### Let's Hear It for October!

Anyone who has been a boater in the area for any length of time knows that the best month of the year for boating on San Francisco Bay is October. The strong north-westerlies tend to quiet down, and the temperature is often pleasantly warm. Now is the time to shake off those cobwebs, scrub the decks, hop on board and head out for a day, a weekend a week or two, or even longer! Last Saturday I was treated to a mid-day sight of nineteen sailboats starting the annual Barth regatta between Coyote Point and Sequoia Yacht Clubs. It appears COVID-19 has not slowed down the racing!

Your marina staff has been busy this month. The new pump-out has arrived and will be installed soon. This should solve the recent intermittent problems we have had with the old pump. We have also demolished one derelict boat here as well as arranged for eight others to be towed out and demolished. We have now used up all our state funding for derelict vessels, but we have applied for a new grant. Hopefully this will be awarded soon, and we can continue to clean up these eyesores. I want to thank those boat owners who have stepped up and cleaned up their boats rather than continue to let them languish in mossed-covered limbo.

Stay safe, stay healthy, and get out on the water!

- Mark Bettis, Harbormaster

### A Little Bit of Business

The Marina rules and regulations have been updated. There really is nothing new, but we have fleshed out the document such that it more accurately reflects the rules we are currently enforcing. We have also updated and streamlined

our berth application and transfer documents. All of these are available on our web site.

In order to be consistent with our County-approved Berth License Agreement, we are changing the way that we apply late payment fees. Per the Berth License Agreement, fees are due the 10th, and are late if not received by the 25th of the month. Our previous policy has been to waive late fees for payments that are postmarked by the 25th. Starting in November we will enforce the terms of the Berth License Agreement and apply late fees to all balances where payment is not received either in the Redwood City office or at the marina office by the 25th of the month (or if the 25th falls on a weekend or holiday the first business day thereafter). Please be sure checks are mailed in time to arrive by the 25th. Remember you can always call the office and pay by credit card or set up automatic ACH deductions from your checking account. Thank you!

### He's Baaaaack!

Last week marked the first appearance since April of our annual visitor, the male osprey. This is now the third year that he has taken up residence, and he makes himself known by enjoying a breakfast of fresh caught fish atop the piling at the harbor entrance many mornings. To entice him to nest we have piled more sticks atop the nesting platform. Now it's up to mother nature!
