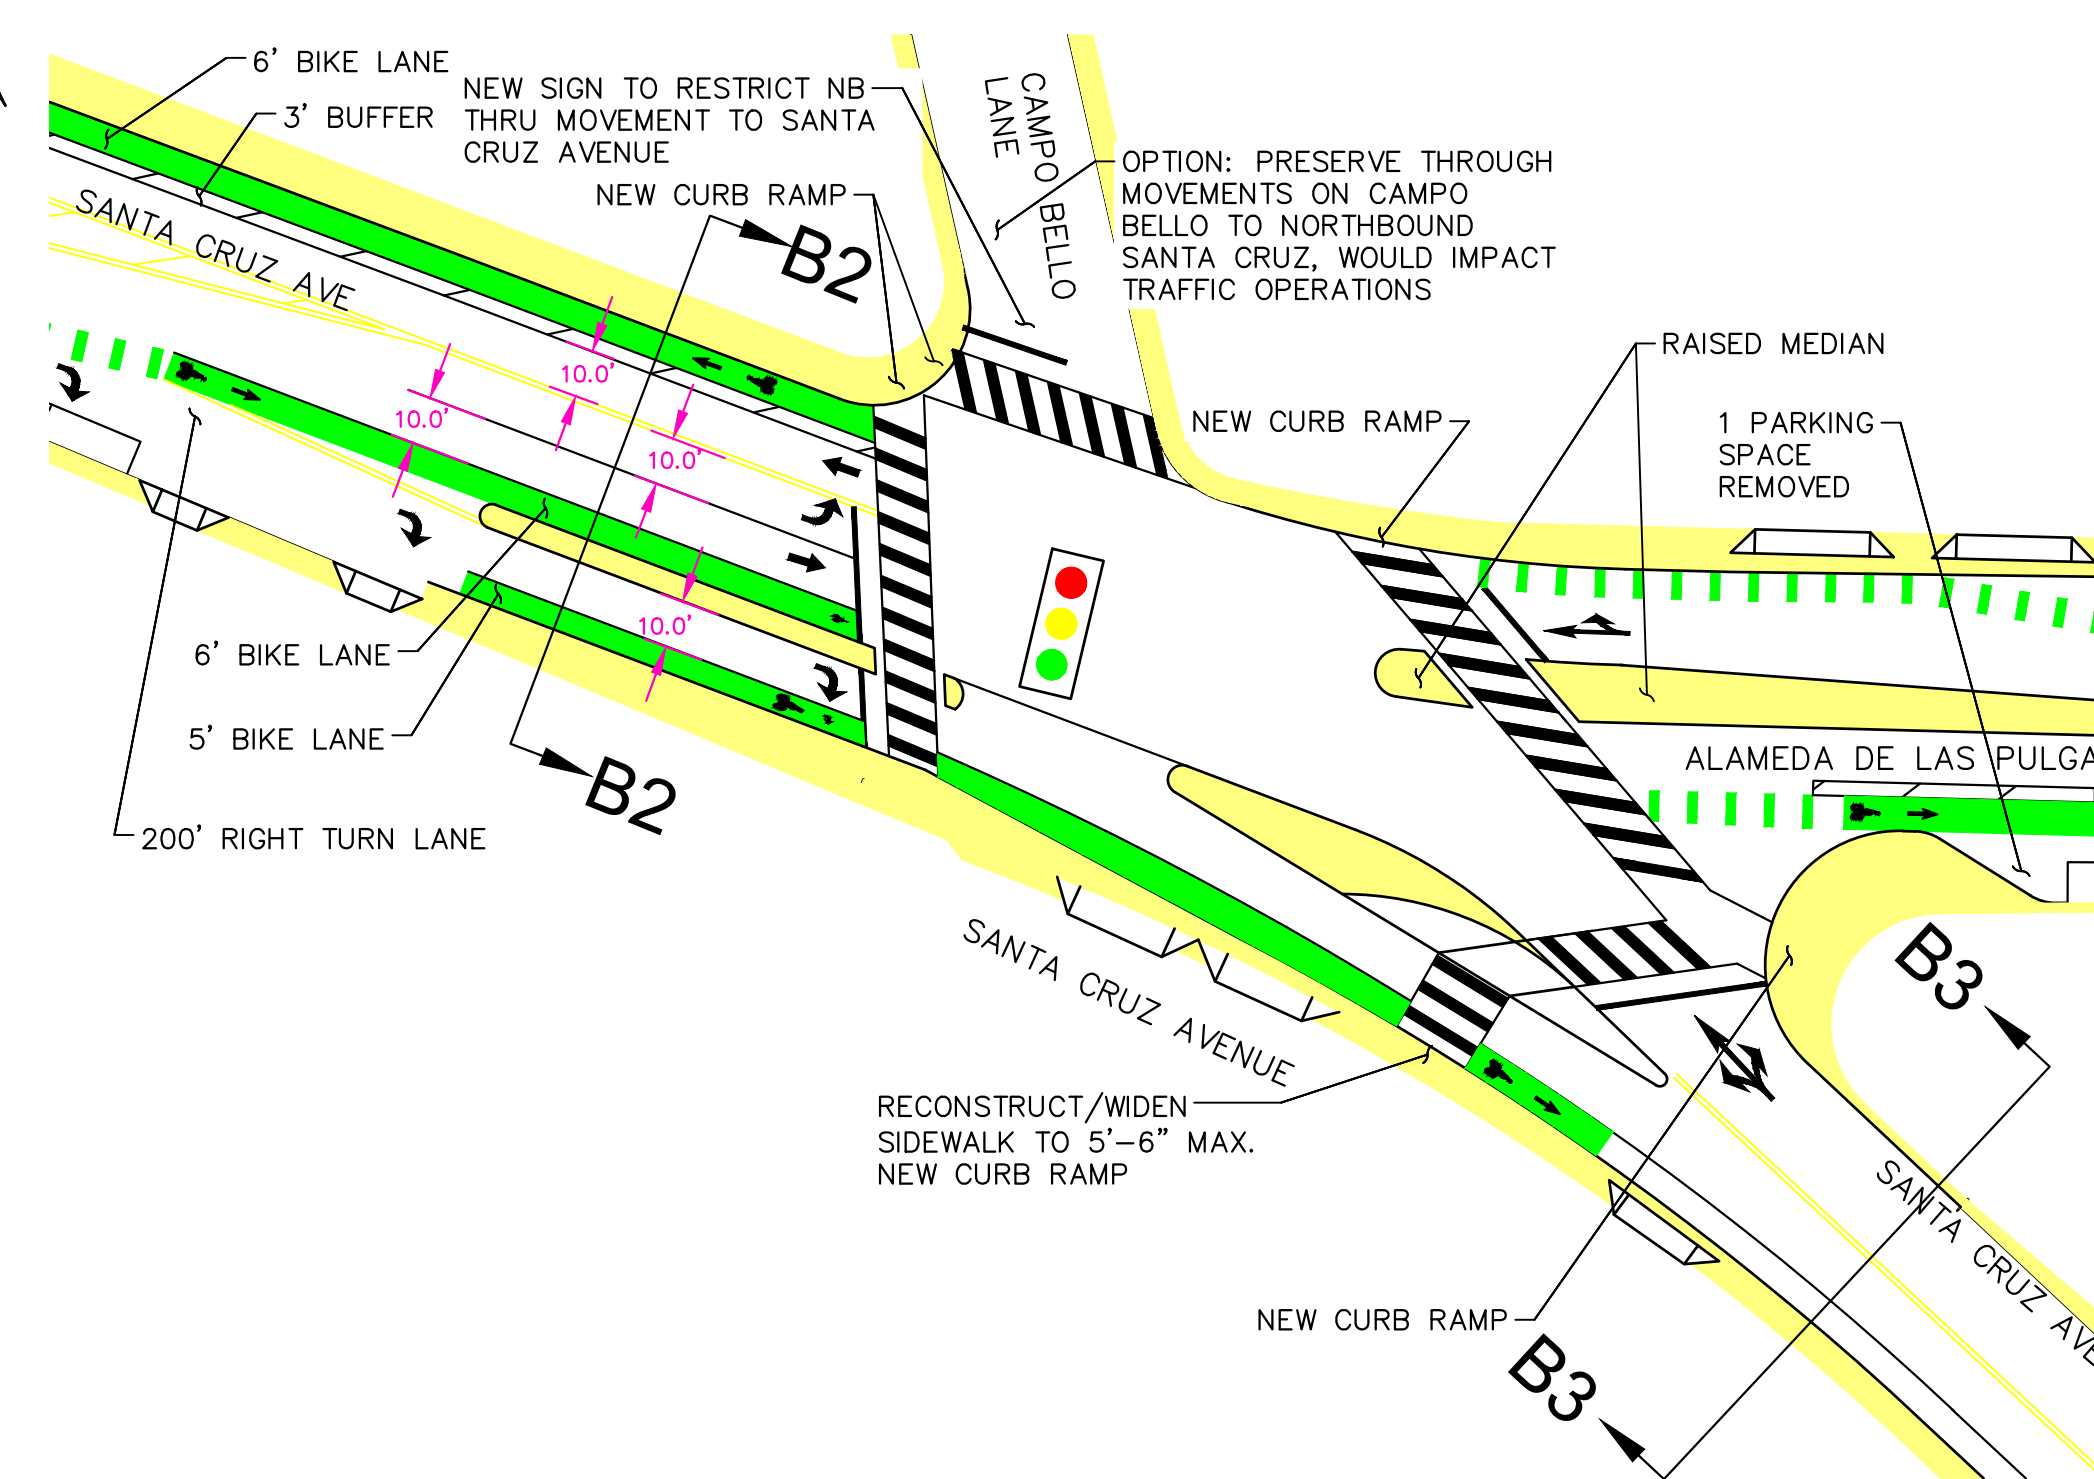

PROPOSED ROAD LAYOUT OVER AERIAL

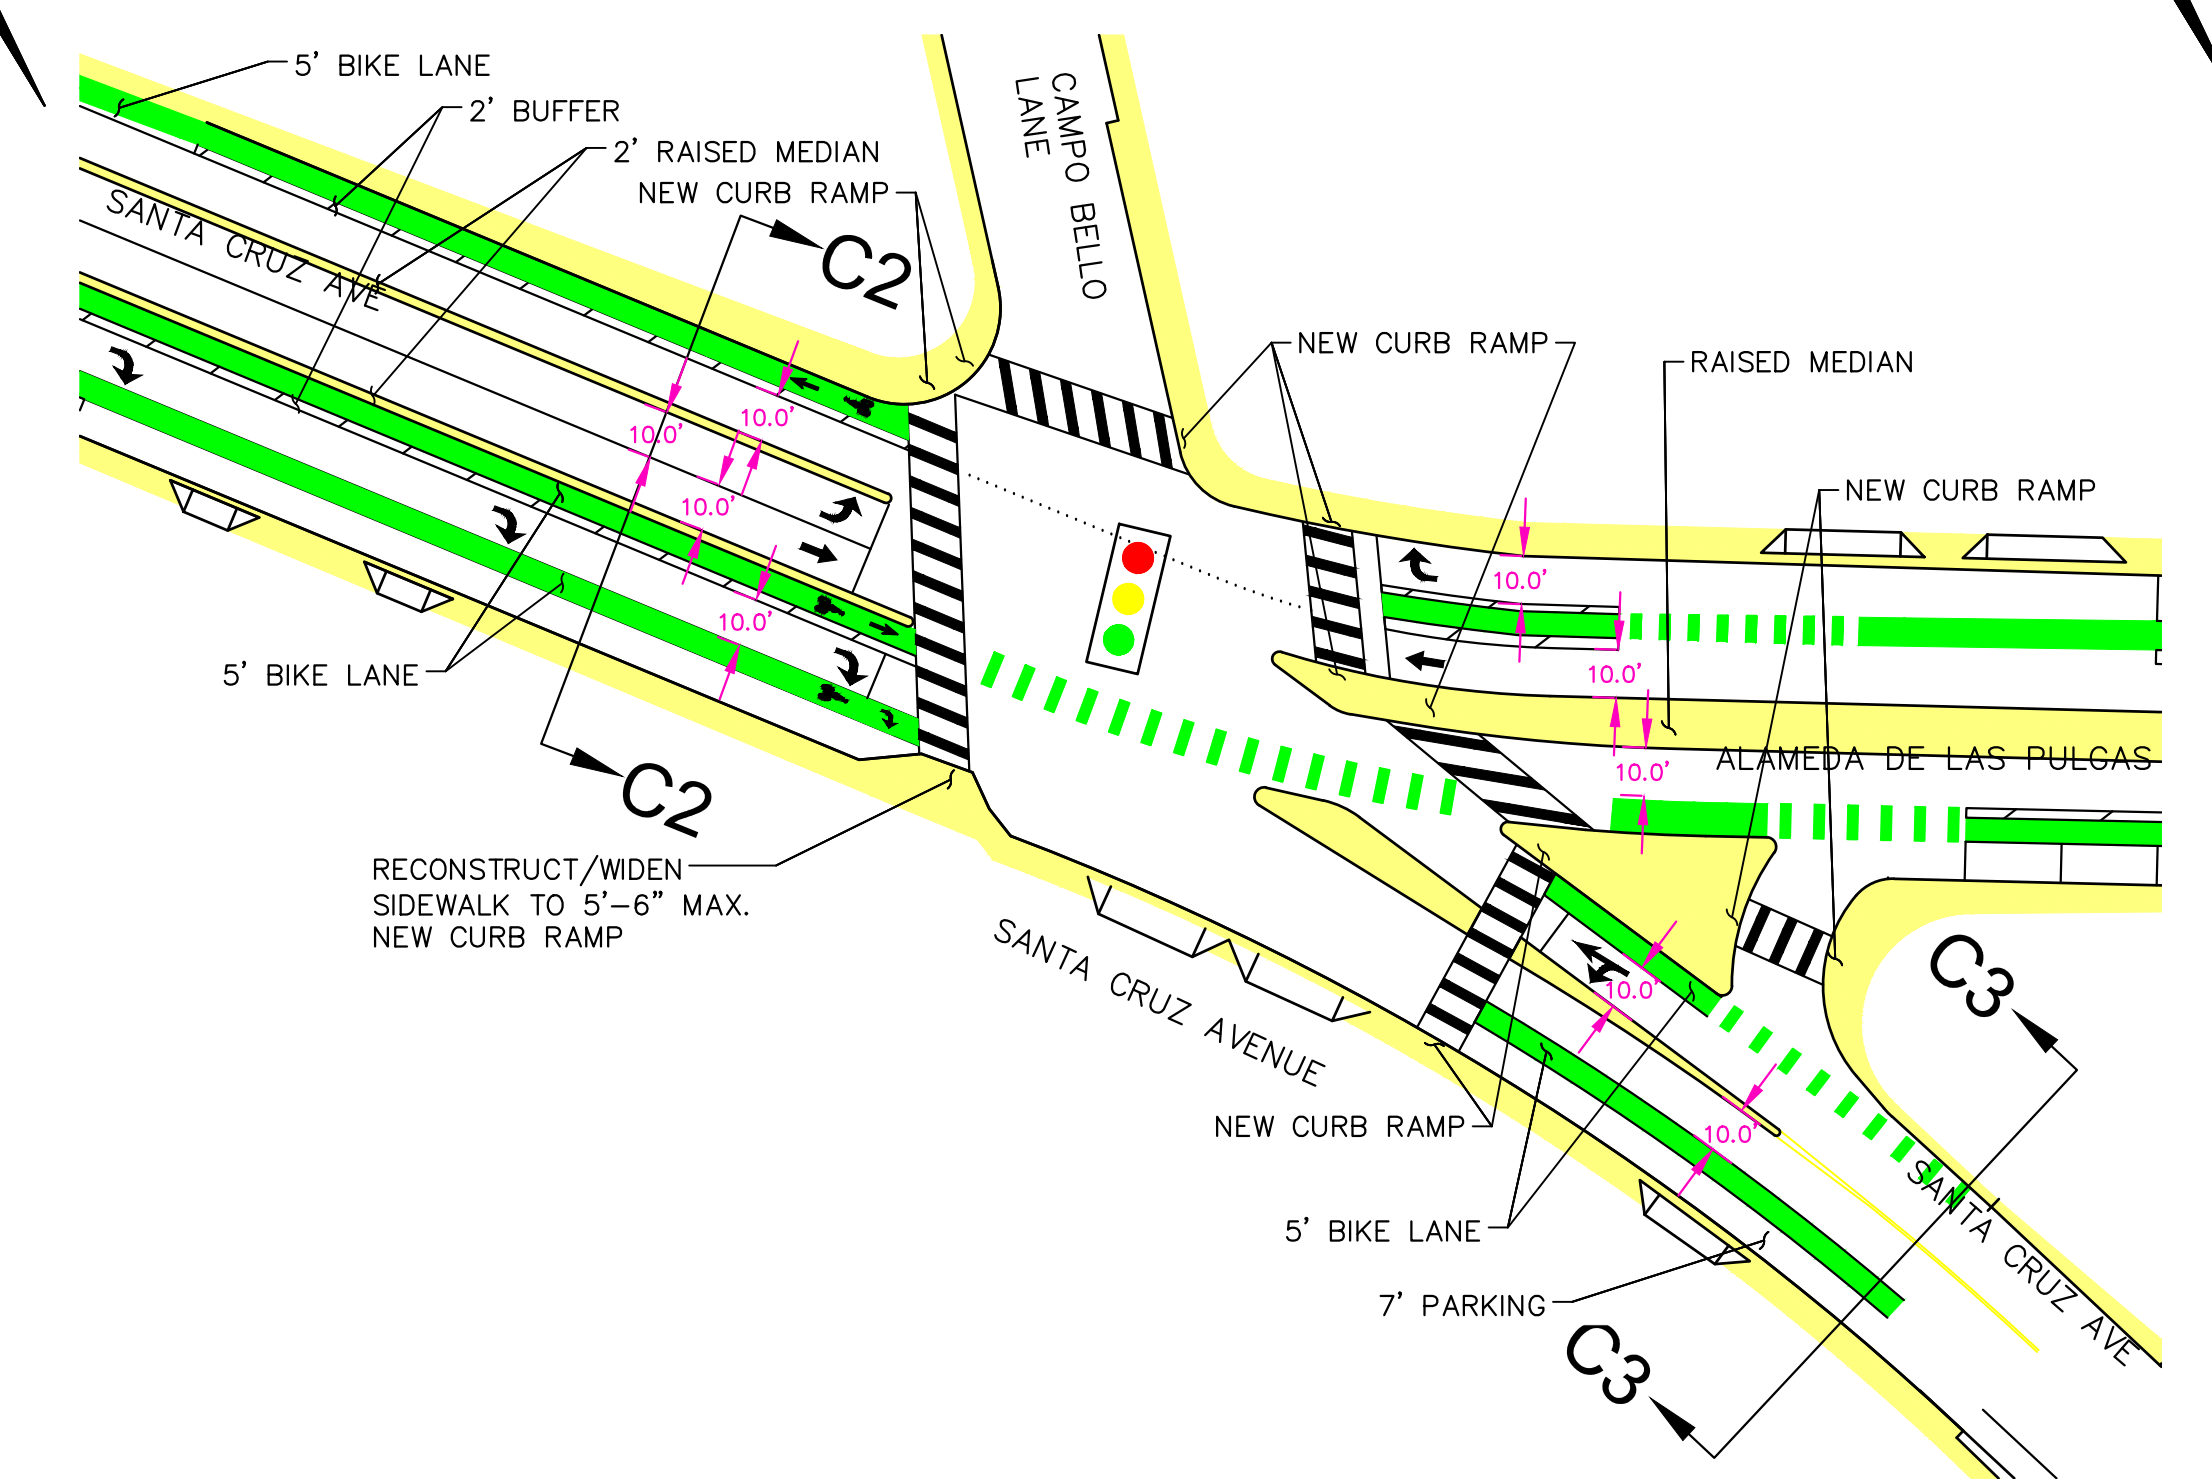

EXISTING CONDITION

ALTERNATIVE A
TWO TRAVEL LANES IN EACH DIRECTION
NO BIKE LANE SOUTH OF Y

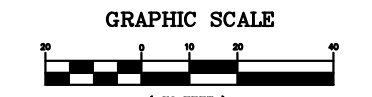

ALTERNATIVE B
ONE TRAVEL LANE IN EACH DIRECTION
BIKE LANE SOUTH OF Y

ALTERNATIVE C
