Hi Marilyn,

It will be a conflict issue if I am involved in the letter, but certainly copy me on it when you send it to the Owner.

Thank you

Hi Camille,

Thank you for talking with me Friday. You gave me a really good direction to go in. This week I will take some pictures of the dangerous areas of the new trails and will write a letter to Chamberlain. I will copy you into it. If you'd like, if you have time, I'd love it if you were able to review it before I send it. But, I know you're super busy--I understand if you don't have the time.

Yesterday, the editor of the LowDown, the newsletter for Highlands and the HOA, contacted me. She read my article and was upset by it. She asked me to write a few paragraphs, including a link to the article, it needs to be given to her tomorrow so that she can include it in the March edition of the newspaper. I have thrown something together, I am including a couple of sentences about the canyon being a conservation corridor which means no development, including creation of new trails are allowed.

Thank you again,

Marilyn Krieger, CCBC
