Hi Camille,

My guy was back on site today. We added another row of silt fence. My guy went to get a few more staples for the silt fence in an effort to keep the flap in place. He should finish today.

Thanks,  
Noel

Hi Noel and Bob,

Happy New Year!

For Jessie's reports, Lots 9 and 10 sound fairly well stabilized, with the exception of an improperly installed silt fence. It sounds like its taken a couple weeks to complete this relatively simple task of burying the bottom of a silt fence.

When can your crew complete this task? It will need to occur before Thursday, when rain is forecasted. If this cannot be completed by Thursday, we will need to escalate enforcement.

Please reply with a timeframe for when this can be completed 😊 Thank you