TWO TRAVEL LANES NB AND ONE TRAVEL LANE SB
BIKE LANE SOUTH OF Y

PROPOSED ROAD LAYOUT ONLY

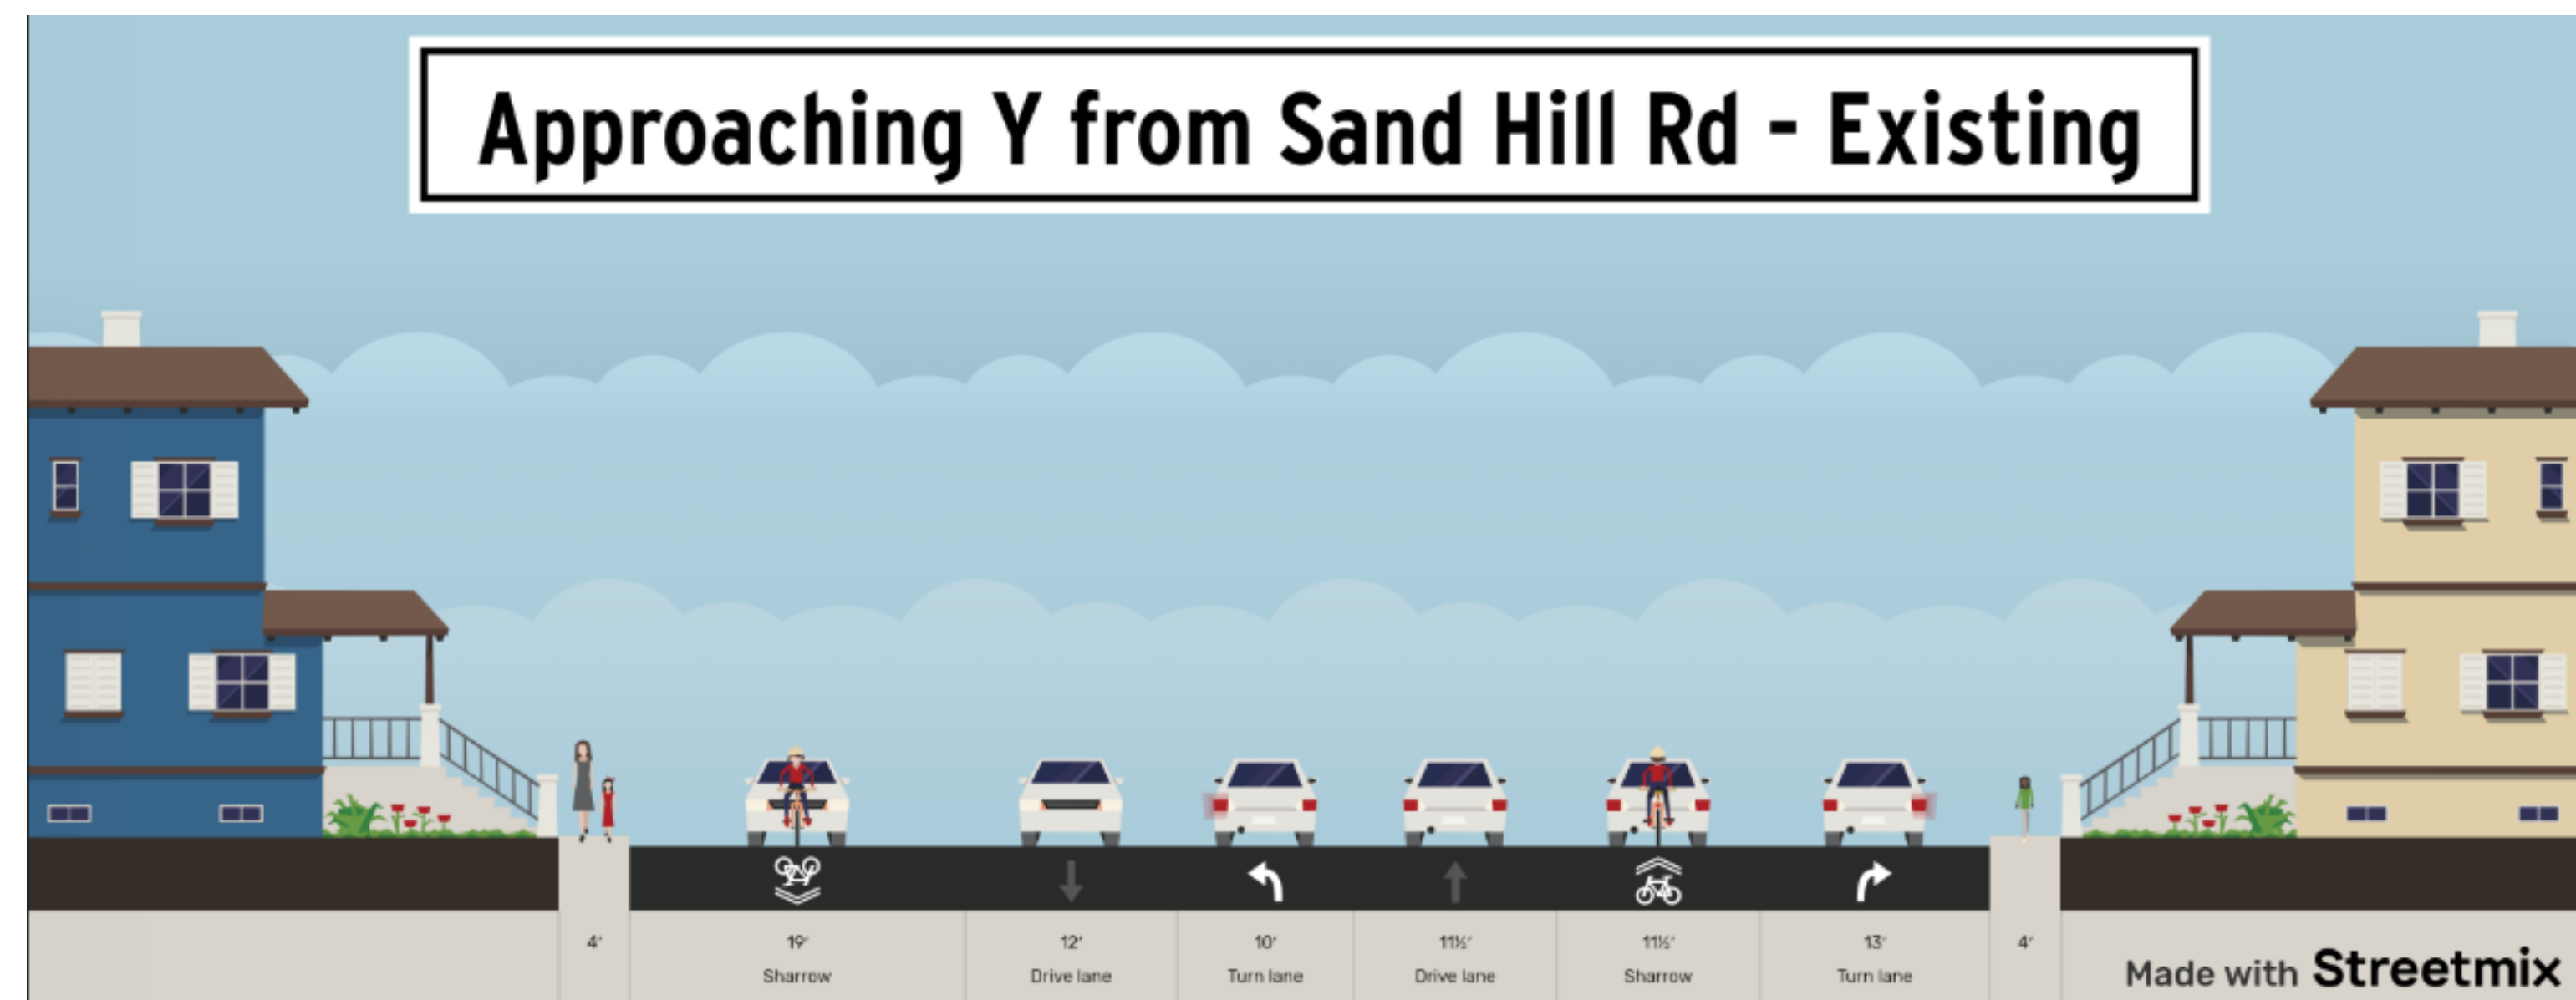

GENERAL NOTE:
LANE WIDTHS AND SIDEWALK RECONSTRUCTION/WIDENING MAY VARY FROM PRELIMINARY LAYOUTS SHOWN.

JANUARY 2020

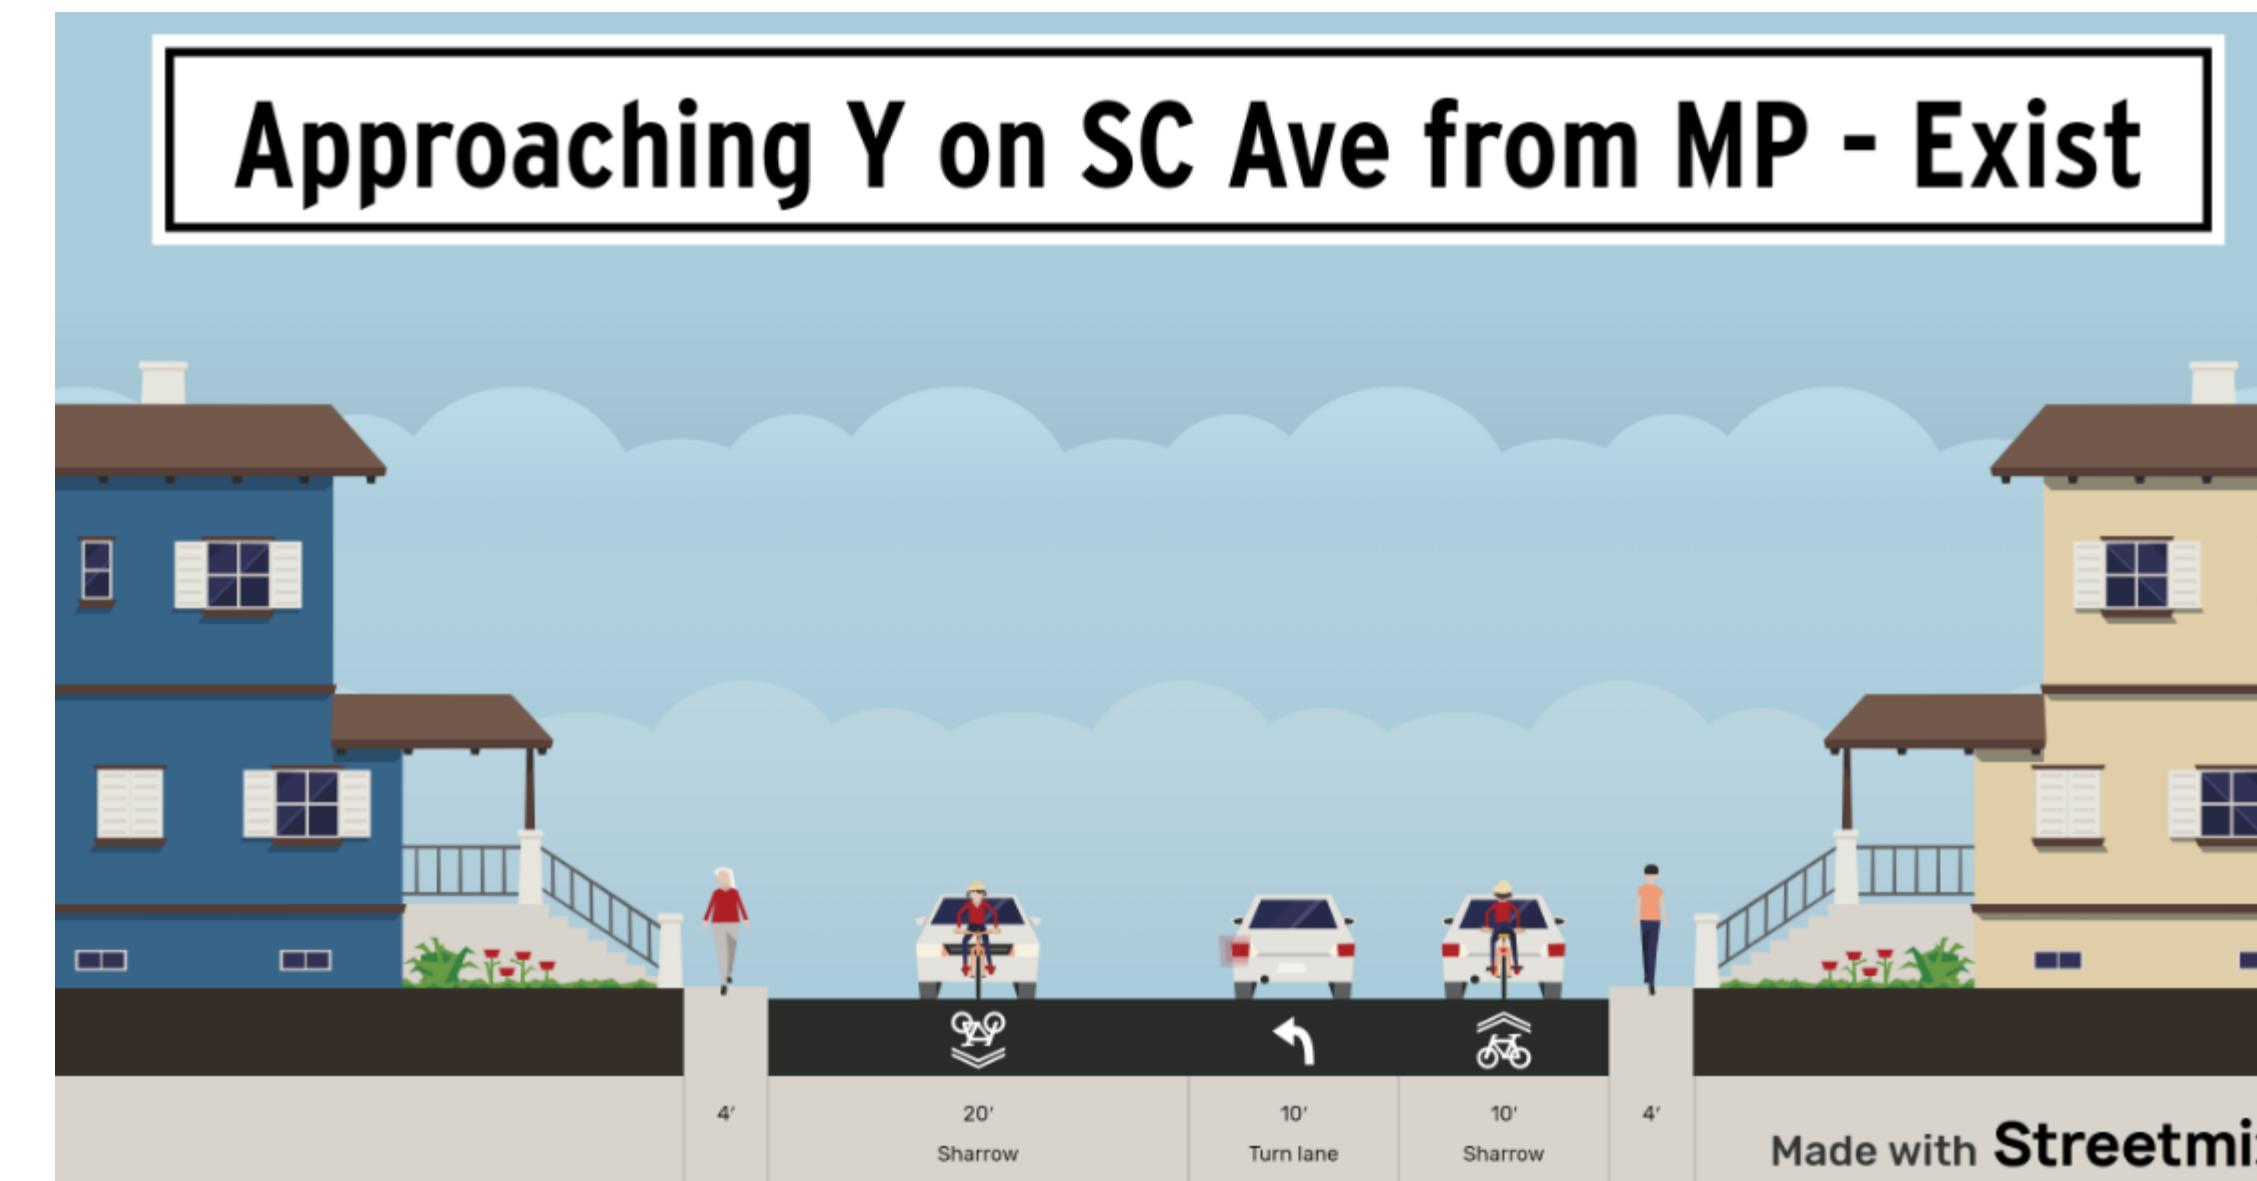

View along Santa Cruz Ave looking towards the Y,
away from Sand Hill Road.

Section EX2

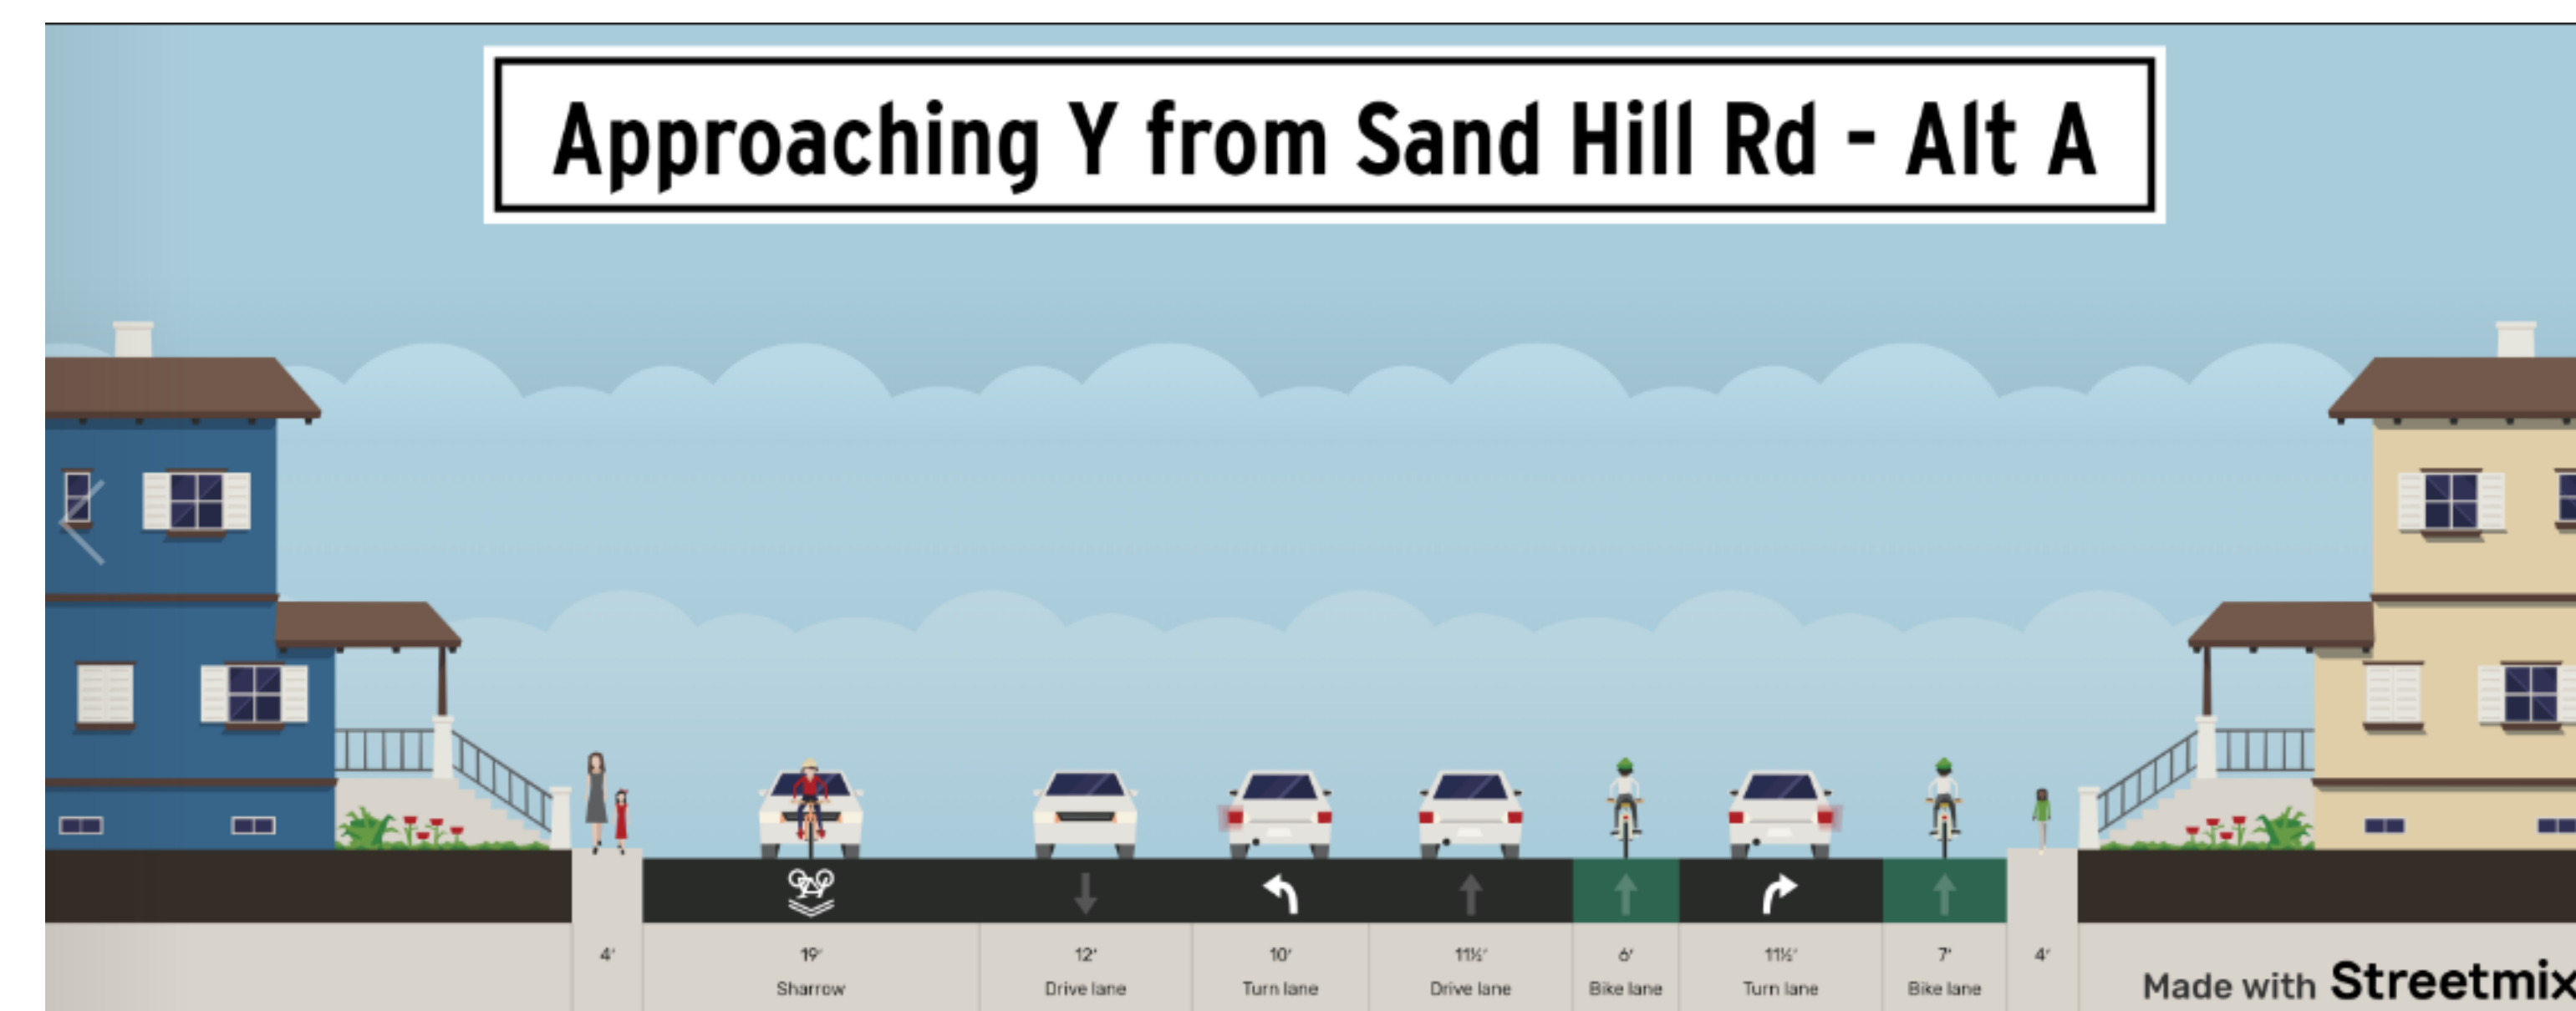

View along Santa Cruz Ave looking towards the Y,
away from Downtown Menlo Park.

COUNTY OF SAN MATEO

Santa Cruz Avenue/Alameda de las Pulgas Corridor Study

Introduction

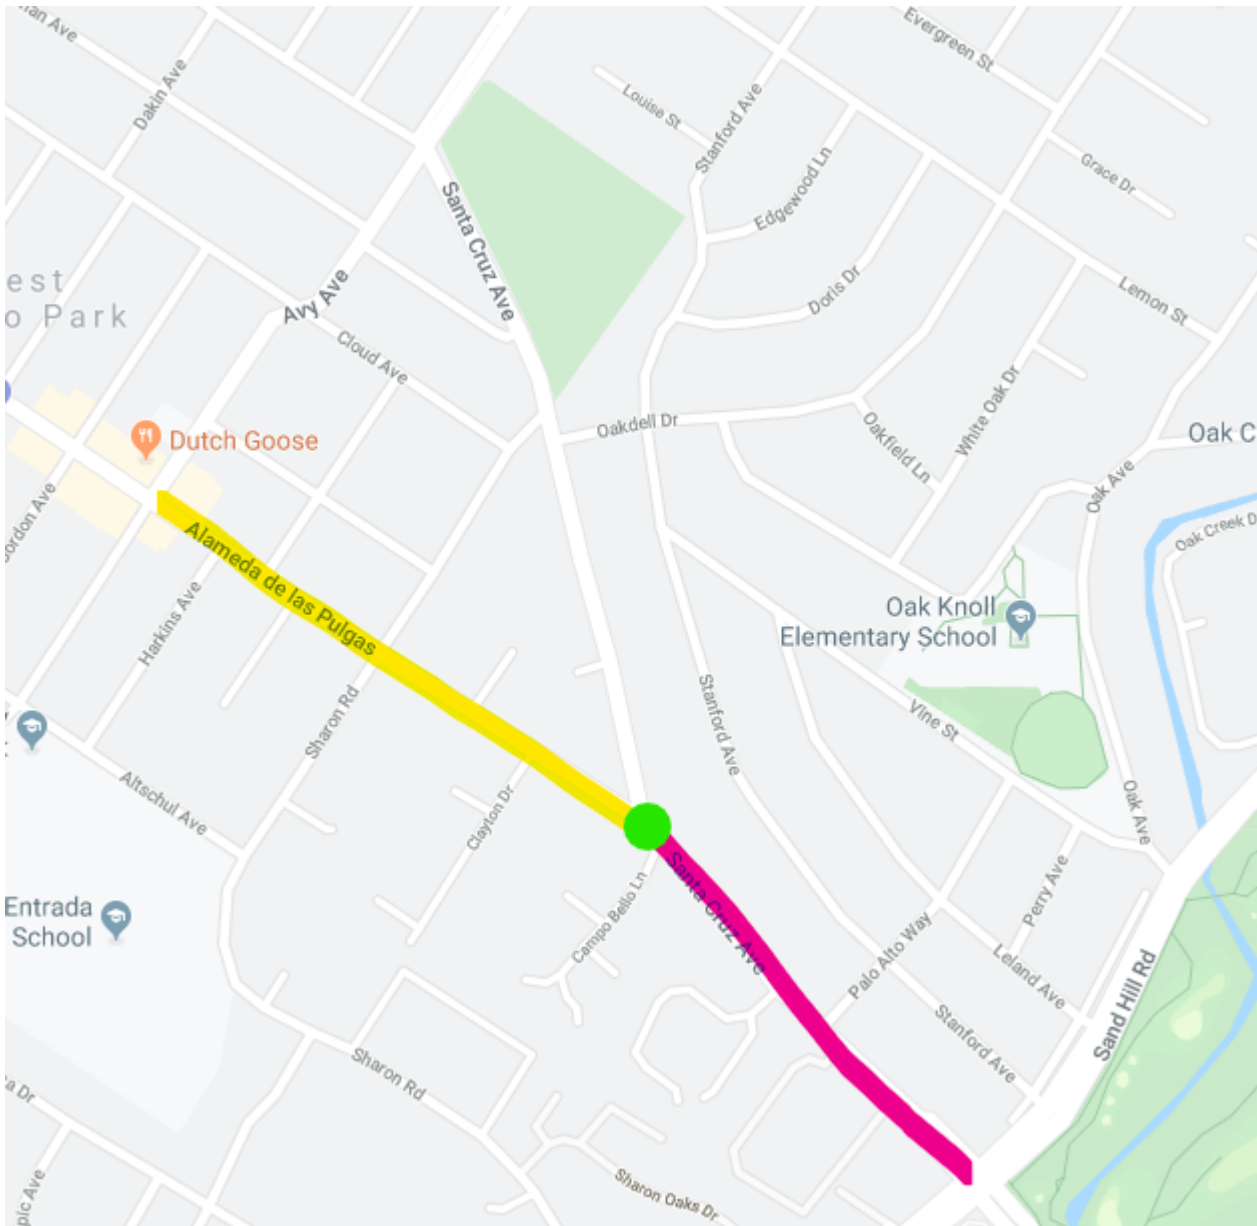

Thank you for taking this survey. San Mateo County and a community Task Force are exploring opportunities for near and long-term improvements in this corridor. This corridor includes the following roadways:

- Alameda de Las Pulgas: Santa Cruz to Avy Avenue (Yellow)
- Santa Cruz Avenue: Sand Hill Road to Alameda de las Pulgas (Red)
- Intersection of Santa Cruz/Alameda de las Pulgas/Campo Bello Lane (Green)

The community was previously surveyed in November 2018 in order to ascertain the community's general preferences and improvement priorities. The results showed the community was most interested in access improvements for pedestrians and cyclists and slower vehicle speeds. Conceptual improvement plans have been developed with these results in mind. In order to balance the requests and impacts to all users, we are asking you to prioritize your personal preferences as a user of this corridor by completing the following survey. More in-depth information can be found at <https://publicworks.smcgov.org/projects/santa-cruz-avenue-corridor-study>

We appreciate your input.

The survey should take about 10 minutes. One survey response per household only.

* 1. What is your name? (First and Last)

2. What is your street address?

* 3. How do you primarily use the corridor? Please select one

By Motor Vehicle

By Bicycle

- By Foot
- Other (please specify)

*** 4. What are all the ways you use the corridor? Select all that apply**

- Resident
- Bicycling through
- Driving through
- Walking through
- Other (please specify)

*** 5. Do you feel the corridor between Sand Hill Road and Avy Avenue should be changed?**

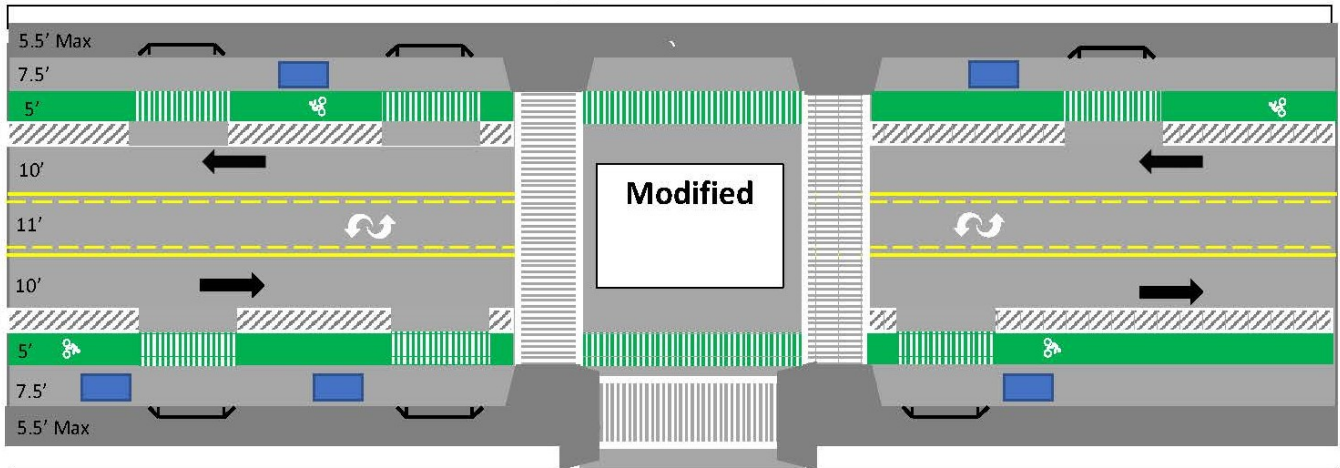

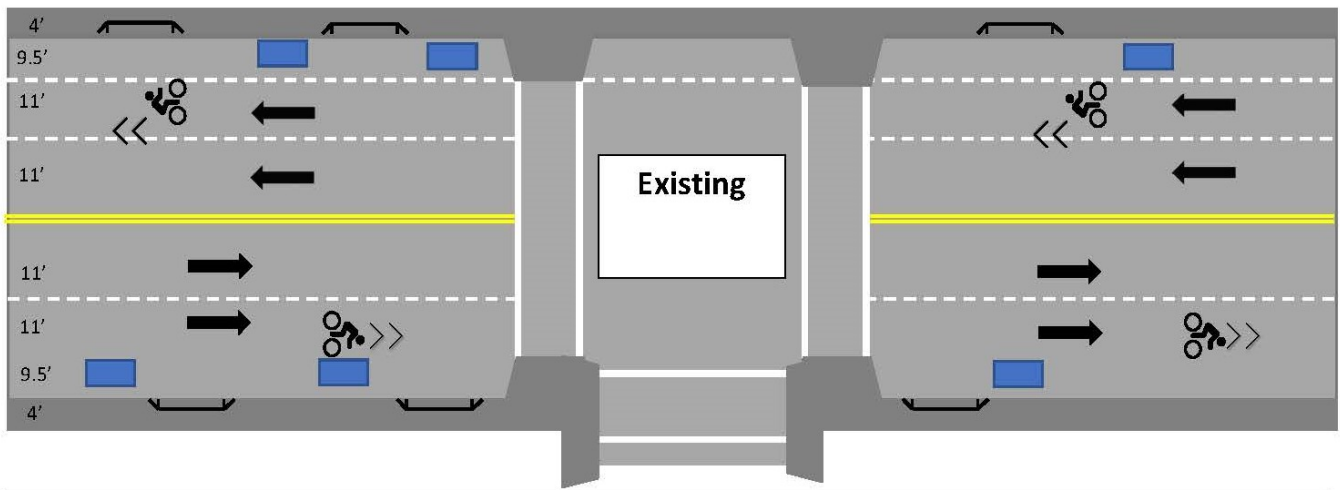

- Yes
- No (Jumps to end of Survey)

6. The roadway section of Alameda de las Pulgas from Avy Avenue to Santa Cruz Ave (Yellow) may be reduced to a 3-lane roadway section consisting of one lane in each direction, with a two way turn lane, in order to add bike lanes, widen sidewalks, and shorten crosswalks (see image below). This realignment would have minor impacts on vehicular traffic. You are...

- ...in favor of this change
- ...opposed to this change

Schematic:

← To Sand Hill Road To Avy →

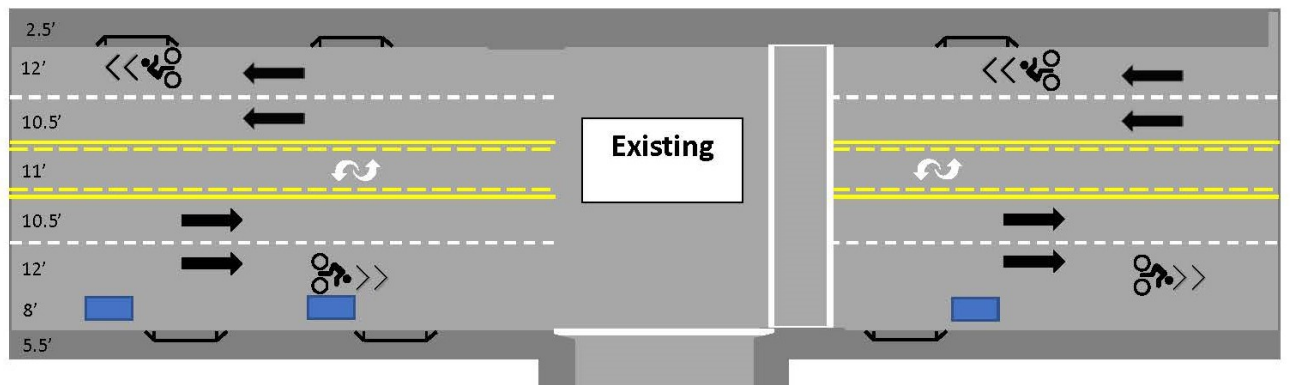

Changes: Modify to one lanes northbound, one lane southbound and a two-way turn lane. Narrow lanes, add bulbouts, crosswalks, bike lanes in both directions, bike buffer in both directions and widen sidewalks.

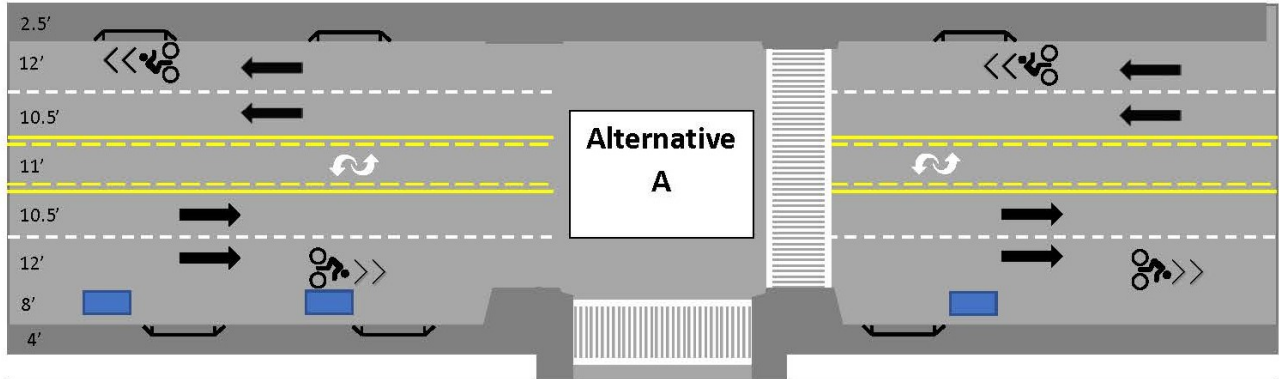

Future Traffic Impacts (2030): This is likely to increase vehicle travel time by an average of 1.5 minutes during the commute times in each direction. Bike and pedestrian facilities are greatly improved.

← To Sand Hill Road To Avy →

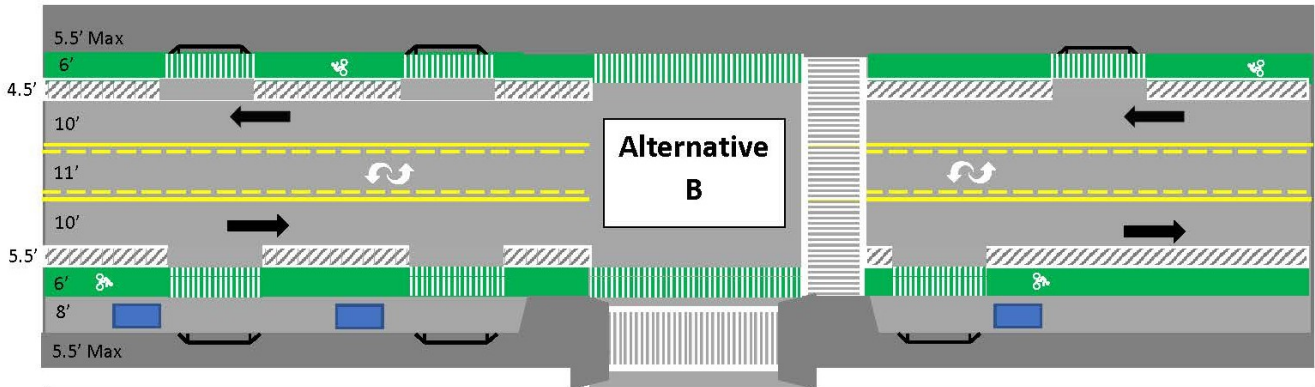

7. The roadway section of Santa Cruz Avenue from Alameda de las Pulgas to Sand Hill Road (Red) may be modified in order add bike and pedestrian facilities as shown in the alternative schematics below:

← To Sand Hill Road To ADLP →

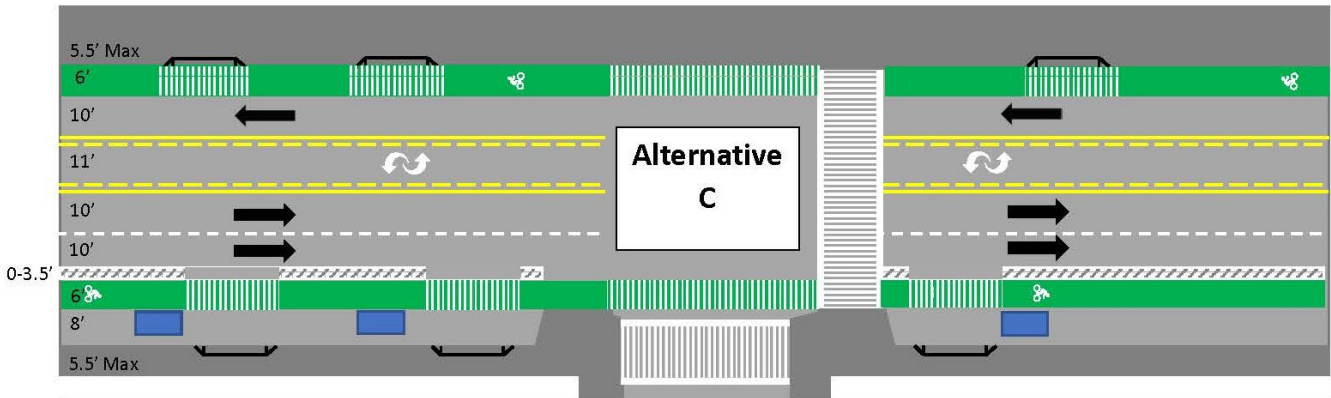

Changes: Keep two lanes northbound and two lanes southbound, add bulbouts, and crosswalks.
Future Traffic Impacts (2030): This is not likely to impact vehicle travel time but only allows for minimal pedestrian/bike improvements.

Changes: Modify to one lane northbound, one lane southbound and a two-way turn lane. Narrow lanes, add bulbouts, crosswalks, bike lanes in both directions, bike buffer in both directions and widen sidewalks
Future Traffic Impacts (2030): This is likely to increase vehicle travel time by an average of 1 minute during the peak period for each direction. Bike and pedestrian facilities are greatly improved as a result.

Changes: Modify to two lanes northbound, one lane southbound and a two-way turn lane. Narrow lanes, add bulbouts, bike lanes in both directions and widen sidewalks. Add Bike Buffer only in the northbound direction.
Future Traffic Impacts (2030): This is not likely to impact vehicle travel time but does allow for significant pedestrian/bike improvements.

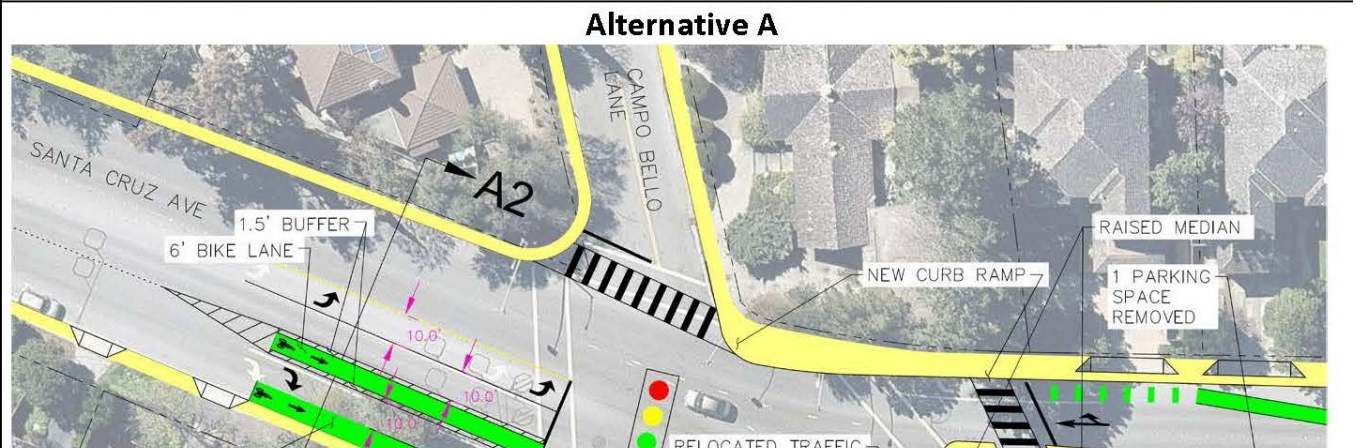

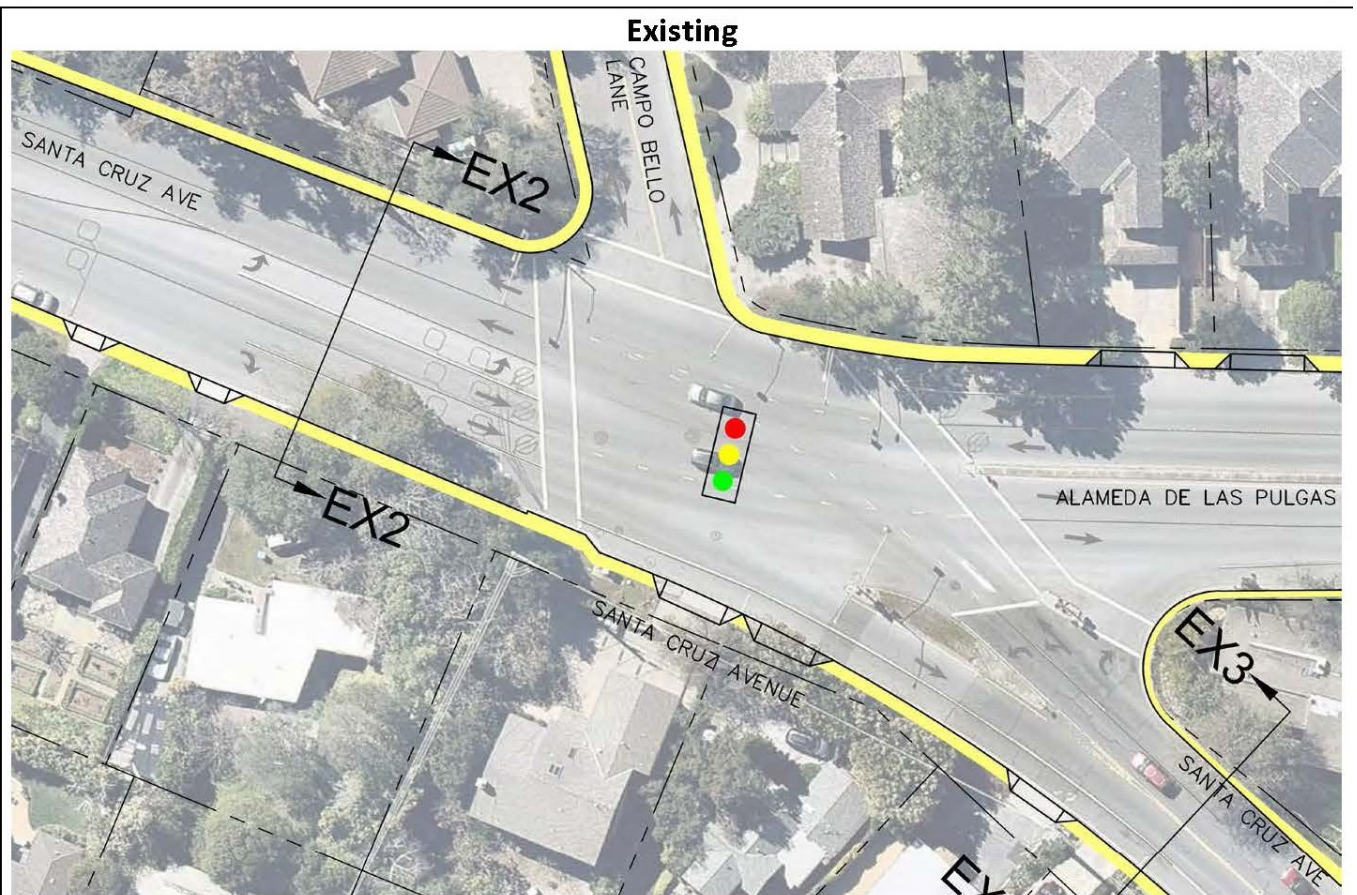

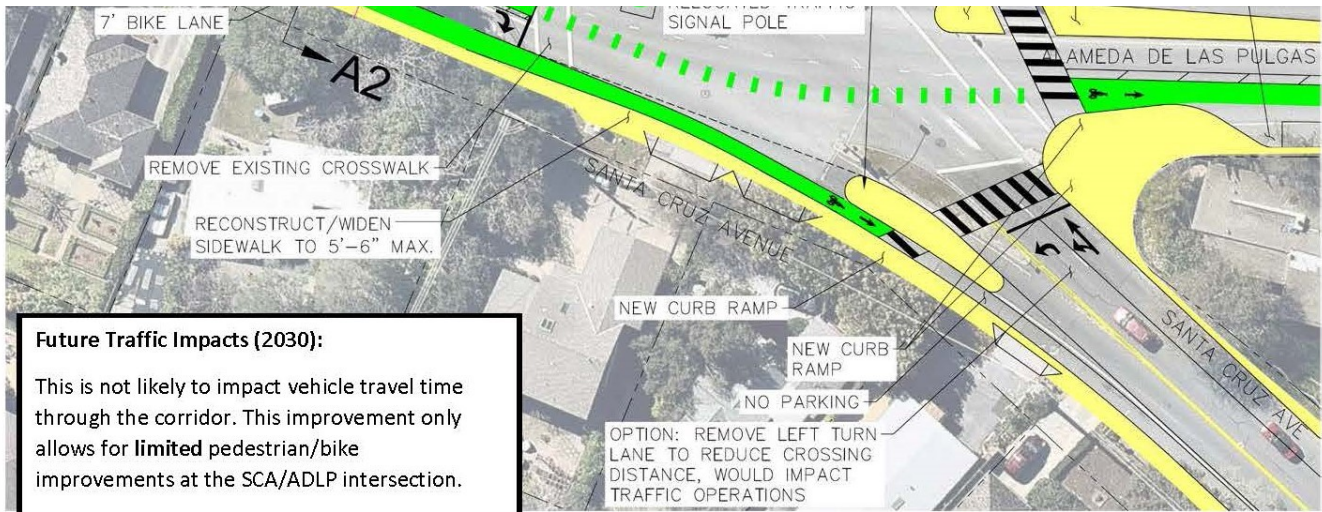

*** 7. Please select your preferences for each of the above alternatives:
 (You must choose an different option for each row)**

Most Preferred 2nd Preferred 3rd Preferred Least Preferred

	Most Preferred	2nd Preferred	3rd Preferred	Least Preferred
Alternative A	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Alternative B	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Alternative C	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
No changes - Existing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

8. The Intersection of Santa Cruz Ave (SCA) and Alameda de las Pulgas (ALDP) may be modified as shown in the alternative schematics below:

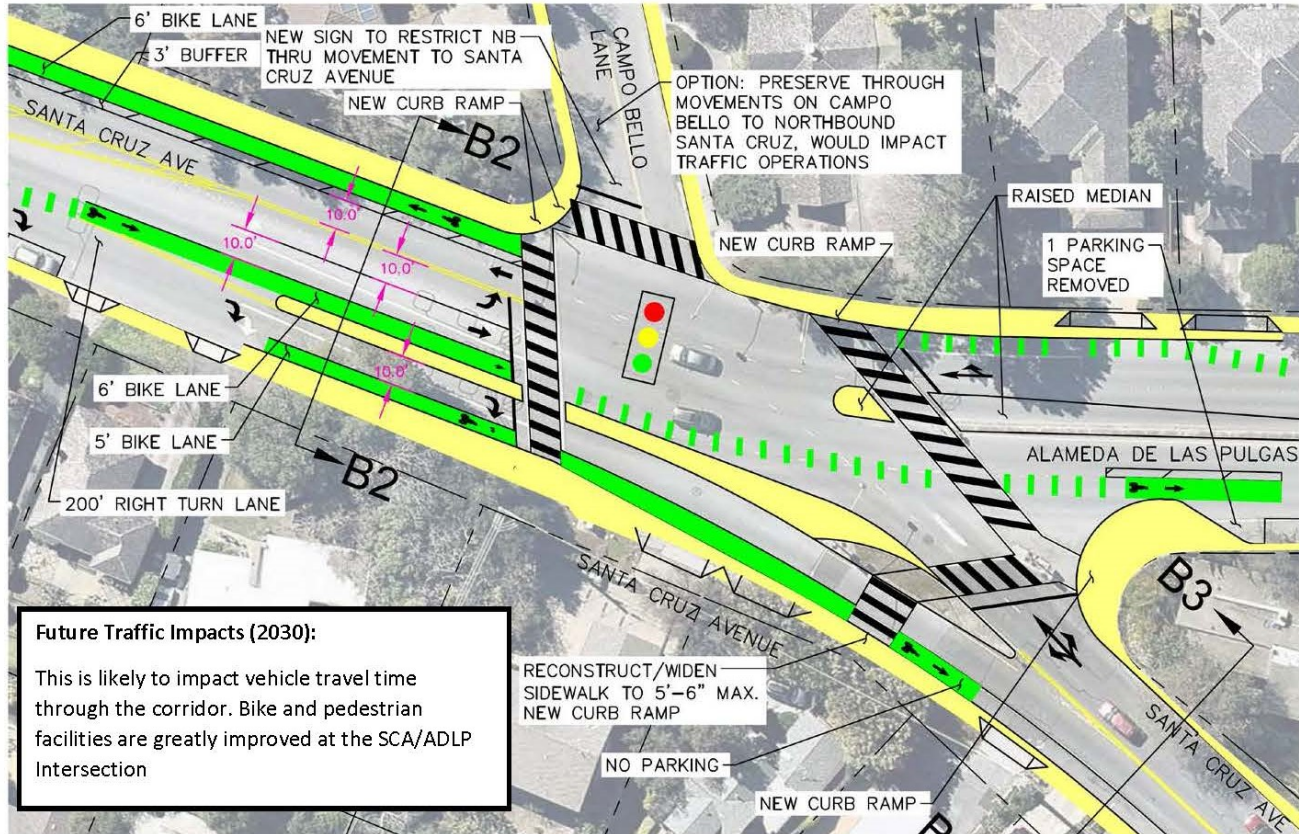

Future Traffic Impacts (2030):
This is not likely to impact vehicle travel time through the corridor. This improvement only allows for **limited** pedestrian/bike improvements at the SCA/ADLP intersection.

← To Sand Hill Road

To Avy/Menlo Park →

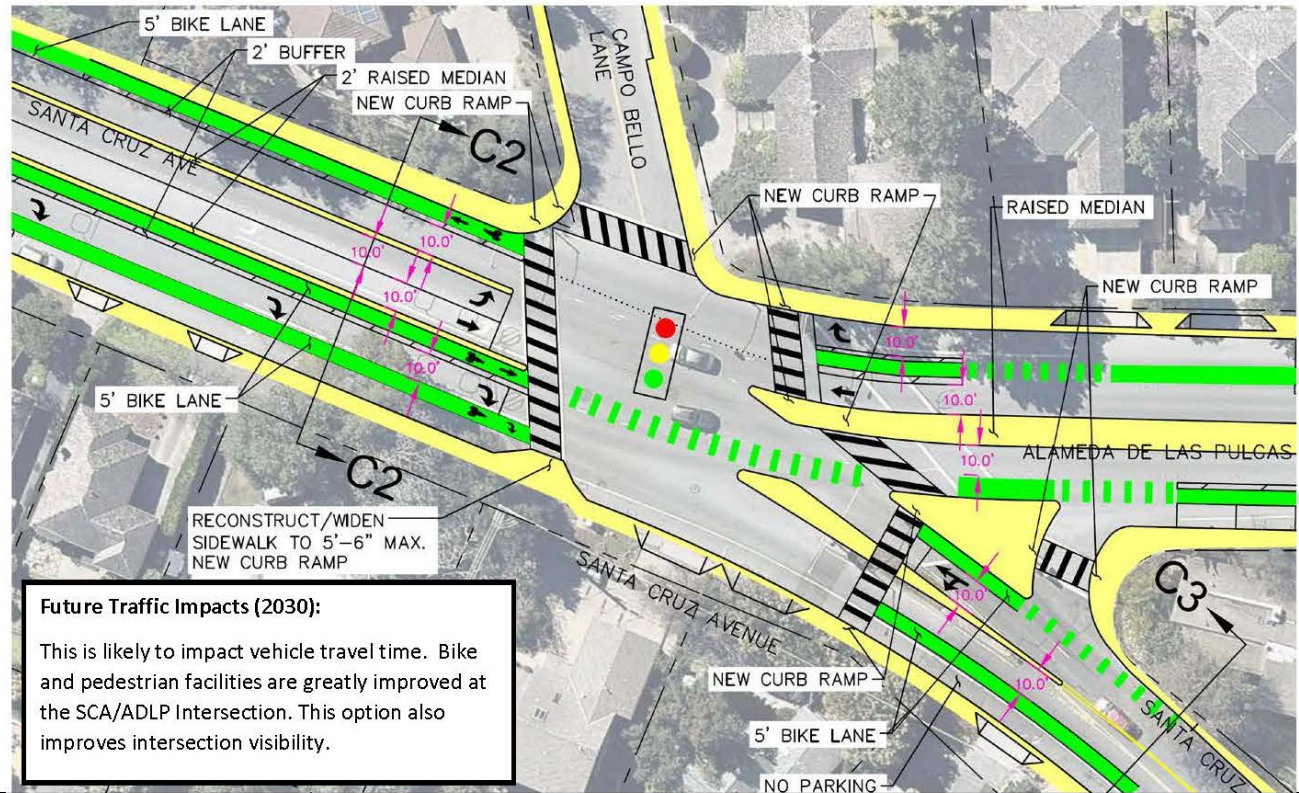

Alternative B

Future Traffic Impacts (2030):

This is likely to impact vehicle travel time through the corridor. Bike and pedestrian facilities are greatly improved at the SCA/ADLP Intersection

Alternative C

Future Traffic Impacts (2030):

This is likely to impact vehicle travel time. Bike and pedestrian facilities are greatly improved at the SCA/ADLP Intersection. This option also improves intersection visibility.

← To Sand Hill Road

To Avy/Menlo Park →

*** 8. Please select your preferences for each of the above alternatives:**

Santa Cruz Ave and Alameda de las Pulgas

Alternative Preference Survey Results

February 2020

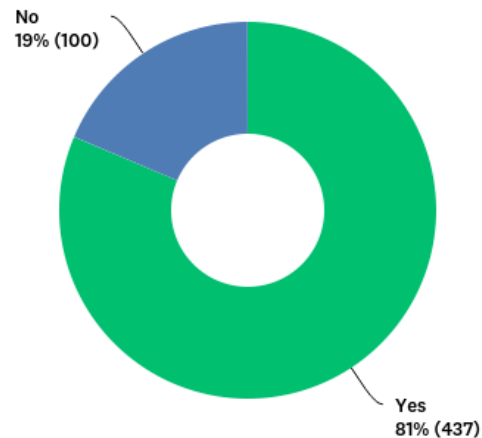

Methodology

- The survey was conducted online between January 31, 2020 and February 23, 2020
- The survey was publicized via community meeting, social media, Public Works website, electronic message boards.
- A total of 537 responses were received.
- The results are based on total responses. Where some respondents did not answer a specific question, those responses were not included in the total calculation.
- Over 90% of the surveys were complete

Summary of Findings

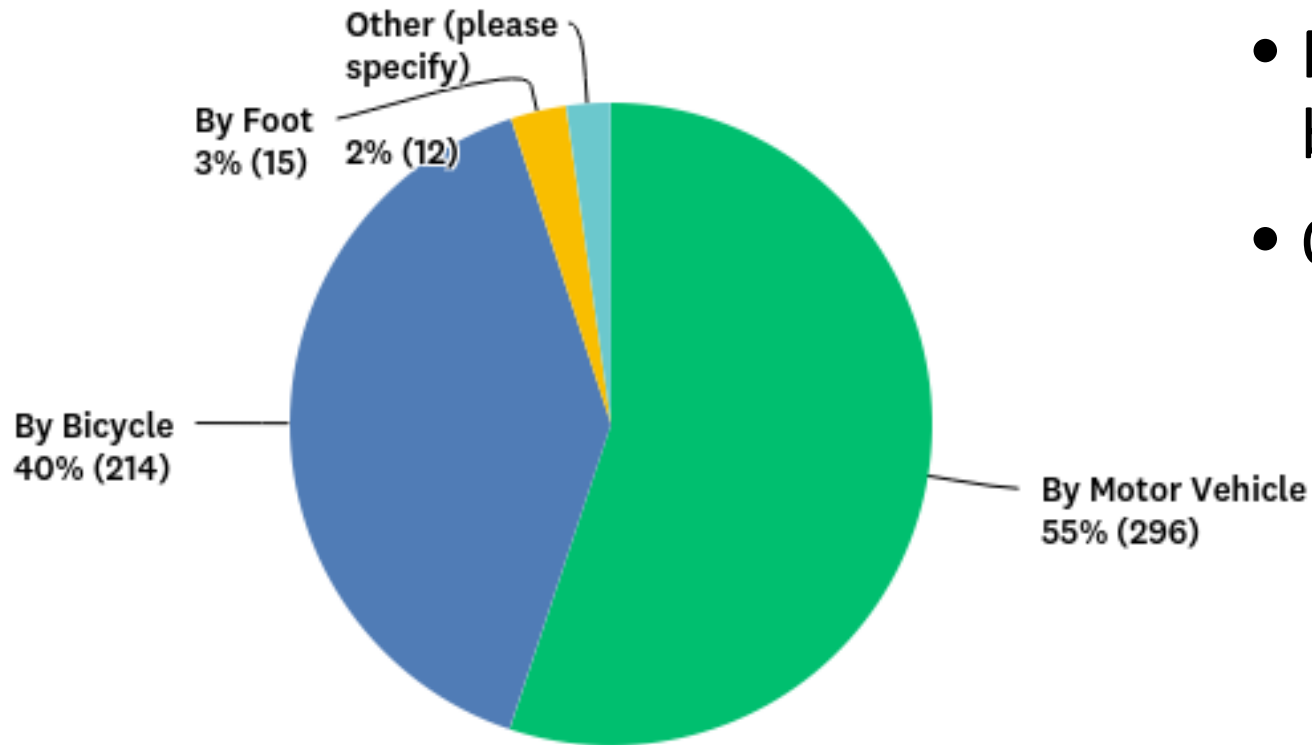

- Majority of respondents primarily drive or bike
- A clear majority of respondents want change in the corridor.
- Of those who want change:
 - Motorists responses were mixed among alternatives
 - Bicyclists prefer separated bike facilities
 - The few who identified as primarily pedestrians support enhanced sidewalks and crosswalks

Do you feel the corridor between Sand Hill Road and Avy Avenue should be changed?

Note: If respondent chose no, they were not able to rank the alternatives and skipped to the end

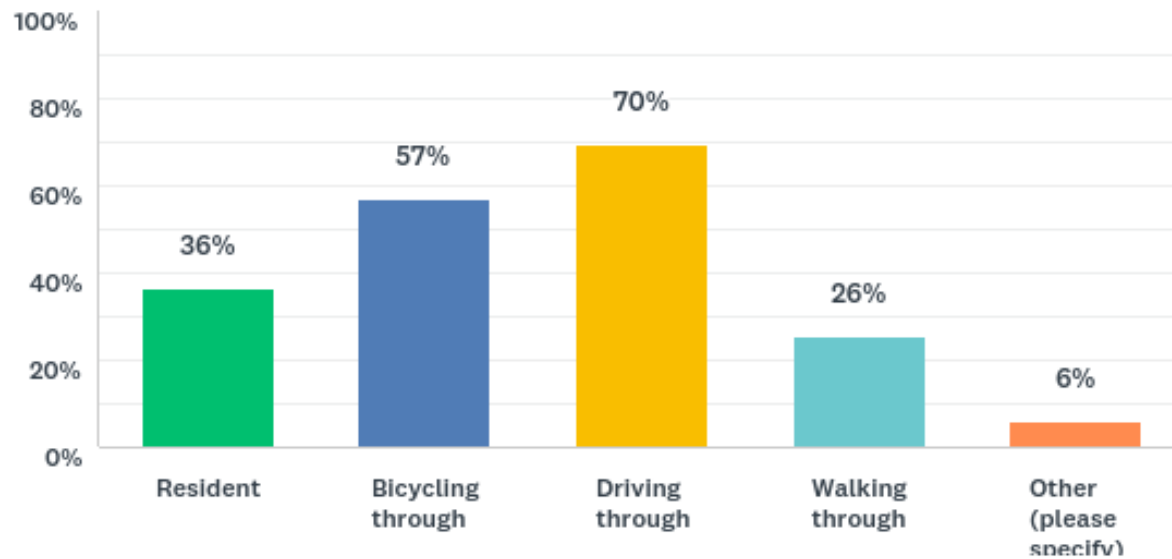

Respondent Demographics – Primary Mode of Choice

- Majority are motorists and bicyclists
- Others include shuttle/bus

Respondent Demographics – All uses of Corridor

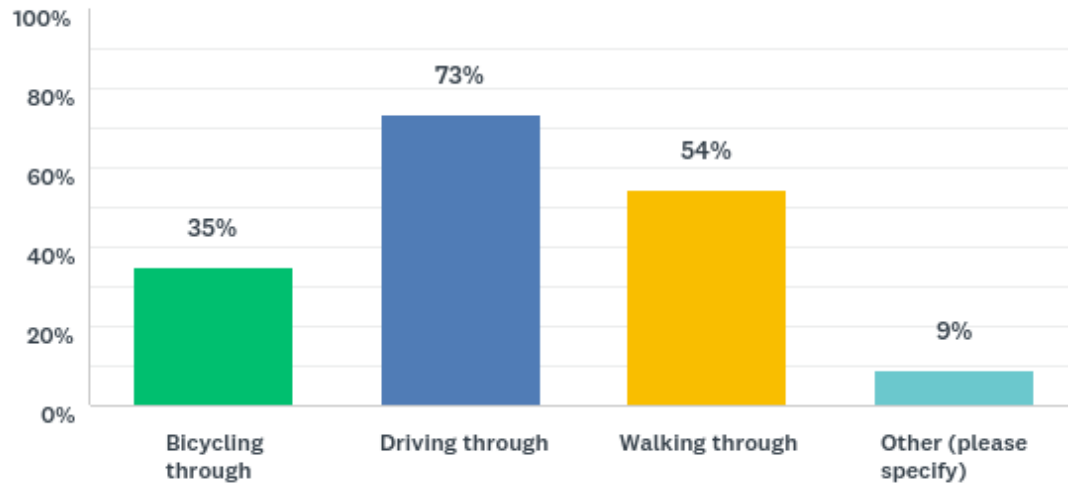

What are all the ways you use the corridor? Select all that apply

- Majority of responders not living in the area

Residents - Profile

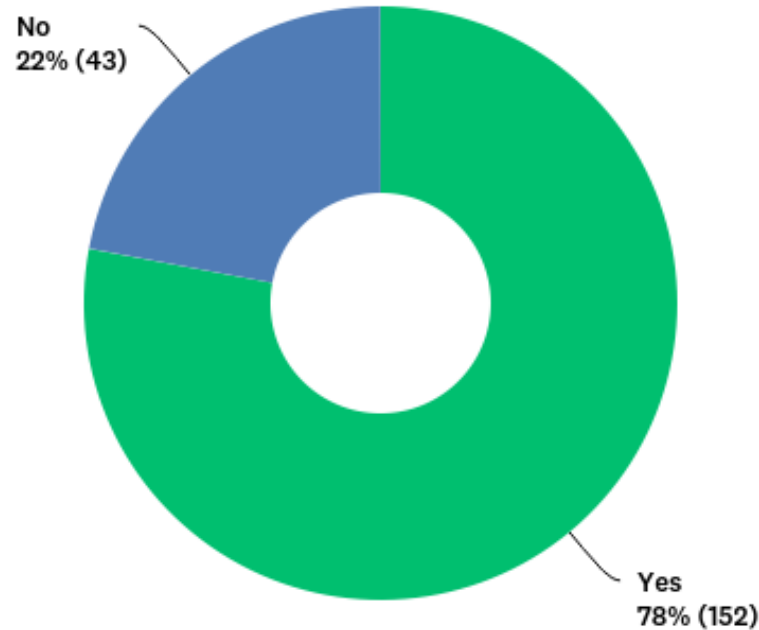

What are all the ways you use the corridor? Select all that apply

- Majority of residents who live around the corridor drive
- Some walk and bike

Residents – Responses: Changes to Corridor

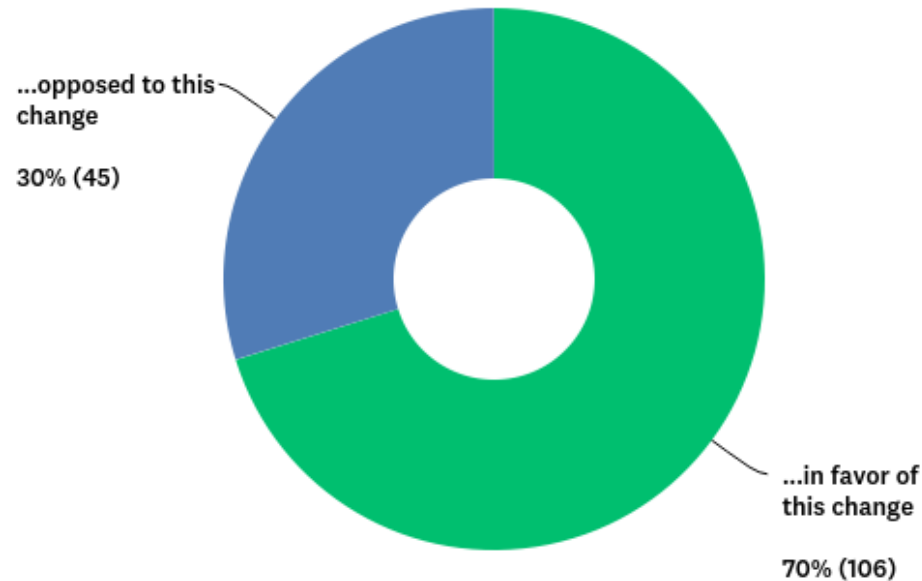

Do you feel the corridor between Sand Hill Road and Avy Avenue should be changed?

Note: If respondent chose no, they were not able to rank the alternatives and skipped to the end

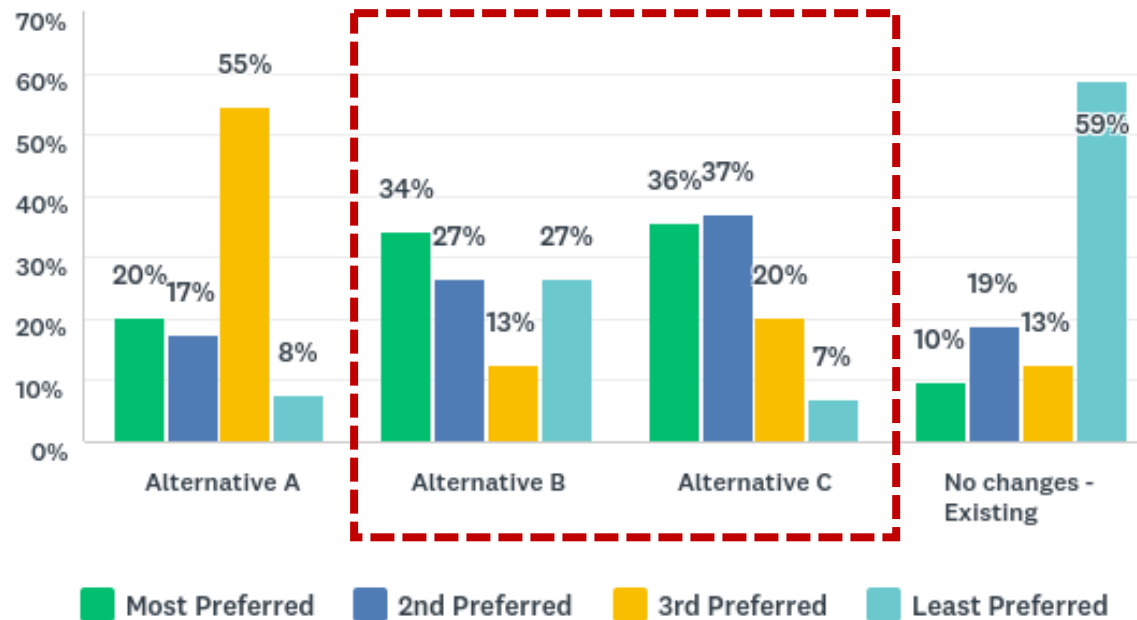

Residents – Responses: Alameda de Las Pulgas

Q6 The roadway section of Alameda de las Pulgas from Avy Avenue to Santa Cruz Ave (Yellow) may be reduced to a 3-lane roadway section consisting of one lane in each direction, with a two way turn lane, in order to add bike lanes, widen sidewalks, and shorten crosswalks (see image below). This realignment would have minor impacts on vehicular traffic. You are...

Residents – Responses: Santa Cruz Ave

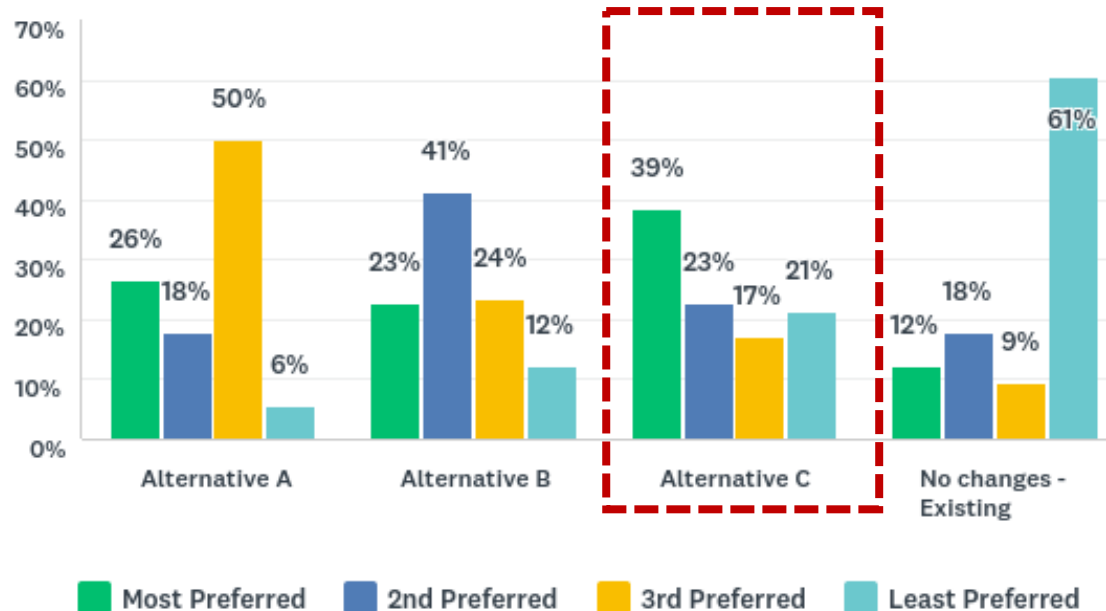

Please select your preferences for each of the above alternatives:(You must choose an different option for each row)

Slightly favors Alternatives B and C

Residents – Responses: “Y” Intersection

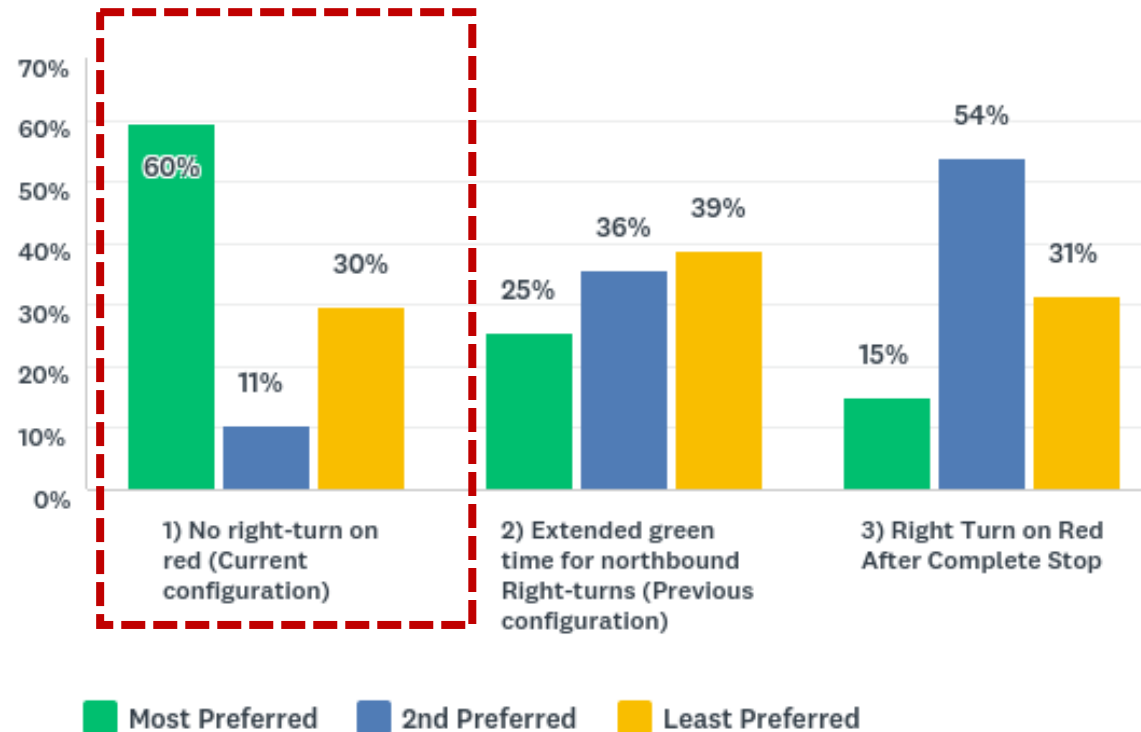

Please select your preferences for each of the above alternatives:(You must choose an different option for each row)

Slightly favors Alternative C

Residents – Responses: “Y” Signal Configuration

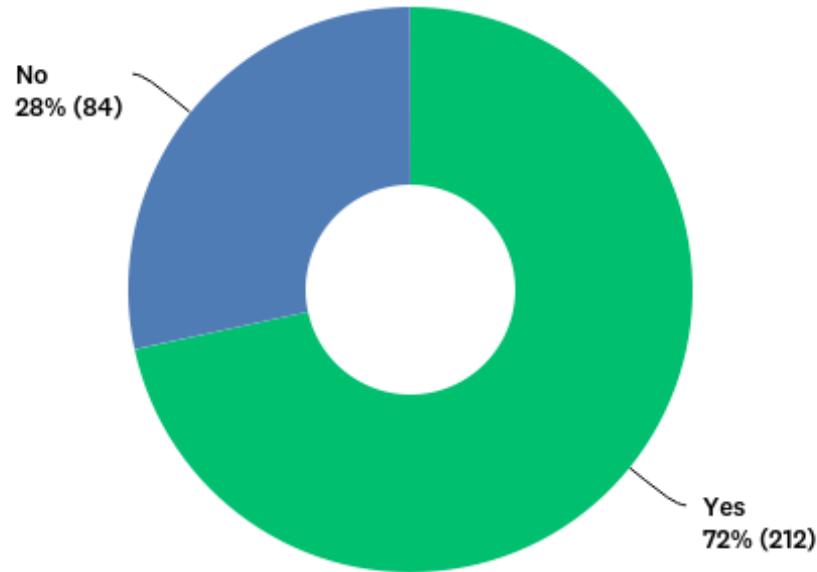

Please select your preferences for each of the above alternatives:(You must choose an different option for each row)

Clearly favors no-right turn on red

Motorists – Changes to Corridor

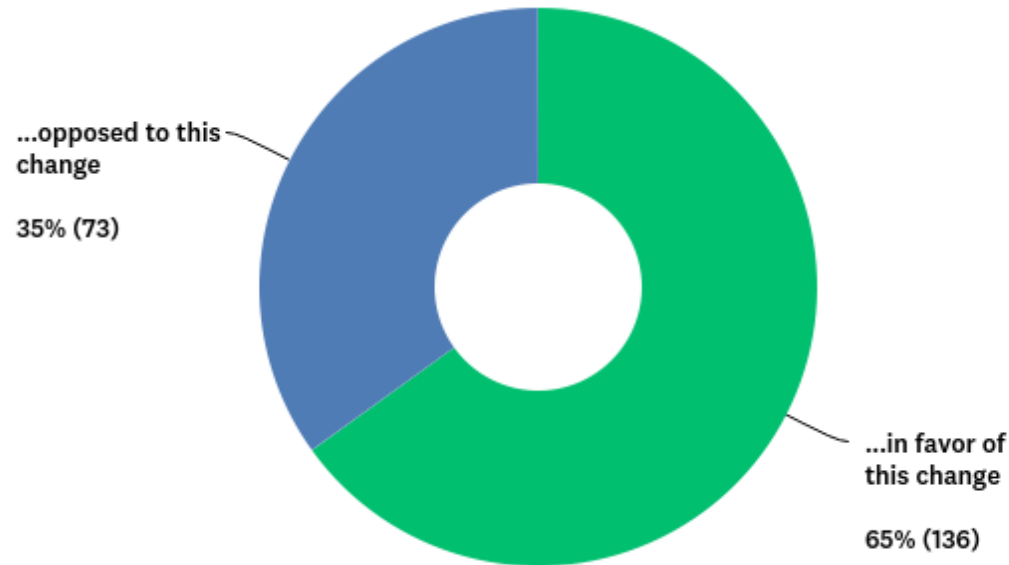

Do you feel the corridor between Sand Hill Road and Avy Avenue should be changed?

Note: If respondent chose no, they were not able to rank the alternatives and skipped to the end

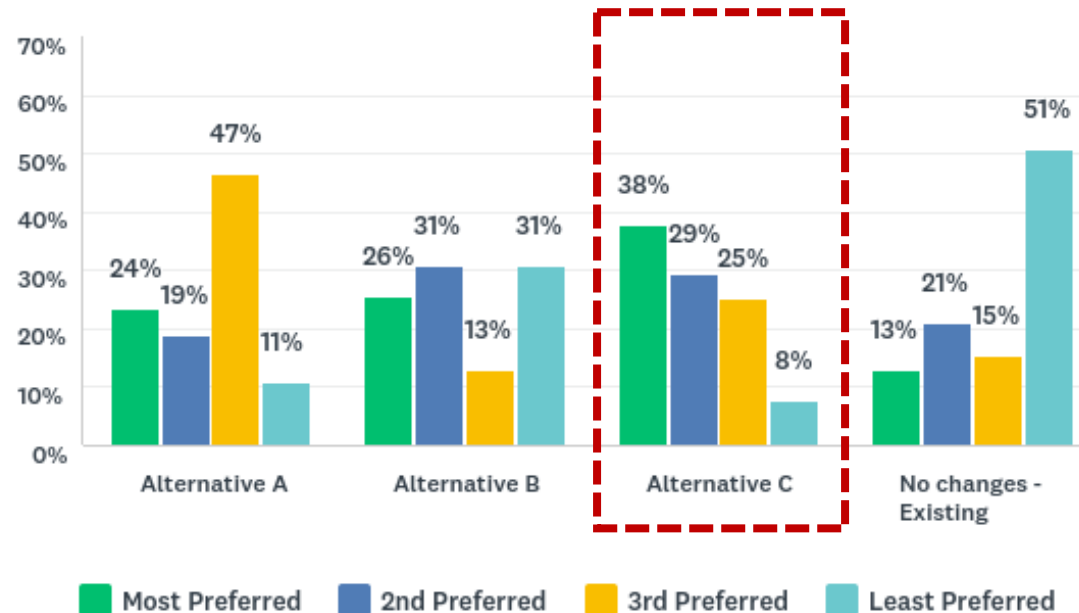

Motorists – Responses: Alameda de Las Pulgas

Q6 The roadway section of Alameda de las Pulgas from Avy Avenue to Santa Cruz Ave (Yellow) may be reduced to a 3-lane roadway section consisting of one lane in each direction, with a two way turn lane, in order to add bike lanes, widen sidewalks, and shorten crosswalks (see image below). This realignment would have minor impacts on vehicular traffic. You are...

Motorists – Responses: Santa Cruz Ave

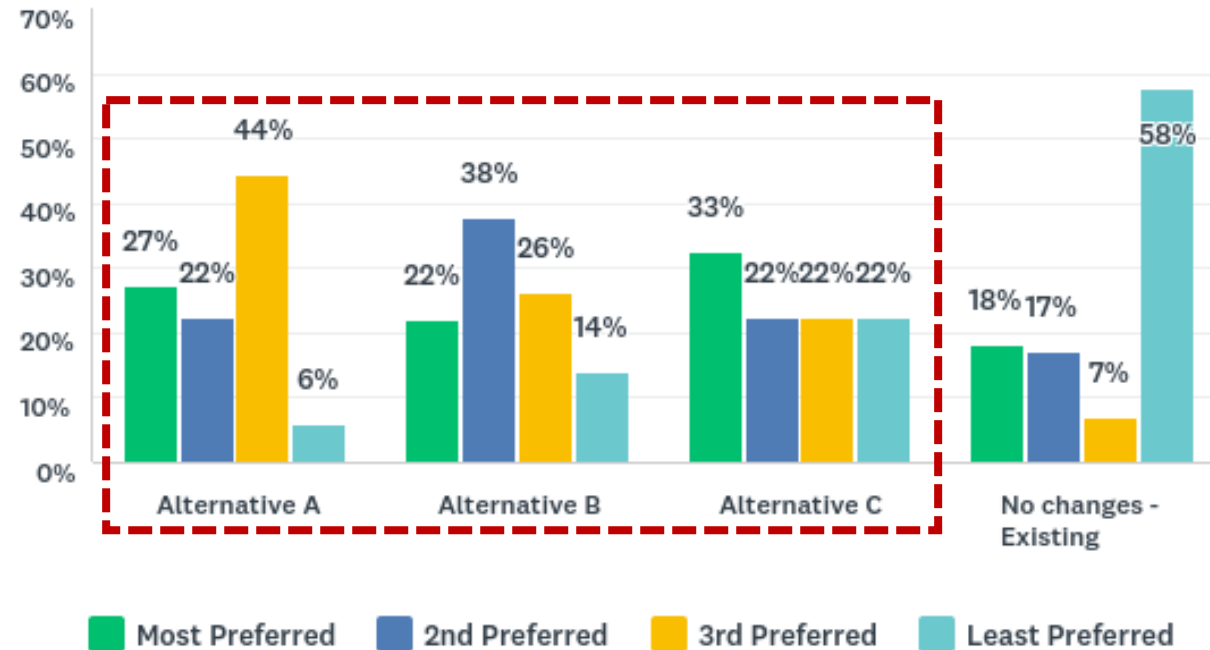

Q7 Please select your preferences for each of the above alternatives:(You must choose an different option for each row)

Slightly Favors Alternative C

Motorists – Responses: “Y” Intersection

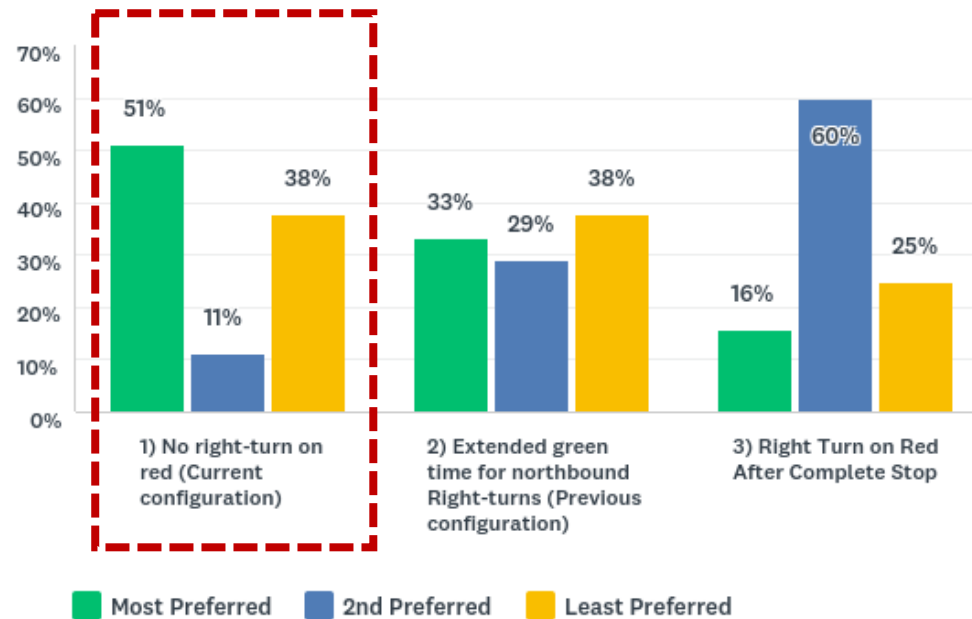

Please select your preferences for each of the above alternatives:(You must choose an different option for each row)

No clear favored alternative

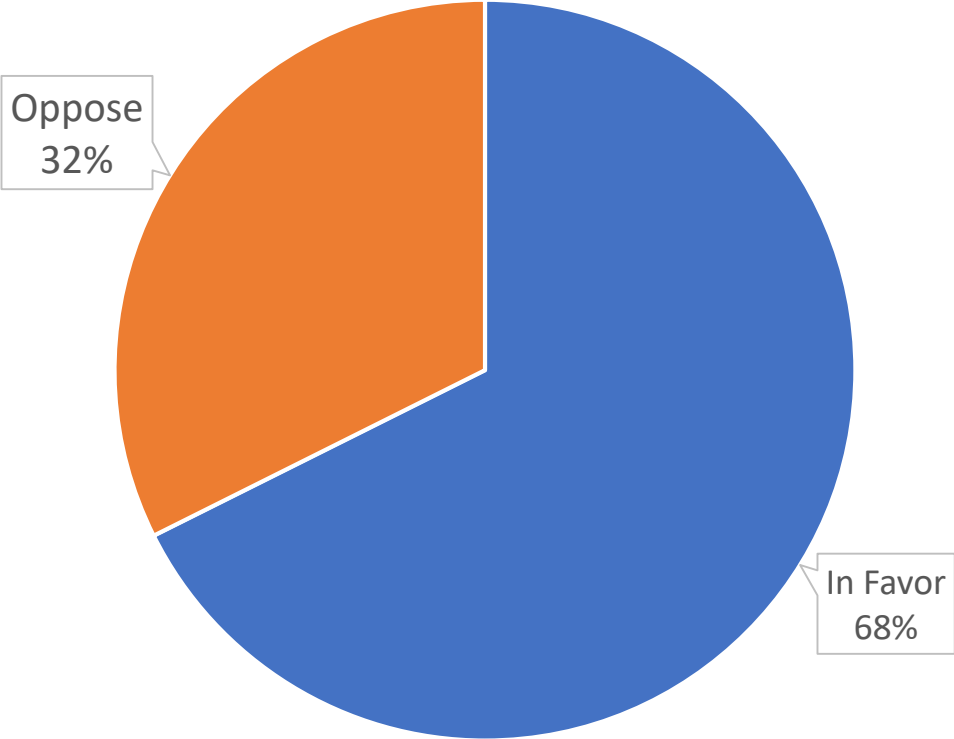

Motorists – Responses: “Y” Signal Configuration

Q9 Please select your preferences for each of the above alternatives:(You must choose an different option for each row)

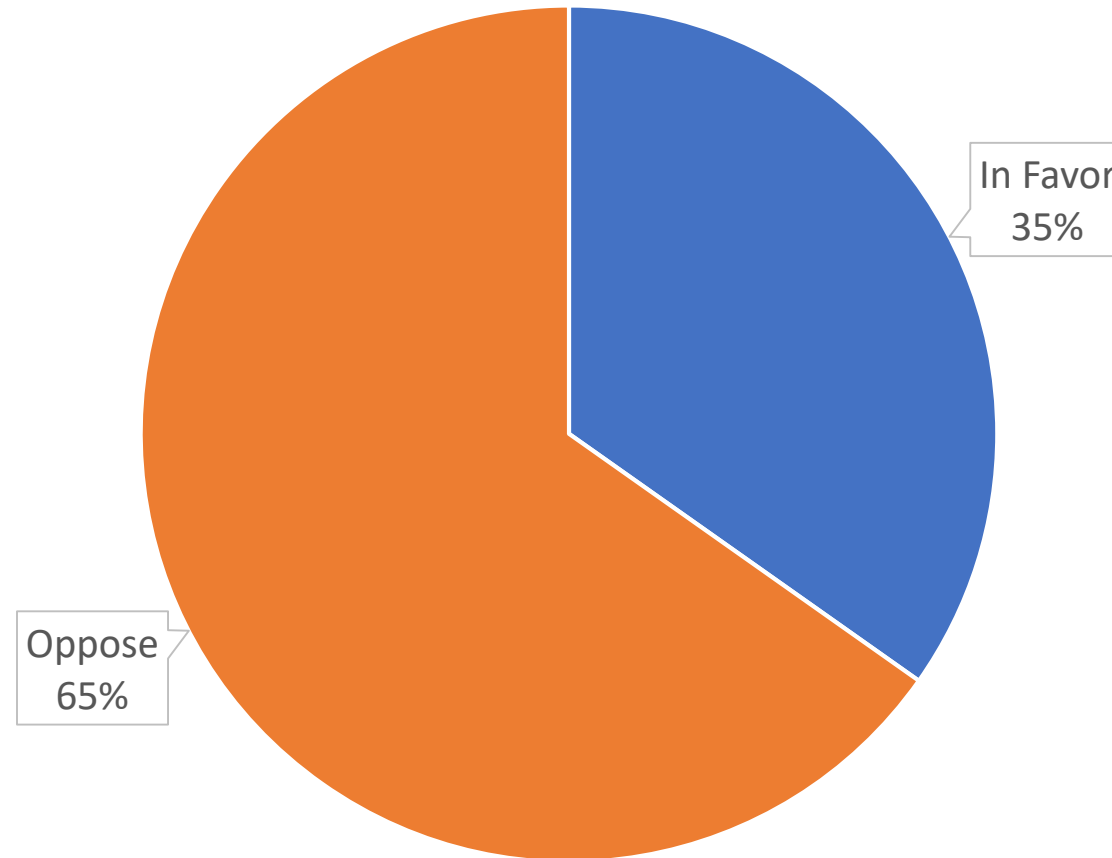

Favors no right-turn on red

Non-Res Motorists: Changes to the Corridor

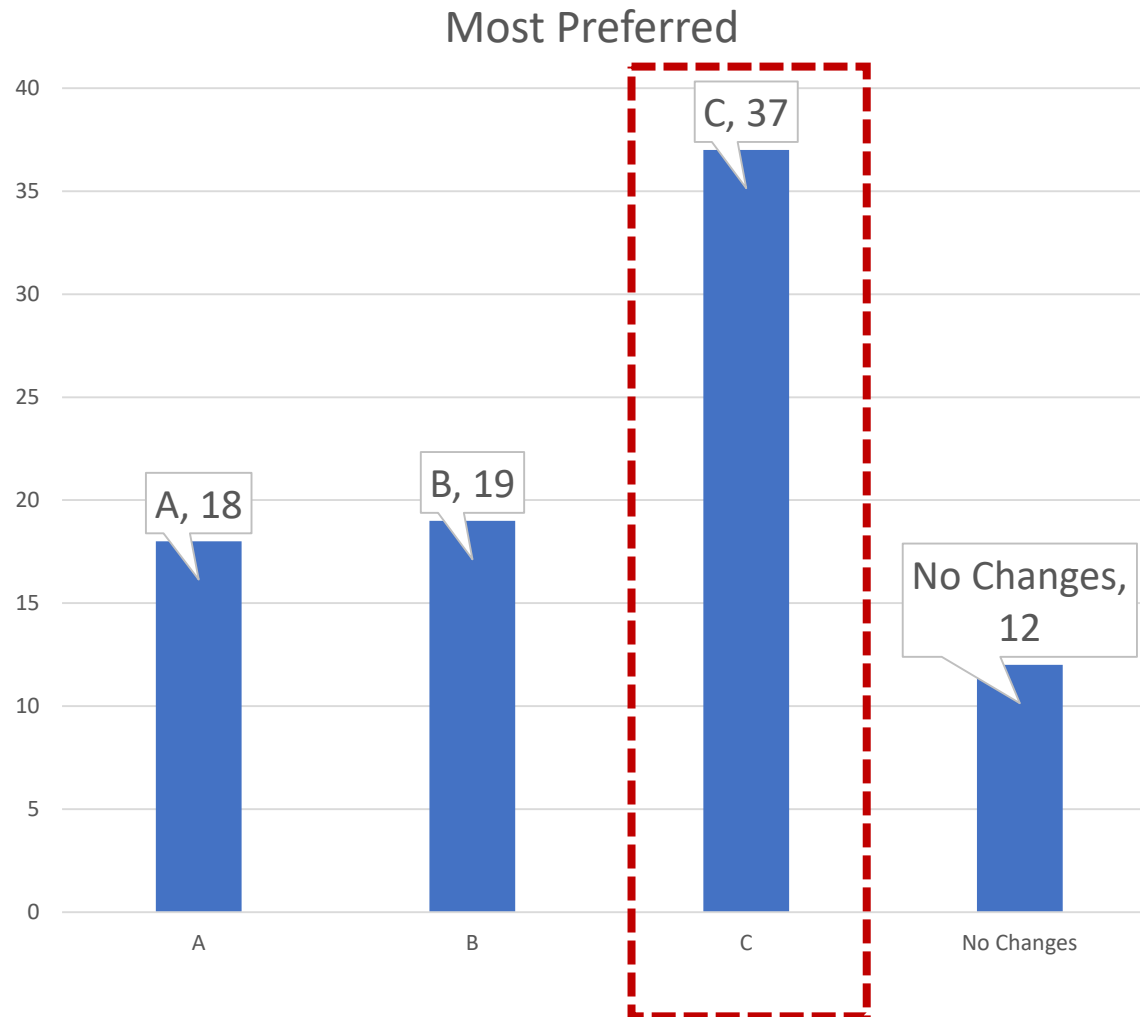

Note: If respondent chose no, they were not able to rank the alternatives and skipped to the end

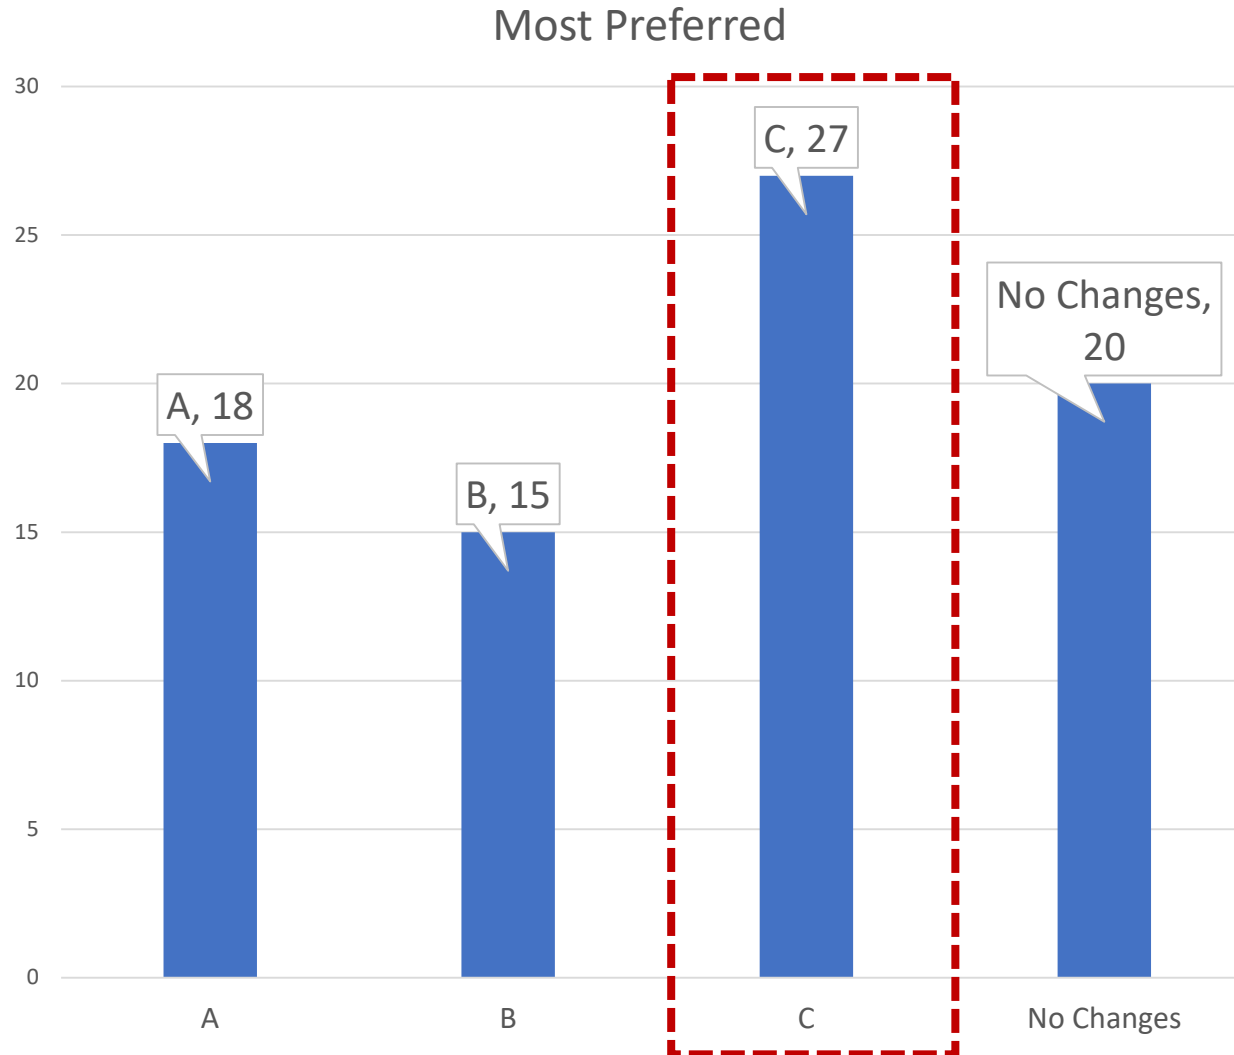

Non-Res Motorists: Changes to the ADLP

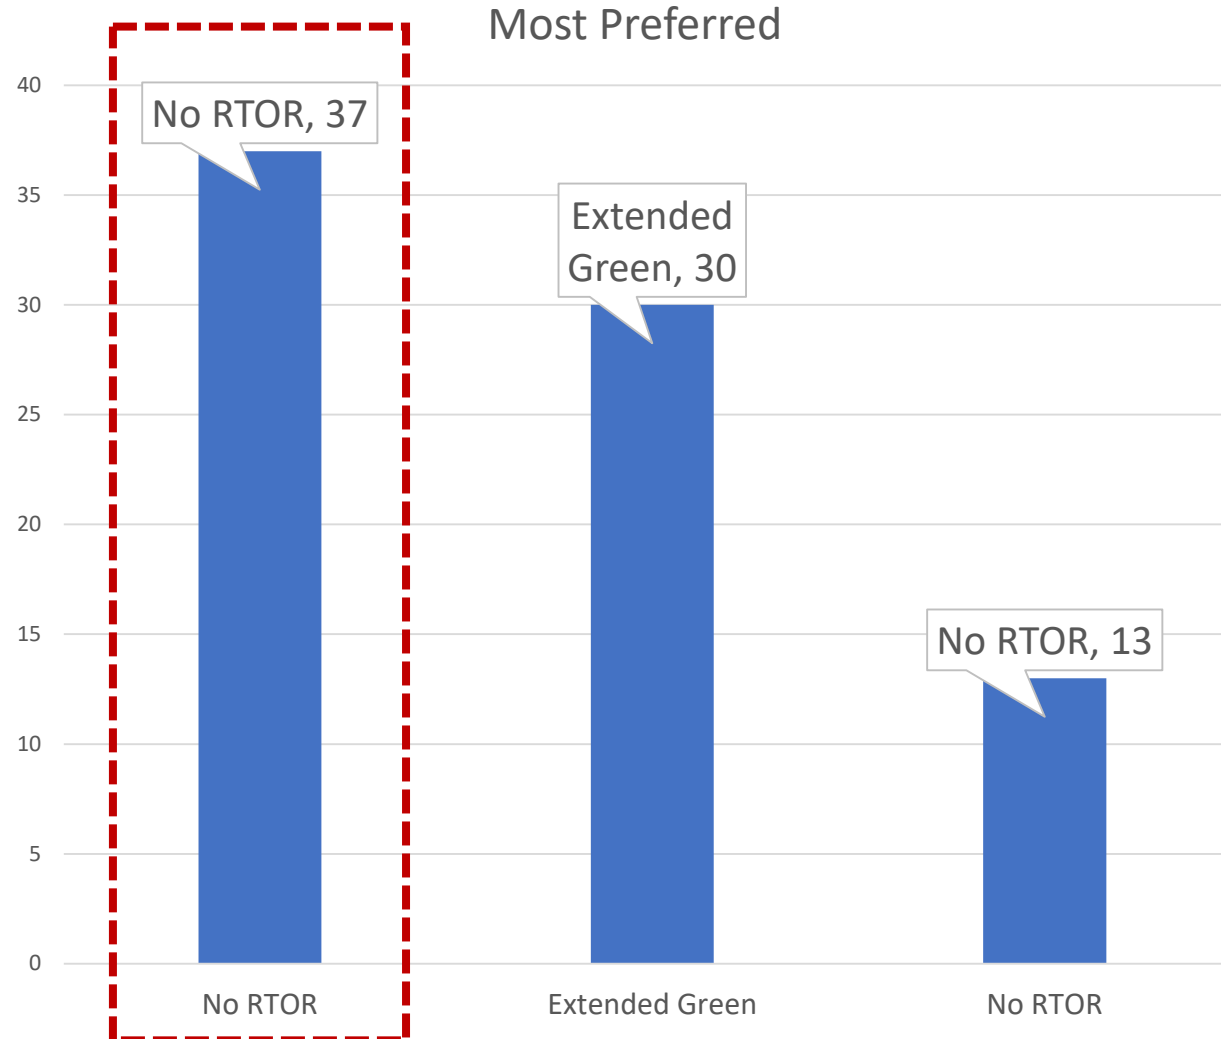

Non-Res Motorists: Changes to the SCA

Non-Res Motorists: Changes to the “Y” Intersection

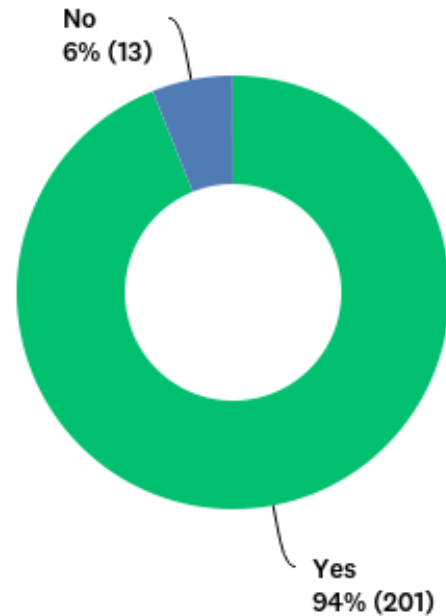

Non-Res Motorists: Changes to the “Y” Signal

Bicyclists – Changes to Corridor

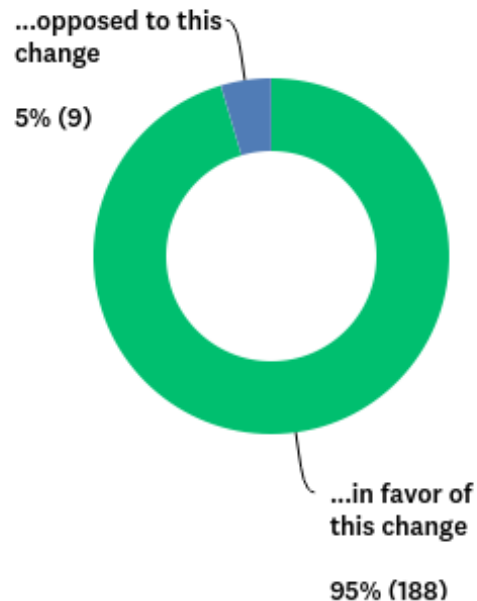

Do you feel the corridor between Sand Hill Road and Avy Avenue should be changed?

Note: If respondent chose no, they were not able to rank the alternatives and skipped to the end

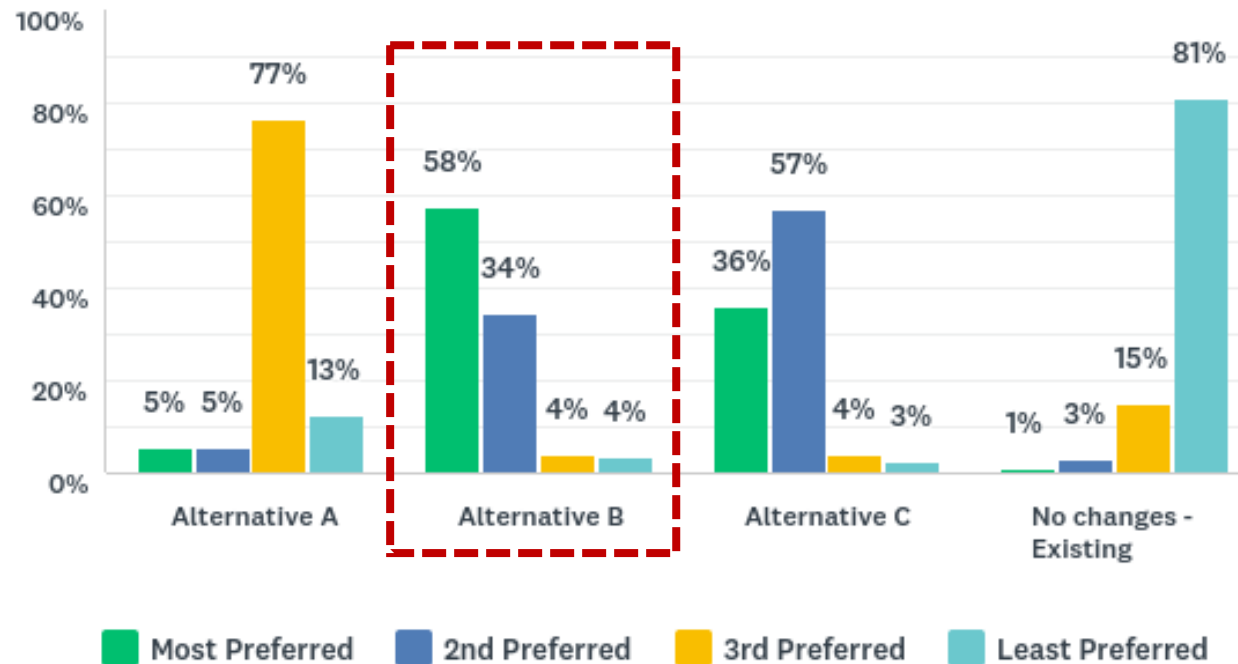

Bicyclists – Responses: Alameda de Las Pulgas

Q6 The roadway section of Alameda de las Pulgas from Avy Avenue to Santa Cruz Ave (Yellow) may be reduced to a 3-lane roadway section consisting of one lane in each direction, with a two way turn lane, in order to add bike lanes, widen sidewalks, and shorten crosswalks (see image below). This realignment would have minor impacts on vehicular traffic. You are...

Bicyclists – Responses: Santa Cruz Ave

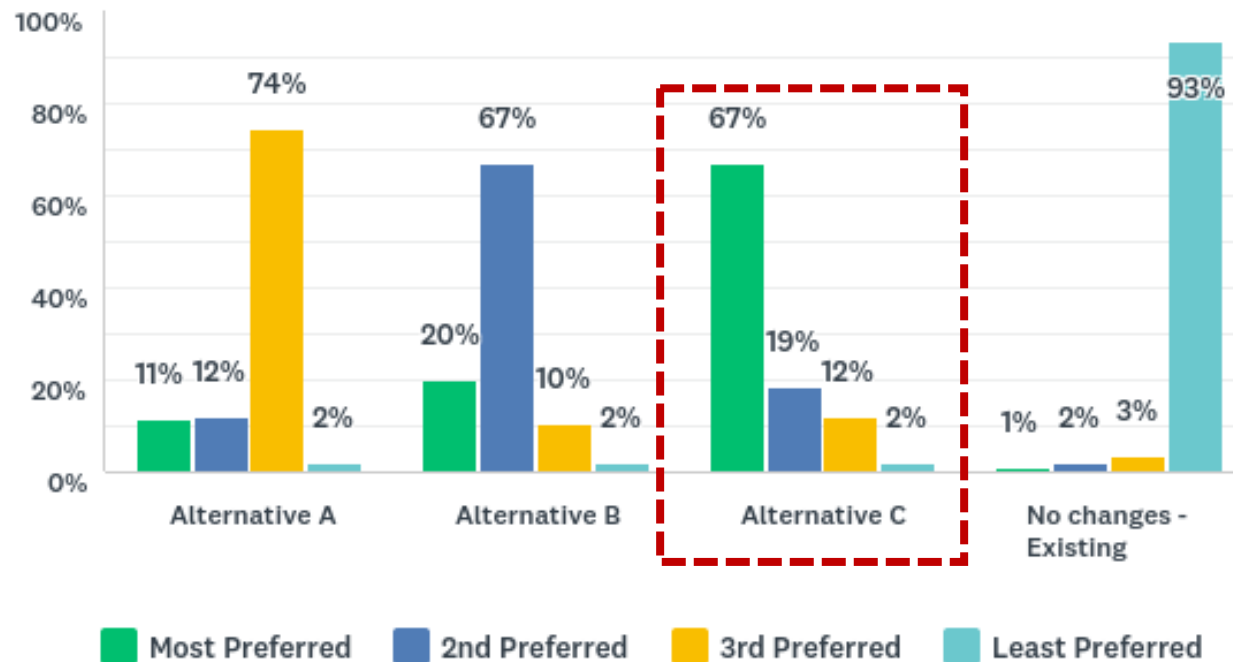

Please select your preferences for each of the above alternatives:(You must choose an different option for each row)

Clearly favors Alternative B

Bicyclists – Responses: “Y” Intersection

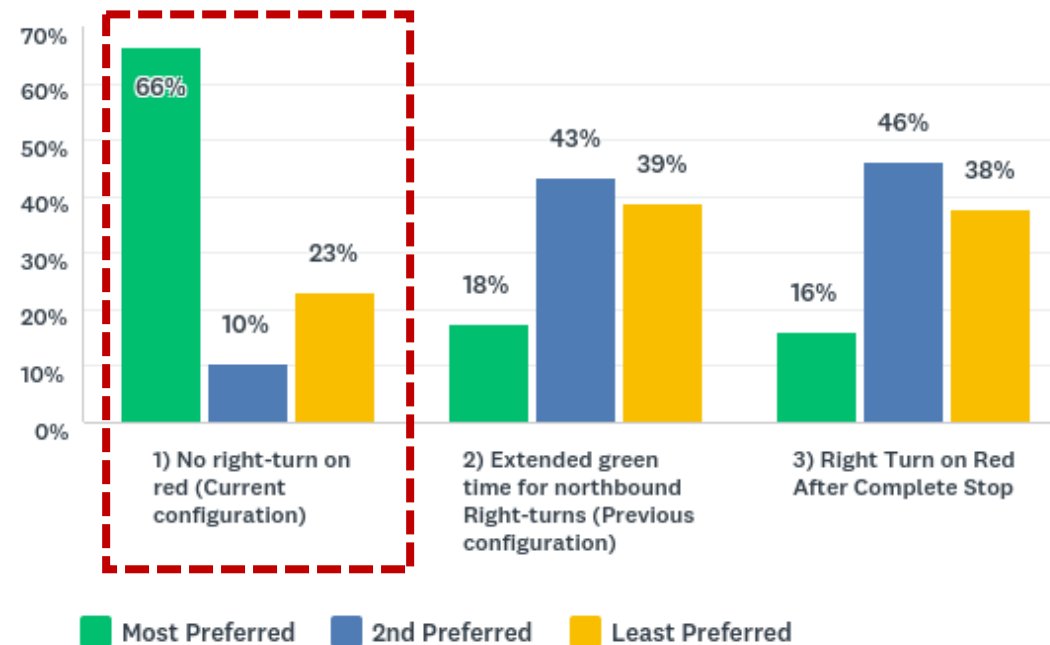

Q8 Please select your preferences for each of the above alternatives:(You must choose an different option for each row)

Clearly Favors Alternative C

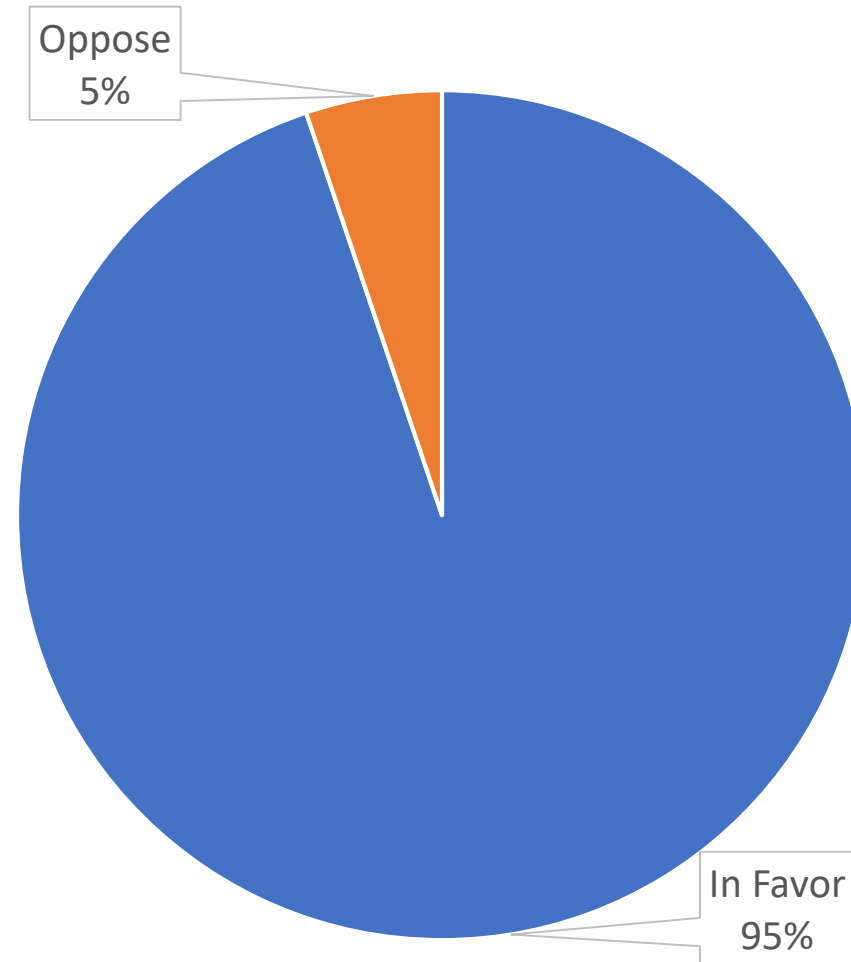

Bicyclists – Responses: “Y” Signal Configuration

Q9 Please select your preferences for each of the above alternatives:(You must choose an different option for each row)

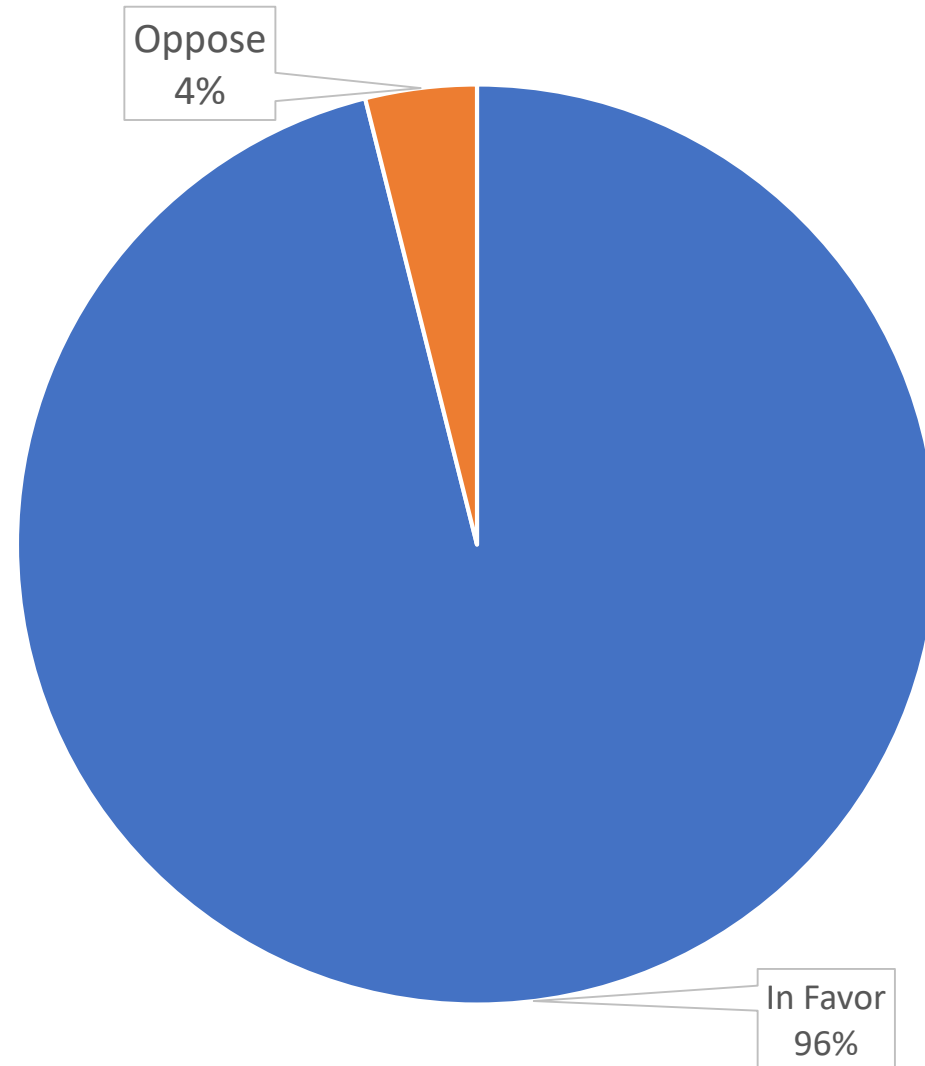

Favors No right-turn on red

Non-Res Bicyclist: Changes to the Corridor

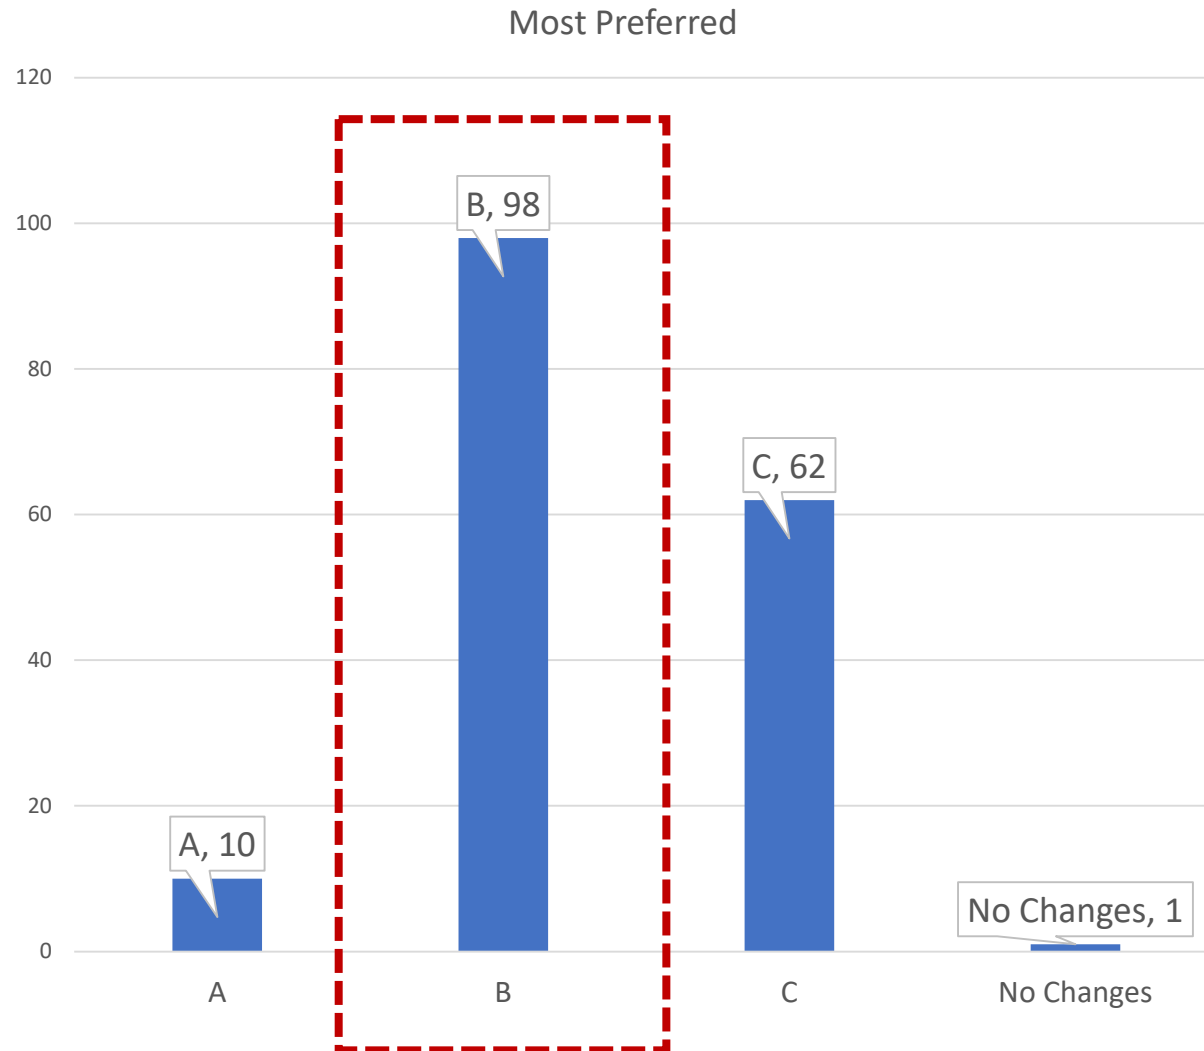

Note: If respondent chose no, they were not able to rank the alternatives and skipped to the end

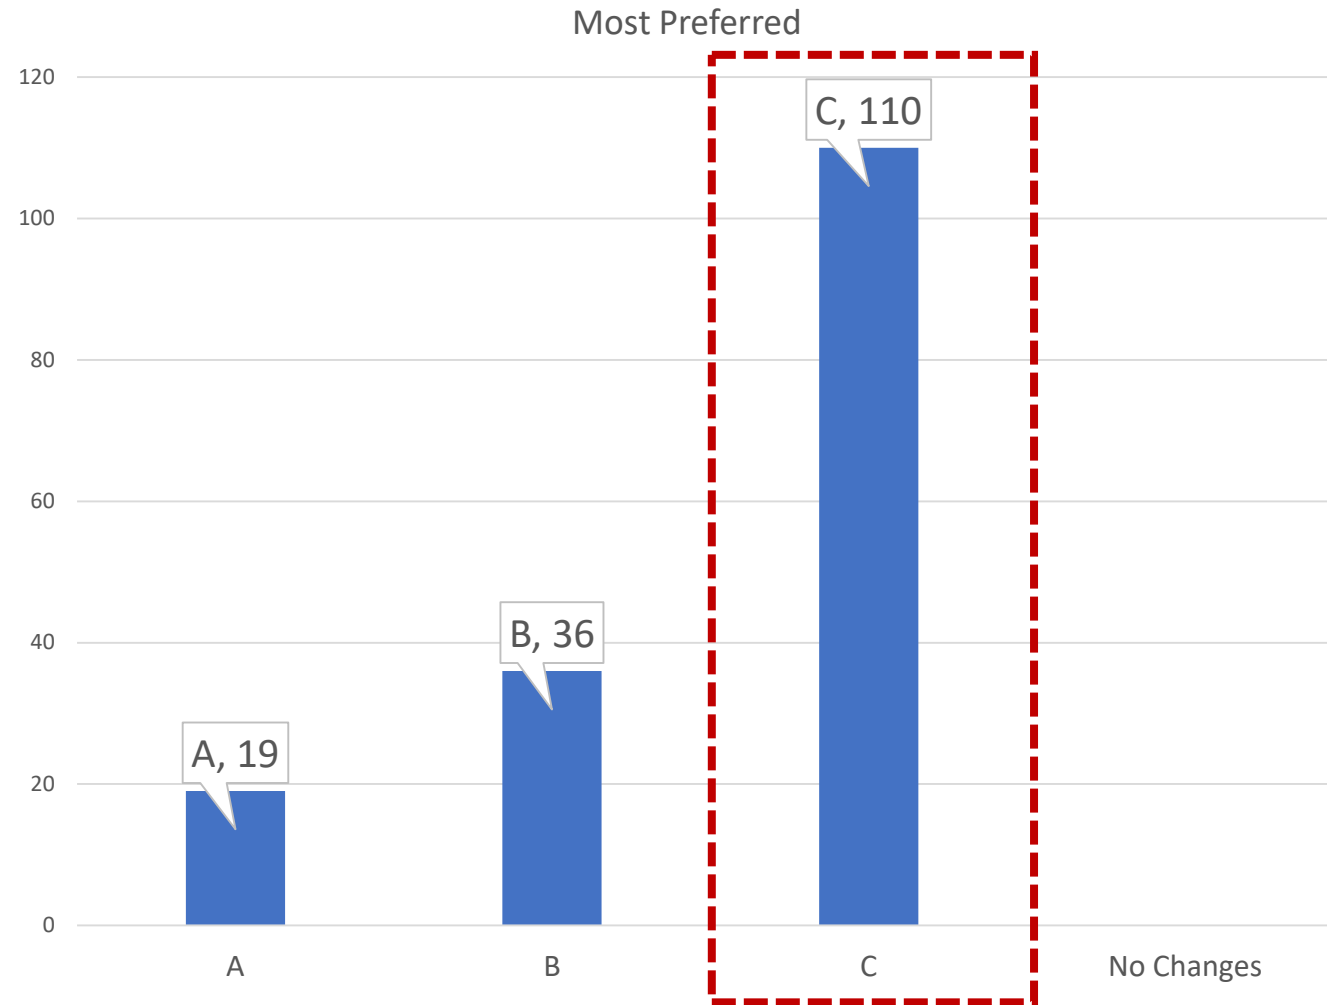

Non-Res Bicyclists: Changes to the ADLP

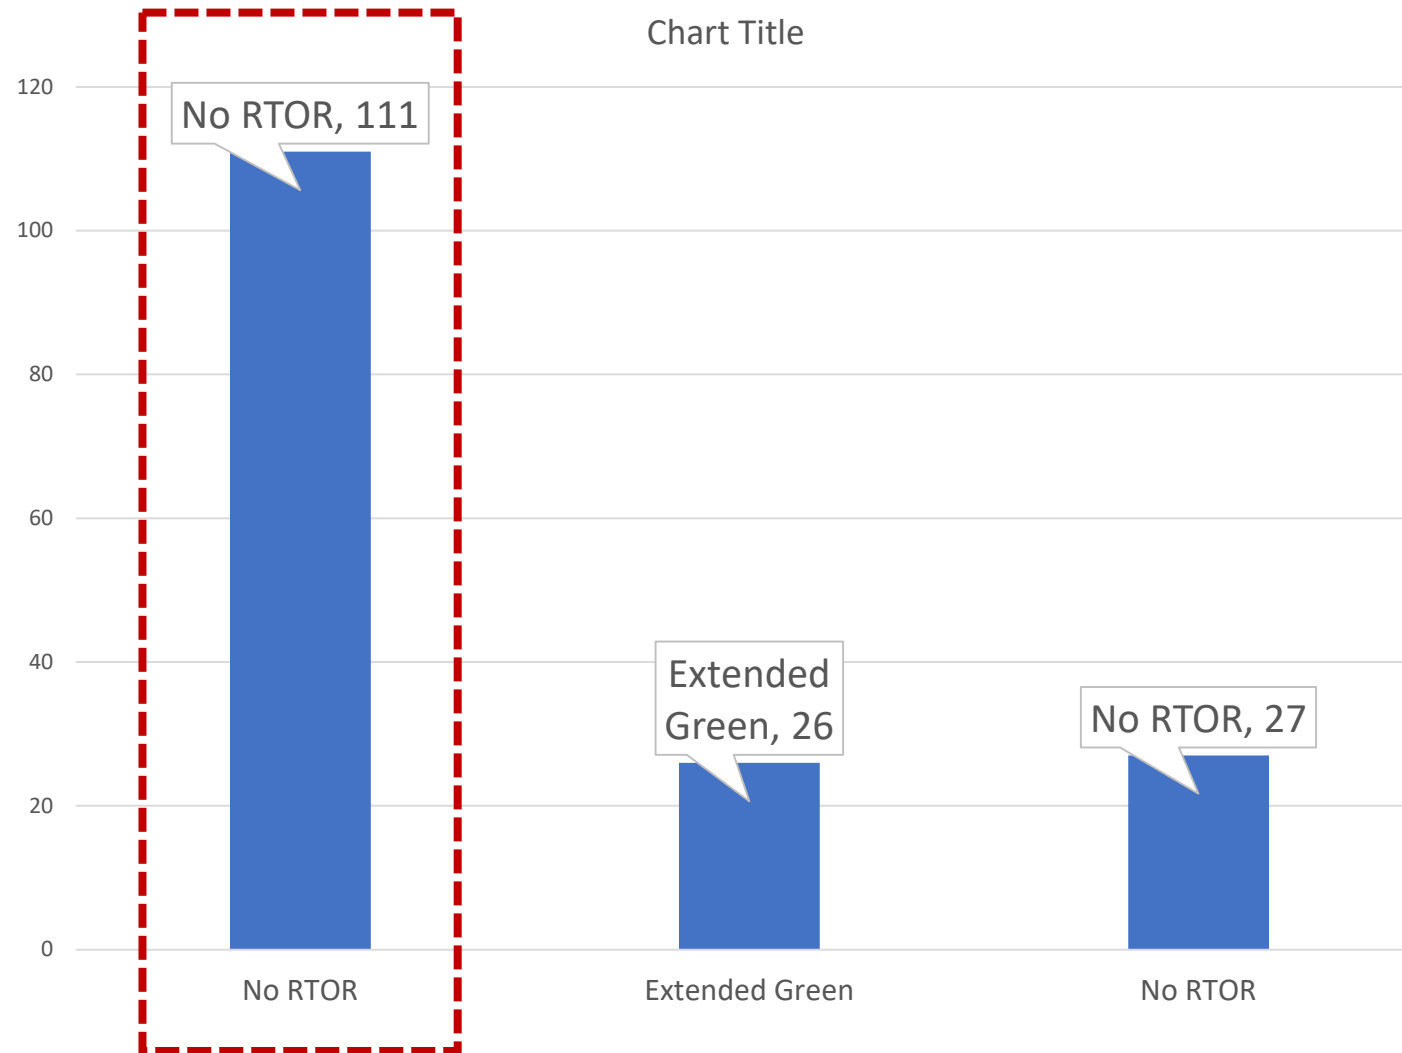

Non-Res Bicyclists: Changes to the SCA

Non-Res Bicyclists: Changes to the “Y” Intersection

Non-Res Bicyclists: Changes to the “Y” Signal

Pedestrians – Summary

	Should the corridor be changed?		Alameda de las Pulgas to be changed		Which Alternative for Santa Cruz Ave (First Choice)				Which alternative for the “Y” Intersection (First Choice)				Which alternative for Signals at Y (First Choice)		
	Yes	No	Yes	No	A	B	C	No	A	B	C	No	1	2	3
Percentage of Pedestrians (15)	100%	0%	100%	0%	0%	40%	60%	0%	7%	47%	40%	7%	71%	29%	0%

Clearly favors alternatives with more sidewalk/crossing enhancements

Comments – Summary

- (65x/12%) - Keep things as they are/No changes necessary/not many peds/bikes/not that dangerous
- (30x/5.5%) - Remove Parking from NB Santa Cruz Ave
- (28x/5.2%) - Current configuration is confusing/unsafe
- (24x/4.4%) - Consider other alternatives (e.g. 10.5)
- (17x/3.2%) - Bike Lanes
- (14x/2.6%) - Speed is too fast/more enforcement
- (14x/2.6%) - Improve sidewalks/crosswalks
- (10x/1.8%) - 25 mph speed limit is too low
- (10x/1.8%) - Keep clear for residents trying to exit their driveways
- (10x/1.8%) - Separate NB SCA through and right turn traffic so there are no conflicts
- (9x/1.7%) - Keep all existing movements from Campo Bello at the “Y”
- (5x/1%) - No hard curbs separating bike lanes. Cyclists want flexibility to maneuver around and not feel trapped
- (3x/1%) - No door zone bike lanes

February 20, 2020

Jim Porter
Director, Department of Public Works
555 County Center
Redwood City, CA 94063

RE: Santa Cruz/Alameda de las Pulgas Safety Improvements

Dear Mr. Porter:

The Bicycle and Pedestrian Advisory Committee to the Board of Supervisors of San Mateo County has, since the formation of the BPAC in 2016, participated actively in the consideration of alternatives for improving pedestrian and bicycle safety in the Santa Cruz Avenue/Alameda de las Pulgas corridor in Menlo Park and adjacent unincorporated areas.

The matter has been discussed at several BPAC meetings, including most recently a meeting on February 20, 2020. At these meetings the BPAC has heard from senior county officials and community representatives. BPAC members have participated in several community meetings, including the recent meeting on January 30, and one alternate member of the BPAC, John Langbein, has been a member of the task force that has been coordinating with the Department of Public Works.

The corridor has received so much attention because it is more than an important transportation artery: it is also very much a neighborhood street. We have heard from parents who fear to let their children cross the street on their way to school and play, and who are thus forced into their cars for relatively short trips. We have heard from cyclists who view this corridor as the most dangerous part of their daily commute, and from others who would consider walking or cycling to work or school or stores but who are deterred by sheer physical risk. It is clear that for several decades we have been prioritizing automobile flow in this corridor over all other considerations, and the result is a community that lives in fear of its own main street.

The BPAC is also cognizant of the Complete Streets Policy set by the Board of Supervisors (resolution 072326; January 8, 2013) and believes that the task force has worked to fulfill this policy.

After a multiyear process that has featured active involvement from the community and the DPW, we are down to a series of alternatives that represent very different approaches to the problem. The BPAC has reviewed these alternatives and has the following recommendations:

COMMITTEE MEMBERS:

Susan Doherty, *Chair* John Langbein (Alternate)
Dianna Butcher, *Vice Chair* Elaine Salinger (Alternate)
Natalie Gore
Bill Kelly

An Advisory Committee to the San Mateo County Board of Supervisors

Adopt Alternative "B" for both the Santa Cruz Avenue and Alameda de las Pulgas sections.

The "road diet" reflected in these alternatives would create a single lane for cars in both the northbound and southbound directions, plus turn lanes, widened sidewalks and buffered bike lanes. It would promote pedestrian and bicycle safety and activity by effectively narrowing the distance that these users would have to negotiate to cross the corridor, and by separating people from cars.

This would be a significant change with substantial community benefits, but it is not such a radical idea. The Alameda is already a two lane street north of Avy and south of Sand Hill (where it becomes Junipero Serra), and so as a practical matter the road diet would simply make this approach consistent through the entire corridor. The community surveys in connection with the project show consistent support from residents for prioritizing safety, even at the cost of eliminating traffic lanes.

We understand that some have expressed reservations about this alternative because of current and projected traffic congestion, especially in the afternoon commute period. But we believe that these concerns are overblown. The analyses appear to assume that the number of cars moving through the corridor is a fixed (and, in the case of projected volumes, growing) quantity, whereas in practice traffic levels are affected by a wide range of factors, including:

- the availability of alternative routes
- the greater use of active modes of transportation (we should, for example, expect that some people will shift from their cars when it is safer to walk or cycle)
- the impact of government programs to deter single passenger car use in urbanizing sectors like downtown Menlo Park

In other words, we believe that rational people and governments will adapt.

On the other hand, if Alternative C is chosen, then we suggest that the two bike lanes on Santa Cruz be widened slightly by reducing the lane width of the center turn lane from 11 to 10 feet, consistent with the widths of the proposed three travel lanes.

Adopt Alternative "C" for the "Y" intersection of Santa Cruz Avenue and Alameda de las Pulgas.

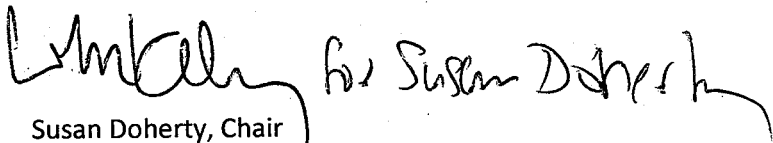

Although none of the alternatives is particularly advantageous for cycling, Alternative C offers the most improvements for pedestrians as it maintains all four crossings of this complex intersection and provides for relatively short crossing distances with median refuges. For cycling, both Alternatives A and C each have some elements that better accommodate cyclists. We suggest that the final plan include both the separated bike lane for northbound Santa Cruz cyclists depicted in Alternative A and the defined bike lane on southbound Alameda depicted in Alternative C.

Do not permit "right turns on red" at the "Y".

Whichever alternative is chosen, however, we believe that in the northbound direction cars should not be permitted to make the right onto Santa Cruz unless there is a green light. This is a troublesome intersection at best, especially for cyclists seeking to continue northbound onto the Alameda, and we fear that a "right turn on red" rule will put cyclists and pedestrians at unreasonable risk.

The BPAC would like to thank the Department for its thoughtful approach to this opportunity, and especially for its efforts to ensure that all relevant constituencies are heard from. We look forward to continuing to work with you to bring the benefits of the project to the residents and other users of the corridor.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Susan Doherty", written over a printed name.

Susan Doherty, Chair
San Mateo County Bicycle and Pedestrian Advisory Committee
